REPORT

BUSINESS PRODUCTION RESULTS FOR 2024 AND BUSINESS PRODUCTION PLAN FOR 2025

Ha Nam, April 2025

Basis:

- Enterprise Law dated June 17, 2020.
- Charter of FECON Mining Joint Stock Company.
- Consolidated financial statements for the fiscal year ending December 31, 2024.

To: Annual General Meeting of Shareholders 2025

FECON Mining Joint Stock Company

I. Situation Characteristics

1. Advantages: The government has implemented many solutions to stimulate the economy, including increasing public investment in transportation infrastructure, and various solutions to remove difficulties in the real estate sector. Since mid-year, a series of real estate projects from large corporations have been launched, such as the Sun Ha Nam project, Vin Co Loa, Vin Dan Phuong, Vin Vu Yen..., with a strong shift of FDI capital from Chinese and Taiwanese enterprises to Vietnam... FCM has supplied more than 1.7 million meters of piles to the market, serving over 100 projects nationwide.

2. Difficulties:

- The global political situation is experiencing complex fluctuations, the Russia-Ukraine war is becoming increasingly fierce, and the situation in the Middle East is becoming more serious with the risk of spreading conflict throughout the region. This has affected the recovery and economic development after the Covid pandemic. The global economy in 2024 is expected to grow by about 2.7%, lower than anticipated.

The domestic economy is recovering well, with growth in 2024 reaching 7.09%, but still poses many risks due to the high openness of the economy and its vulnerability to international market impacts.

The construction sector has recovered and grown by about 8%. However, there is uneven development among regions across the country.

Regarding pile demand: The North is booming due to several real estate projects by major corporations such as Vin Group/Sun Group/Sunshine... and the industrial market is developing steadily. Market prices have been raised, and payment conditions have improved in a better direction for sellers.

Some results achieved in 2024

- 1.1. In the context of global economic recession in general and Vietnam in particular, a crisis in the real estate sector, high interest rates, rising inflation, and complex political fluctuations... the economy has sharply declined, many businesses have had to close or incur losses, yet the company has maintained operations and achieved positive profits. Employees unitedly strive to overcome difficulties with the company...
- 1.2. Exceeded the group's KPI and achieved good results in 2024 such as: Recognition as a typical unit at the group level in the first half of the year; Unit with the highest output in the group for August; Recognition as the best unit in the group for the end of the year...
- 1.3. Successfully implemented the supply chain management model and applied SAP ERP software at FCM, officially starting to use SAP ERP software from June 1, 2024
- 1.4. Coordinated well with the Southern Hanoi Business Department of the group, effectively exploiting the market in the region.
- 1.5. Production met the schedule for several industrial and real estate projects that required high progress such as Sun Ha Nam, Vin Co Loa, Vin Dan Phuong, Vin Vu Yen...
- 1.6. The quality of the products is quite stable and highly rated by customers. The incidents with piles at the construction site due to concrete quality are very low.
- 1.7. Employees actively participate in the initiative for improvements. The entire company has successfully implemented 69 initiatives in production and business activities, bringing practical benefits in all aspects: productivity, quality, safety, working conditions, and the environment...
- 1.8. The system of loyal suppliers has a minimum of 2-3 suppliers for each type and purchases at the best prices, especially for the main raw materials for producing piles.
- 1.9. The system of regulations and processes has been fully issued and operates according to the ISO 9001:2015 quality management system

2. Outstanding issues

- 2.1. Regarding self-conscious production, direct workers producing the products are still not truly self-conscious; they need reminders to pay attention to safety and quality.
- 2.2. The supply work is still slow, which somewhat affects production and repair.

3. Report on the implementation of the General Shareholders' Meeting Resolution and the Board of Directors for 2024

- 3.1. The executive board always closely follows the resolutions passed by the annual General Shareholders' Meeting in 2024 and the quarterly resolutions of the Board of Directors to implement them seriously and achieve the revenue and profit targets as stated above.
- 3.2. Implement the profit distribution plan approved by the General Shareholders' Meeting, such as allocating funds as per regulations, paying dividends in shares at 2.5% of the charter capital...
- 3.3. Complete the divestment of capital at FCNS Joint Stock Company on June 29, 2024
- 3.4. Choose E&Y as the auditing firm for semi-annual and annual audits.
- 3.5. The implementation of compensation for land clearance for the Thai Ha project has reached 83.2% of the plan. The characteristic of this compensation project is that the enterprise negotiates directly with the residents, rather than the state recovering land and handing it over to the enterprise. Therefore, negotiating with the residents has encountered considerable difficulties. The current solution is to send people to work closely with the authorities of Chân Lý Commune and villages 7 and 8 in Chân Lý to persuade and mobilize each remaining household...

4. Challenges

In addition to the achievements, the company cannot overlook the significant challenges it faces, such as

- 4.1. Increasing competition in the field of spun piles, not only from domestic sources but also from abroad.
- 4.2. The prices of key raw materials, especially cement, steel, stone, and petroleum, are fluctuating with an upward trend...
- 4.3. The labor force in the area is increasingly scarce, especially skilled workers.
- 4.4. The global economic situation remains very difficult and complex, and the real estate construction sector still faces many challenges...

III. BUSINESS PRODUCTION PLAN FOR 2025

1. Basis for planning

- The global political situation is still experiencing many unpredictable complex fluctuations
- A trade war between major powers may occur under the protectionist policies of U.S. President Donald Trump. Vietnam also risks being affected due to its large trade surplus with the U.S. (approximately 119 billion USD)
- The government expects economic growth of about 8% in 2025 and double digits from 2026 onwards
- Regarding the demand for piles: The North will remain stable with major real estate projects continuing to receive investment, and the trend of shifting production chains from China continues positively.

The market has seen the emergence of several strong competitors such as: Ocean Pile Factory (Thanh Hoa), Petrolimex 2 Pile Factory (Hung Yen), 1285 Pile Factory (Thai Binh), Amacao 2 Factory (Ha Nam), Vin Group Pile Factory (Quang Ninh)

- Building on the achievements and addressing the shortcomings. The Executive Board respectfully presents to the General Meeting of Shareholders the business production plan for 2025 as follows:
