REPORT OF THE BOARD OF MANAGEMENT

4. Statement of the responsibility of the General Director

The General Director of the Company is responsible for the preparation of the consolidated financial statements which give a true and fair view of the consolidated financial position of the Company as of March 31, 2025 as well as its consolidated results of operation and cash flows for the year then ended. In order to prepare these consolidated financial statements, the General Director has considered and complied with the following matters:

- Selected the appropriate accounting policies and applied them consistently;
- Made judgments and estimates that are reasonable and prudent;
- The financial statements of the Company are prepared on a going concern basis unless it is inappropriate to presume that the Company will continue in business.

The General Director is responsible for ensuring that proper accounting records are kept, which disclose, with reasonable accuracy at any time, the consolidated financial position of the Company and that the consolidated financial statements are prepared in compliance with the registered accounting policies stated in the Notes to the Consolidated Financial Statements. The General Directors is also responsible for safeguarding the assets of the Company and thus taking reasonable steps for the prevention and detection of fraud and other irregularities.

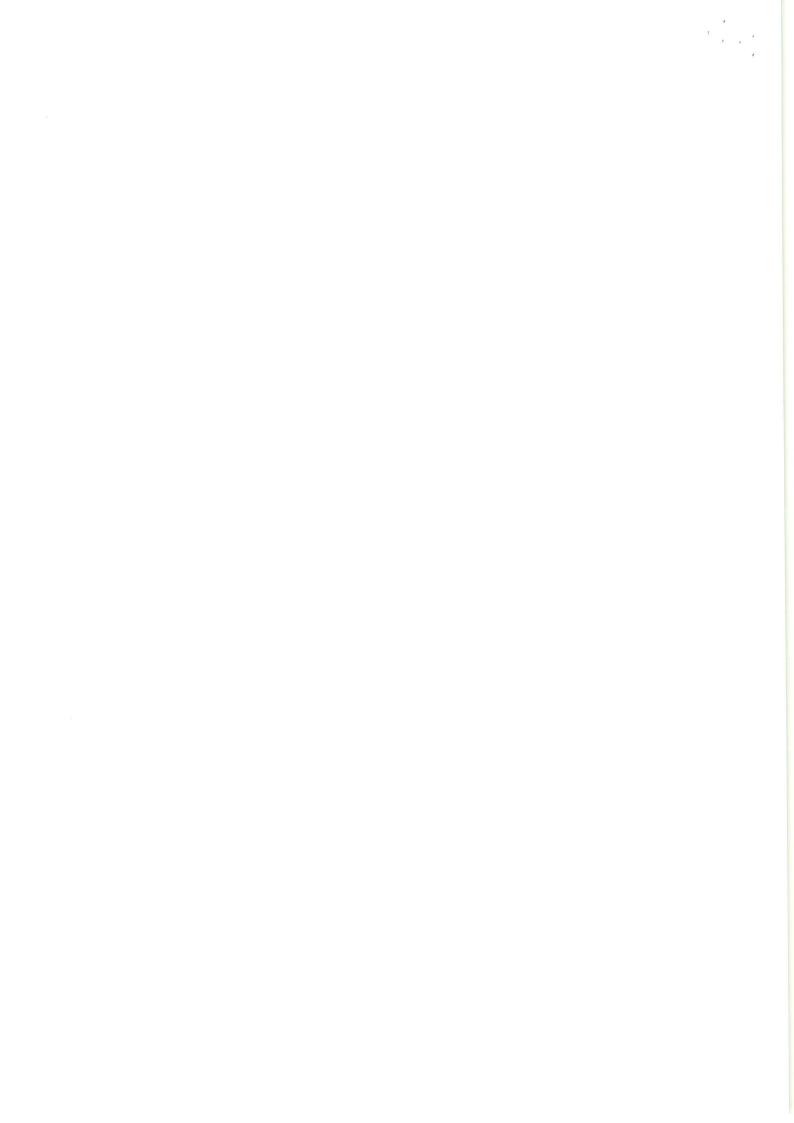

5. Approval of the Consolidated Financial Statements

Dong Nai, April 28, 2025

In the General Director's opinion, the consolidated financial statements consisting of Consolidated Balance Sheet as at March 31, 2025, Consolidated Income Statement, Consolidated Cash Flow Statement and Notes to the Consolidated Financial Statements enclosed with this report give a true and fair view of the consolidated financial position of the Company as well as its consolidated operating results and consolidated cash flows for the fiscal year ended March 31, 2025

The Consolidated financial statements are prepared in compliance with Vietnamese Accounting Standards and the Vietnamese Accounting System.

II. ACCOUNTING PERIOD AND REPORTING CURRENCY

1. Fiscal year

The fiscal year is begun on January 01 and ended December 31 annually.

2. Reporting currency

Vietnam Dong (VND) is used as a currency unit for accounting records.

III. ADOPTION OF ACCOUNTING STANDARDS AND POLICIES

1. Applicable Accounting System

The Company applied Circular No. 20/02014/TT-BTC ("Circular 200") issued by the Vietnam Ministry dated December 22, 2014 guiding the preparation and methods Financial Statements. Circular 200 replaces the guide before in the Circular No. 15/2006/TT-BTC dated March 20, 2006 and the Circular No. 244/2009/TT-BTC dated December 31, 2009 of Minister of Finance.

The Company applied Circular No. 202/2014/TT-BTC ("Circular 202") issued by the Vietnam Ministry dated December 22, 2014 guiding the preparation and methods Consolidated Financial Statements. Circular 202 replaces the guide before in the part XIII of Circular No. 161/2007/TT-BTC dated December 31, 2007 of Minister of Finance.

2. Disclosure of compliance with Vietnamese Accounting Standards and the Vietnamese Accounting System

We conducted our accounting, preparation and presentation of the consolidated financial statements in accordance with Vietnames Accounting Standards and other relevant statutory regulations. The consolidated financial statements give a true and fair view of the state of affairs of the Company and the results of its operations as well as it cash flows.

The selection of figures and information presented in the notes to the consolidated financial statements is complied with the material principles in Vietnamese Accounting Standard No.21 - Presantation of the financial statements.

IV. APPLICABLE ACCOUNTING POLICIES

1. Changes in accounting policies and disclosures:

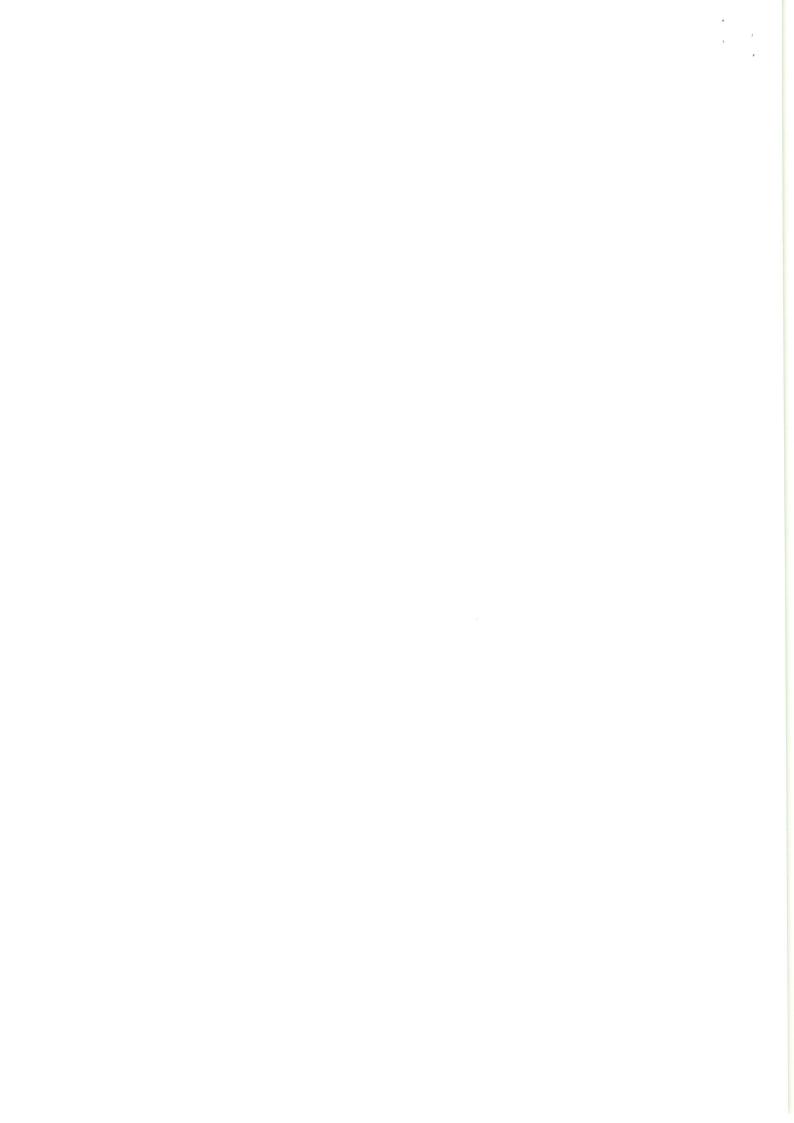

On December 22, 2014, the Ministry of Finance issued Circular No. 200/2014/TT-BTC guiding the preparation and presentation of consolidated financial statements to replace Decision 15/2006/QD-BTC was issued on March 20, 2006 and Circular 244/2009/TT-BTC was issued on December 31, 2009 by the Ministry of Finance, and takes effect for the preparation and presentation of the Financial Statements from the fiscal year beginning on or after January 1, 2015.

On December 22, 2014, the Ministry of Finance issued Circular No. 202/2014/TT-BTC guiding the preparation and presentation of consolidated financial statements to replace part XIII- Circular 161/2007/TT-BTC was issued on December 31, 2007 by the Ministry of Finance, and takes effect for the preparation and presentation of the Consolidated Financial Statements from the fiscal year beginning on or after January 1, 2015.

2. Basis for preparing consolidated financial statements:

The financial statements of the subsidiary are consolidated from the purchase date when the Company starts control to the date it ceases the control

The subsidiaries' financial statements are prepared for the same accounting period as Parent Company's under the accounting policies in consistency with Parent Company's. The adjustments for any different accounting policies are implemented to ensure the consistency between the Subsidiaries and Parent Company.

All inter-"Companies" balances and revenue, income, expenses incurred from transactions of "Companies", including inrealized gains incurred from inter"Companies" transactions in the assets' value are completely eliminated.

Unrealiazed loss incurred from intra-group transaction recorded in the assets' value are eliminated when the expenses resulting in the loss are unrecoverable.

Interest of uncontrolled shareholders presents the portion in gain or loss and net assets of the subsidiaries that are not held by the Company and presented separately in the consolidated Income Statement and from shareholders' equity of "Companies" in the owner's equity in the consolidated Balance Sheet.

Goodwill arising from the acquisition of a subsidiary is the difference between the cost of the investment and the fair value of the subsidiary's net identifiable assets at the acquisition date. Goodwill is amortized over an estimated useful life of not more than 10 years. Periodically, the Company re-evaluates the loss of goodwill, if there is evidence that the loss of goodwill is greater than the annual allocation, it shall be allocated according to the loss of goodwill immediately within the year.

3. Foreign exchange rate applicable in accounting

The Company has translated foreign currencies into Vietnam Dong at the actual rate and book rate.

Principles for determining the actual rate

All transactions denominated in foreign currencies which arise during the period (trading foreign currencies, capital contribution or receipt of contributed capital, recording receivables and payables, purchasing assets or costs immediately paid by foreign currencies) are converted at the actual exchange rates ruling as of the transaction dates.

Closing balance of monetary items (cash, cash equivalents, payables and receivables, except for prepayments to suppliers, prepayments from customers, pre-paid expenses, deposits and unearned revenue) denominated in foreign currencies should be revaluated at the actual rate ruling as of the balance sheet date.

Principle for determining book rate

When recovering receivables, deposits or payments for payables in foreign currencies, the Company uses specific identification book rate.

When making payment by foreign currencies, the Company uses moving weighted average rate.

4. Principles for recording cash and cash equivalents

Cash includes cash on hand, demand deposit and cash in transit.

Cash equivalents comprise term deposits and other short-term investments with an original maturity of three months or less, highly liquid, readily convertible to known amount of cash and subject to an insignificant risk of changes in value.

5. Principles for accounting financial investments

Principles for accounting held-to-maturity investments

Held-to-maturity investments include term deposits and other held-to-maturity investments.

These investments are presented in the consolidated financial statements as short-term assets if the remaining maturity is less than 12 months or as long-term assets if the remaining maturity is 12 months or more from the reporting date.

6. Principles for recording trade receivables and other receivables:

Principle for recording receivables: At original cost less provision for doubtful debts.

The classifying of the receivables as trade receivables, inter-company receivables and other receivables depends on the nature of the transaction or relationship between the company and debtor.

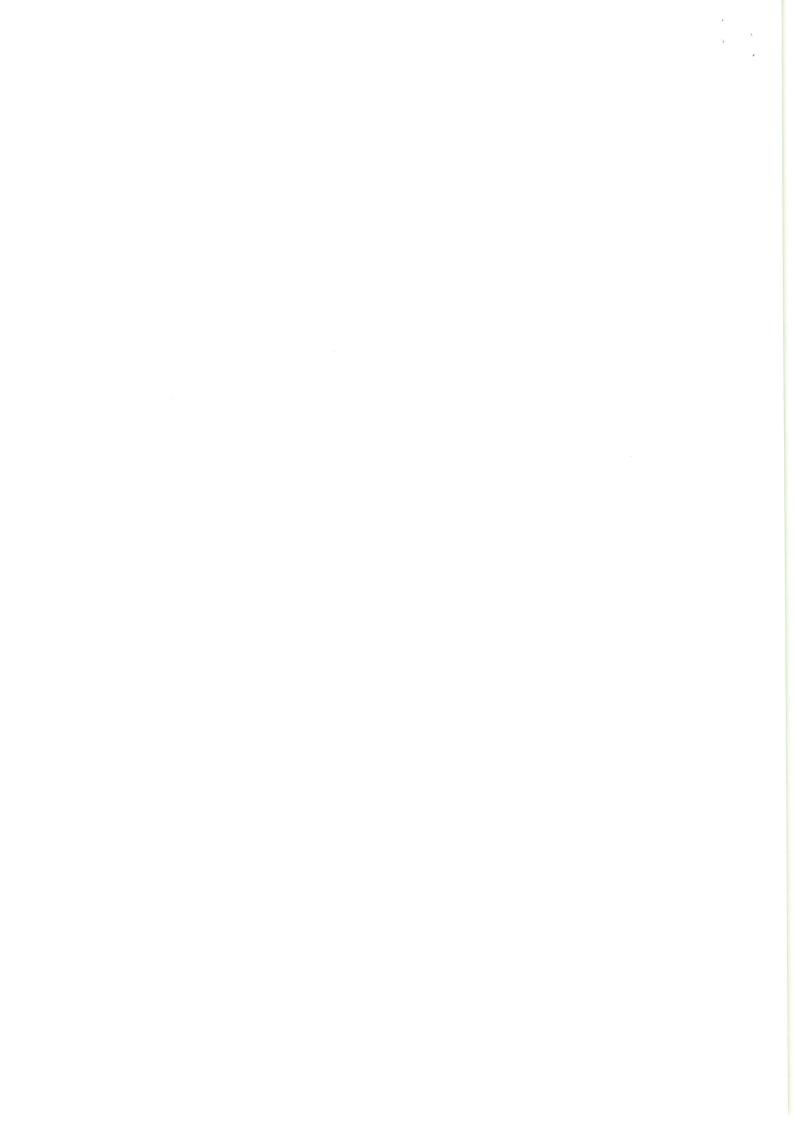

Method of making provision for doubtful debts: Provision for doubtful debts is estimated for the loss value of the receivables, other held-to-maturity investments similar to doubtful debts that are overdue and undue, but are likely to become possibly irrecoverable due to insolvency of debtors who go bankrupcy, making procedures for dissolution, go missing or run away....

7. Principles for recording inventories:

Principles adopted in recording inventory: Inventories are stated at original cost less (-) the provision for the decline in value of obsolete and deteriorated inventories.

Original costs are determined as follows:

- The original cost of materials, merchandises consists of costs of purchase, costs of transportation and other costs incurred in bringing the inventories to their present location and condition.

- Finished goods: costs of materials, direct labor and manufacturing overheads which are allocated on the basis of unit price of labor cost for each finished good.
- Work in progress: costs of raw materials, labor and other directly costs for producing inventories incurred in the duration of building works in progress.

Method of calculating inventories' value: Weighted average method.

Method of accounting for the inventories: Perpetual method.

Method of making provision for decline in value of inventories: Provision for decline in value of inventories is made when the net realisable value of inventories is lower than their original cost. Net realisable value is the estimated selling price less the estimated costs of completion and selling expenses. Provision for decline in value of inventories is the difference between the cost of inventories greater than their net realisable value. Provision for decline in value of inventories is made for each inventory with the cost greater than the net realisable value.

8. Principles for recording fixed assets:

8.1 Principles for recording tangible fixed assets:

Tangible fixed assets are stated at original cost less accumulated depreciation. The initial cost of a tangible fixed asset comprises all expenditures of bringing the asset to its working condition and location for its intended use. The expenditures incurred after the initial cost are capitalised as an additional cost of tangible fixed assets when they have resulted in an increase in the future economic benefits expected to be obtained from the use of those tangible fixed assets. The expenditures which do not meet the above conditions are charged to the expenses in the year.

When the assets are sold or disposed, their original costs and the accumulated depreciation which have been written off and any gain or loss from disposal of assets are recorded in the income statement.

Tangible fixed assets purchased

The original cost of purchased tangible fixed assets shall consist of the actual purchase price (less (-) trade discounts or reduction), taxes (excluding taxes to be refunded) and relevant expenses calculated to the time when the assets are put into operation such as fees for installation and trial operation of fixed assets; specialists and other direct costs.

Fixed assets which are buildings, structures attached to land use right, the value of land use right is computed separately and recorded as intangible fixed assets.

8.2 Method of depreciating and amortizing fixed assets

Depreciation is charged to write off the cost of fixed assets on a straight line basis over their estimated useful lives. Useful life means the duration in which the tangible fixed assets produce their effect on production and business.

The estimated useful life for assets is as follows:

Buildings and structures5 - 50 yearsMachinery and equipment3 - 20 yearsTransportation and facilities4 - 10 yearsMachinery & Equipment5 - 10 yearsOthers5 years

Land use rights with a term are amortized in accordance with the term on the land use rights certificate.

Indefinite land use rights are recorded at original cost and are not amortized.

