**REPORT OF THE BOARD OF DIRECTORS ON THE 2024 PERFORMANCE
RESULTS AND THE 2025 OPERATIONAL PLAN**

To: General Meeting of Shareholders of Fortune Vietnam JSC Bank (LPBank)

In 2024, the global economic and political landscape continued to be complex and unpredictable, characterized by numerous risks and uncertainties. Geopolitical and trade tensions escalated further, many countries reinforced trade protection policies, public debt and budget deficits increased, major economies experienced downturns, and disruptions in global supply chains had localized impacts on peace, stability, and economic growth worldwide. Additionally, natural disasters and extreme weather events severely affected people's lives and socio-economic development in many countries.

However, the global economy has been gradually stabilizing as global trade improved, inflationary pressures eased, financial market conditions remained accommodative, and labor markets recovered positively. The global economy maintained its growth momentum in 2024, with an estimated GDP growth rate of 3.2%, slightly higher than the 3.1% recorded in 2023, according to the Organization for Economic Cooperation and Development (OECD).

In Vietnam, under the leadership of the Party, the proactive, flexible, decisive, and effective governance of the Government and the State Bank, along with the close coordination of ministries, sectors, and local authorities, and the solidarity, trust, and support of the people and the business community, the country's socio-economic situation in 2024 continued its clear recovery trend. Growth improved month by month and quarter by quarter, with GDP surpassing the planned target at 7.09%, inflation remaining below the set target, macroeconomic stability ensured, and key sectoral targets achieved or exceeded. Vietnam emerged as a bright spot for economic growth both regionally and globally.

At Fortune Vietnam Bank (LPBank), the Board of Directors (BOD) closely monitored global and domestic economic developments and provided timely, decisive, and flexible directives to the Executive Board for business operations. In 2024, LPBank streamlined its organizational structure, operated efficiently, and exceeded the business targets approved by the General Meeting of Shareholders (GMS). The bank steadily realized its strategic goal of becoming the No. 1 retail bank in rural areas and tier-2 cities through digital transformation and ranking among the top 5 priority banking service providers in major urban centers.

The BOD hereby presents the GMS with the report on the BOD's performance in 2024 and the operational plan for 2025 as follows:
