Da Nang, April 24th 2025

To: - HANOI STOCK EXCHANGE

Based on the information disclosure regulations for listed organizations on the stock market, Central Container Joint Stock Company (Stock code: VSM) would like to provide an explanation regarding the fluctuation of Profit after CIT in the mid-year income statement for the first quarter of 2025, which has changed by 10% or more compared to the same period in 2024, as follows:

Item	The first quarter of 2025	The first quarter of 2024	Spread increase (+)/decrease (-)	Decrease rate (%)
Profit after CIT	2.487.135.609	2.906.810.786	- 419.675.177	14%

*** Reasons:**

In the first quarter of 2025, the volume of container transport and handling through the Company's depot decreased. This is the main reason why the profit after tax on the mid-year financial statements in the first quarter of 2025 decreased compared to the same period in 2024.

The above is the main reason for the difference in profit after CIT in the mid-year income statement for the first quarter of 2025 compared to the same period last year. The Company would like to explain to the Hanoi Stock Exchange.

Thank you very much!