9. Principles for recording construction in progress:

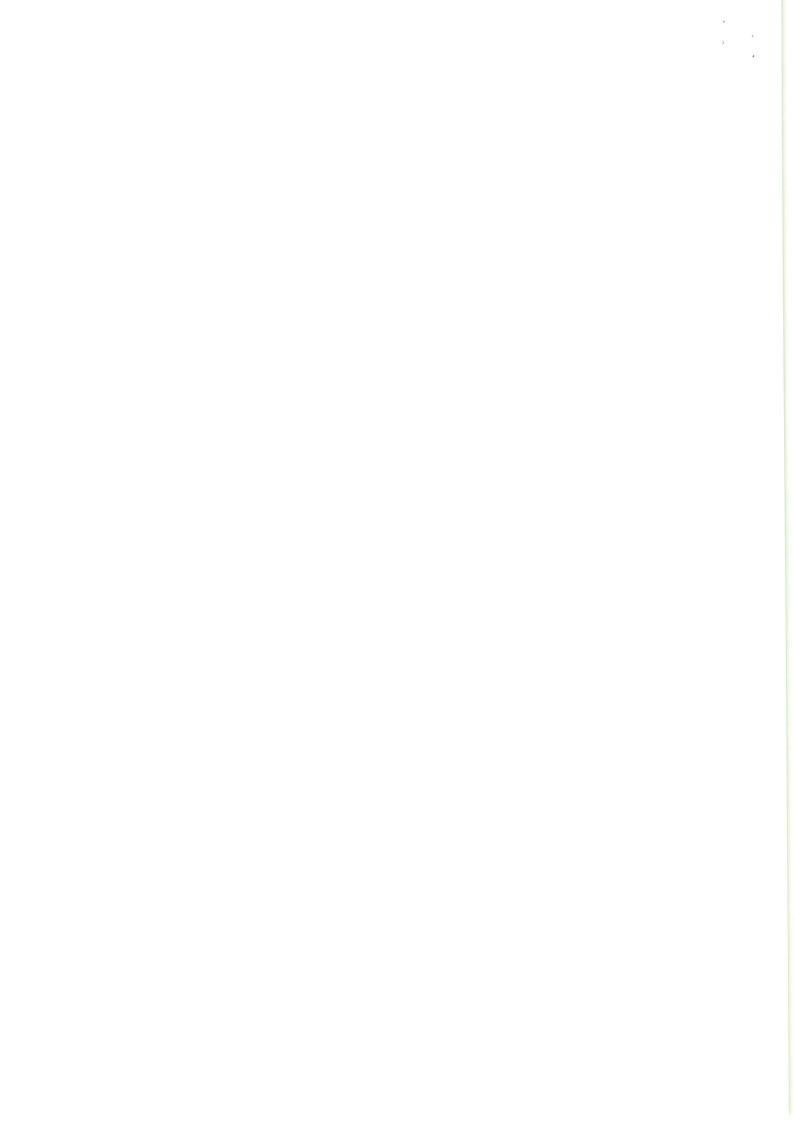

Construction in progress is stated at original cost. This cost includes all costs necessary for new construction or repair, renovation, expansion or technical re-equipment such as:

- Construction costs;
- Equipment cost;
- Other costs.

These costs are capitalised as an additional cost of asset when the works have been completed. After the works have been finalized, the asset will be handed over and put into use.

10. Principles for recording prepaid expenses

Prepaid expenses are all expenses that actually incurred but relate to the operating result of several accounting periods. The Company's prepaid expenses include: Tools and other expenses.

Method of allocating prepaid expenses: The determining and allocating of prepaid expenses into costs of production and doing business of each period is on a straight-line basis. Based on the nature and level of each expense, the term of allocation is defined as follows: short-term prepaid expenses should be allocated within one year; Long-term expenses should be allocated in the term from 12 months to 36 months.

11. Principles for recording liabilities

Liabilities are recorded at original cost and not lower than the payment obligation.

Liabilities shall be classified into trade payables, inter-company payables and other payables depending on the nature of transactions and relationship between the Company and debtors.

Liabilities must be kept records in detail according to payment schedule, creditor, type of original currency (including revaluation of liabilities payable which satisfying the definition of monetary assets denominated in foreign currencies) and other factors according to requirements of the enterprise.

At the reporting date, if it is evident that there is an unavoidable loss, an amount payable shall be recorded according to cautious rules.

12. Principles of loan recognition

The value of loans is recognized as the total amount borrowed by banks.

Loans are tracked in detail by each lender, each debtor, each debt contract and each type of debt asset.

13. Principles of recording borrowing costs:

Principles of recording borrowing costs: Interest and other expenses directly related to the enterprise's loans are recorded as production and business expenses in the period.

14. Principles for recording owner's Equity

Principles for recording owner's Paid-in Capital

The owners' paid-in capital is the amount that is initially contributed or supplemented by shareholders. The owners' paid-in capital will be recorded at the actual contributed capital by cash or assets calculated according to the par value of issued shares in the early establishment period or additional mobilization to expand operation.

Principles for recognising undistributed profit:

The undistributed profit is recorded at the profit (loss) from the Company's result of operation after deducting the current year corporate income tax and the adjusted items due to the retroactive application of changes in accounting policy and adjustments for material misstatement of the previous year.

The distributing of profit is based on the charter of the Company approved by the annual shareholder meeting.

