To supplement the explanatory information in accordance with Article 14 of Circular 96/2020/TT-DTC dated November 16, 2020, issued by the Ministry of Finance, guiding the disclosure of information in the securities market, Picomat Plastic Joint Stock Company (stock symbol: PCH) provides an explanation of certain items regarding the Profit After Corporate Income Tax indicator, which has fluctuated by more than 10% in the separate financial statements for quarter I, 2025 of the Company as follows:

Unit: billion VND

Indicator	Quarter I, 2025	Quarter I, 2024	Difference	Percentage (%)
Profit after corporate income tax	1,223	9,290	(8,067)	(87%)

Profit after corporate income tax in the separate financial statements for quarter I, 2025 decreased by approximately VND 8.067 billion, equivalent to a decline of 87% compared to quarter I, 2024. The main reason is that in Quarter I/2024, the Company recorded a dividend of VND 8.36 billion from its subsidiary (Hai Dang Materials Joint Stock Company), whereas no such income was generated in Quarter I/2025. It is expected that the 2024 dividend from the subsidiary will be paid in Quarter II/2025.

The explanation provided above outlines the fluctuations in profit after corporate income tax in the separate financial statements for Quarter I, 2025 compared to Quarter I, 2024. The Company is pleased to provide this clarification for institutional purposes.

Picomat Plastic Joint Stock Company sincerely thanks you!