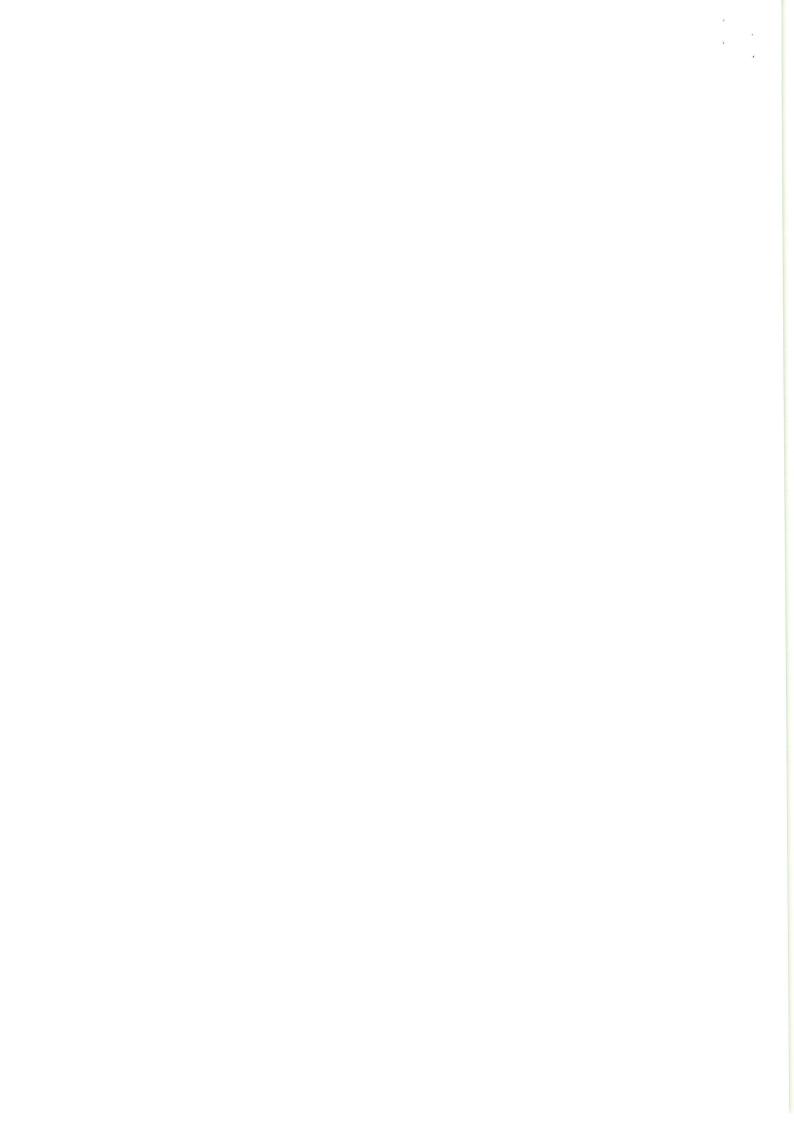

15. Principles for recording revenues

Revenue from goods sold

Revenue from the sale of good should be recognised when all the five (5) following conditions have been satisfied:1) The enterprise has transferred to buyer the significant risks and rewards of ownership of the goods; 2) The enterprise retains neither continuing managerial involvement as an owner nor effective control over the goods sold; 3) The amount of revenue can be measured reliably; When the contract specifies that buyers are entitled to return products, goods they have bought under specific conditions, the enterprise will record the revenue only when those conditions no longer exist and the buyers do not have right to return products, goods (except for changing to other goods, services) 4) The economic benefits associated with the transaction has flown or will flow to the enterprise; 5) The costs incurred or to be incurred in respect of the transaction can be measured reliably.

Revenue from service rendered

Revenue from services rendered is recorded when the result of the supply of services is determined reliably. In case where the services are rendered in several periods, the revenue will recorded by the part of completed works at the balance sheet. Revenue from services rendered is determined when the following four conditions have been satisfied: 1. The revenue is determined firmly; When the contract specifies that buyers are entitled to return the service they have bought under specific conditions, the enterprise will record the revenue only when those conditions no longer exist and the buyers do not have right to return service; 2. The economic benefits associated with the transaction has flown or will flow from the supply of the provided service; 3. Part of completed works can be determined at the balance sheet date; 4. The costs incurred or to be incurred in respect of the transaction can be measured reliably.

If the contract's results can not be determined firmly, the revenue will be recorded at the recoverable level of expenses recorded.

Principles for recording financial income

Financial incomes include interests, royalties, distributed dividends and profits and income from other financing activities. Income arising from interests, royalties, distributed dividends and profits of the enterprises shall be recognized if they simultaneously satisfy the two (2) conditions below 1. It is possible to obtain economic benefits from the concerned transactions; 2. Income is determined with relative certainty.

- Interests recognized on the basis of the actual time and interest rates in each period;
- Distributed dividends and profits shall be recognized when shareholders are entitled to receive dividends or the capital-contributing parties are entitled to receive profits from the capital contribution.

When an amount which has been recorded as an income becomes irrecoverable, such irrecoverable or uncertainly recoverable amount must be accounted as expense incurred in the period, but not recorded as income decrease.

When it is impossible to recover an amount previously recorded as revenue, the amount that is likely to be unrecoverable or uncertainly recoverable must be accounted for as an expense incurred in the period, not recorded as a reduction in revenue.

16. Principles and method of recording cost of goods sold

Cost of goods sold are the cost of products, goods, services; expenses related to trading the investment properties and other expenses recorded in the cost of goods sold or recorded a decrease in the cost of goods sold in reporting period. The cost of goods sold is recorded at the date the transaction incurs or likely to incur in the future regadless payment has been made or not. The cost of goods sold and revenue shall be recorded simultaneously on conformity principles. Expenses exceeding normal consumption level are recorded immediately to the cost of goods sold on prudent principle.

17. Principles and method of recording financial expenses

Financial expenses include expenses or loss related to the financial investment, borrowing cost and capital borrowing, contribution in associate, provision for devaluation of financial investment, loss from sale of foreign currencies, loss from foreign exchange loss and other financial expenses.

Financial expenses are recorded in details by their content and determined reliably when there are sufficient evidences on these expenses.

18. Principles and methods of recording current taxes and deffered taxes

Corporate income tax includes current corporate income tax and deferred corporate income tax incurred in the year and set basis for determining operating result after tax in current fiscal year.

Current tax: is the tax payable on the taxable income and tax rate enacted in current year in accordance with the law on corporate income tax.

The tax amounts payable to the State budget will be finalized with the tax office. Differences between the tax amounts payable specified in the book and the tax amounts under finalization will be adjusted when the tax finalization has been issued by the tax office.

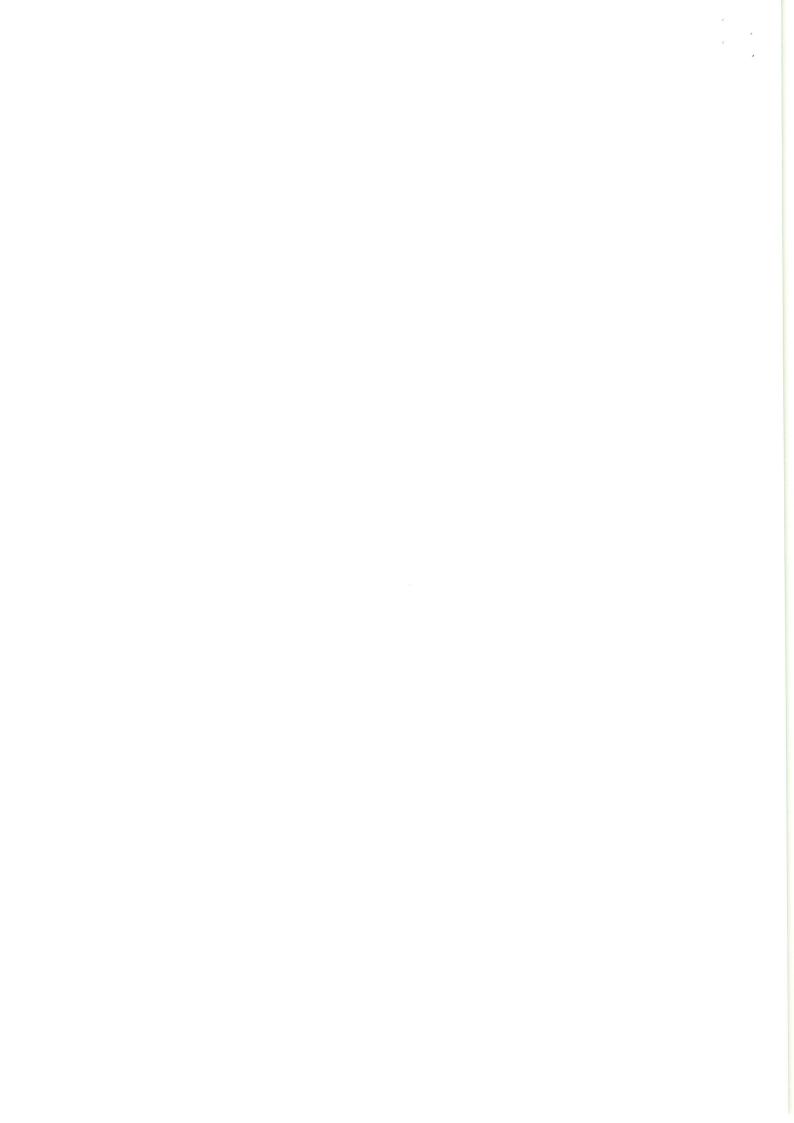

The Company pays tax at 20%. The Company has been finalized by the Tax Department till 2019.

Canh Dong Viet Joint Stock Company is entitled to CIT incentives according to Official Letter No. 2266/CT-THDT dated June 8, 2016 as follows: The company is exempted from tax for 02 years (2016-2017) and reduced by 50% (2018-2021) tax payable in the next 04 years (2018-2021) with the preferential tax rate of 10%. As of December 31, 2024, the company has been inspected for tax finalization till year 2021

19. Principles for recording earnings per share

Basic earnings per share is calculated by dividing net income available to common shareholders before appropriating to Bonus and Welfare Fund by the weighted-average number of common shares outstanding during the period.

Diluted EPS is calculated by dividing net income available to common shareholders (after adjusting dividends of preferred conversible shares) by the weighted-average number of common share outstanding and the weighted-average number to be issued in case where all dilutive potential common are converted into common shares.

20. Financial instruments:

Initial recognition:

Financial assets

According to Circular No. 210/2009/TT-BTC dated November 06, 2009 (Circular No. 210), financial assets are classified properly, for the purpose of presentation in the financial statements, into the financial assets which are stated at fair value through the Income Statement, loans and receivables, held-to-maturity investments and available-for-sale financial assets. The Company decides to classify these assets at the date of initial recognition.

At the date of initial recognition, the financial assets are recognized at cost plus transaction cost that are directly attributable to the acquisition of the financial assets.

Financial assets of the Company comprise cash, short-term deposits, trade accounts receivables and other receivables.

Financial liabilities

According to Circular 210, financial assets are classified properly, for the purpose of presentation in the financial statements, into the financial liabilities which are stated at fair value through the Income Statement, financial liabilities determined on amortised cost basis. The Company decides to classify these liabilities at the date of initial recognition.

At the date of initial recognition, the financial liabilities are recognized at cost plus transaction cost that are directly attributable to the acquisition of the financial liabilities.

Financial liabilities of the Company comprise trade payables, other payables, borrowings and liabilities.

Re-measurements after initial recognition

Currently, there are no requirements for the re-measurement of the financial instruments after initial recognition.

Offsetting

Financial assets and financial liabilities are offset and the net amount reported in the report on financial position if, and only if, there is a currently enforceable legal right to offset the financial assets against financial liabilities or vice-versa and there is an intention to settle on a net basis or to realize the assets and settle the liability simultaneously.

21. Related parties

Related parties include: Enterprises and individuals that directly, or indirectly through one or more intermediaries, control, or are controlled by, or are under common control with the Company. Associates and individuals owning, directly or indirectly, an interest in the voting power of the Company that gives them significant influence over the enterprise, key management personnel, such as General Director, Board of Management and close members of the family of these individuals and companies associated with these individuals also constitute related parties. In considering each possible related party relationship, attention is directed to the substance of the relationship, and not merely the legal form.

22. Principles for presenting assets, revenue and operating results by segment

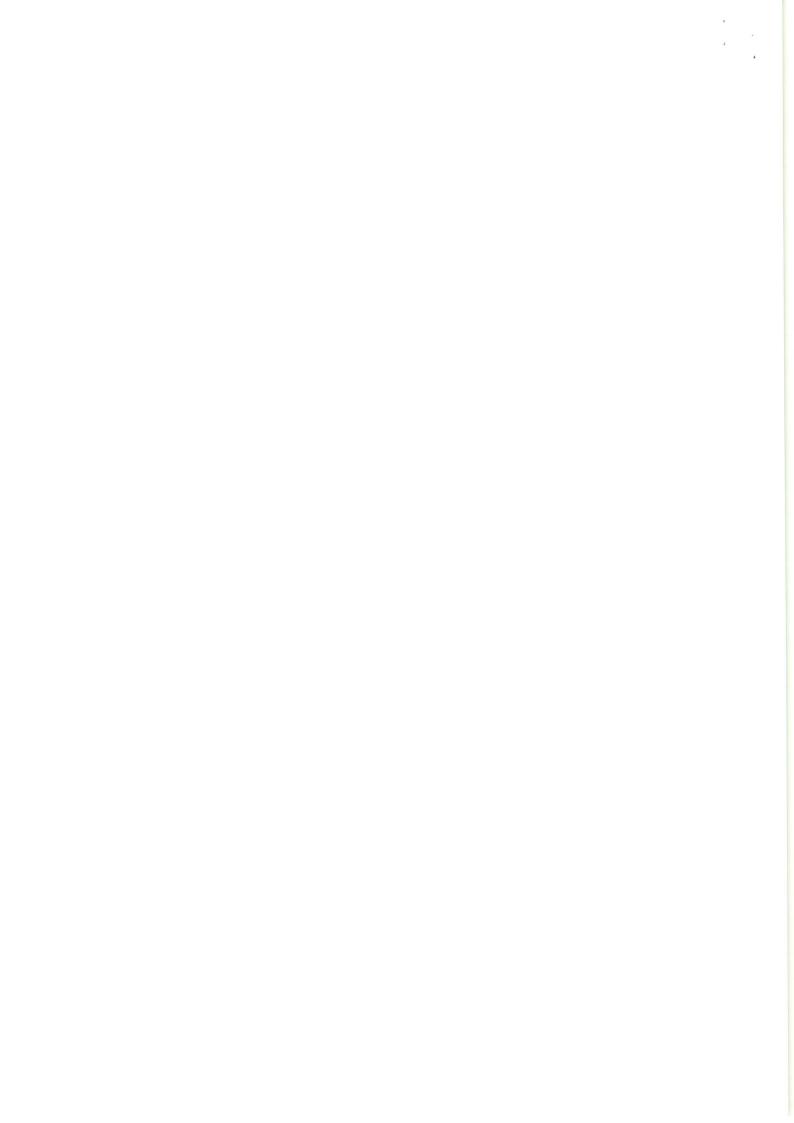

A reportable segment includes business segment or a geographical segment.

A business segment is a distinguishable component of an enterprise that is engaged in providing an individual product or service or a group of related products or services and that is subject to risks and returns that are different from those of other business segments.

A geographical segment is a distinguishable component of an enterprise that is engaged in providing products or services within a particular economic environment and that is subject to risks and returns that are different from those of components operating in other economic environments.
