In 2024, the real estate market continued to face difficulties in supply due to complicated and prolonged investment procedures. As a result, the main focus of the Company, construction activities, faced serious difficulties and was unable to find new projects. Additionally, the construction of the Viet Duc Hospital Phase 2 has not resolved its issues, with construction proceeding at a slow pace, and no revenue was recorded. The Company's revenue in 2024 mainly came from some service activities.

For the reasons mentioned above, the Company's business results did not meet the planned targets.

## II. SPECIFIC BUSINESS SECTORS:

### 1. Construction and Material Supply Business

In 2024, the Company continued the construction of the Viet Duc Hospital Phase 2 and business operations in materials and services.

#### + Viet Duc Hospital Phase 2 Construction:

In 2024, the Company continued to carry out tasks such as enhancing security at the construction site after two theft incidents and maintaining site cleanliness. The Company worked with the joint venture contractor Hancorp and other contractors to report to the Ministry

of Health and the Government, seeking solutions to clear bottlenecks, such as removing the advance payment guarantee, resolving contract performance guarantees, adjusting the contract value, and revising payment methods.

The prolonged construction period and delays led to increased costs, such as management fees, site maintenance, loan interest, and guarantee costs, exceeding expectations. Additionally, risks arose from rising material prices, labor costs, and equipment costs, while many construction items completed could not be accepted for final payment, leaving a significant financial risk for the Company.

## **2. Real Estate Investment and Business Operations**

### **2.1 Office Building Project at 407 Nguyen An Ninh, Vung Tau:**

This investment project covers an area of 651.2 m<sup>2</sup>. The building includes 362 m<sup>2</sup> of construction area and 6,309 m<sup>2</sup> of total floor area, with a height of 15 floors (53.9 meters) and a 50-year land lease, paid annually.

In 2024, investment procedures encountered many difficulties due to nationwide project inspections, particularly in Ba Ria – Vung Tau. The Company is still working on the investment plan to ensure the project's functionality and maintain its investment effectiveness, as well as coordinating with local authorities to prevent the project from being inspected due to delays.

## **2. Investment Activities in Subsidiaries and Affiliates**

As of December 31, 2024, the Company had invested in one subsidiary, two affiliated companies, and two other financial investment entities. The total investment value amounted to VND 171.7 billion. Currently, only the investments in Tu Hiep Hong Ha Petroleum JSC and Quang Ninh Seafood Import and Export JSC are considered effective. The remaining units are deemed ineffective and unrecoverable. Details are as follows:

### **2.1 Investment Activities in Affiliated Companies**

#### **➤ *Tu Hiep Hong Ha Petroleum Joint Stock Company (THHHDK):***

- THHHDK is the investor of the Tu Hiep New Urban Area project, which covers approximately 17 hectares and includes 16 apartment buildings and one commercial center. This investment is assessed as effective. In 2024, the company achieved a total revenue of VND 16.2 billion and post-tax profit of VND 97.5 million.

#### **➤ *Song Day Hong Ha Petroleum Joint Stock Company:***

This company was established to implement the Autoclaved Aerated Concrete (AAC) brick factory project, leveraging government policies promoting non-fired building materials. As of December 31, 2024, the Company's total investment in this entity (based on par value of shares) was VND 34.47 billion, accounting for 33.53% of its charter capital.

Since its establishment, the company has faced operational difficulties due to market

resistance to its new products, resulting in continuous losses. It is currently undergoing restructuring and debt settlement, has suspended production activities, and is maintaining warehouse leasing as its only regular operation.

## **2.2 Investment Activities in Subsidiaries**

### **➤ Hong Ha Ha Noi Joint Stock Company:**

This is a subsidiary of Hong Ha Vietnam JSC, operating in construction and installation. The Company's investment in Hong Ha Ha Noi JSC amounts to VND 9.06 billion, equivalent to 75.5% of its charter capital.

## **2.3 Overseas Investment Activities in the Lao People's Democratic Republic**

### ***Investment in Viet-Lao General Trading Joint Stock Company***

This investment aimed to pave the way for HHVN's future ventures in mineral exploration and mining in Laos. The Company invested VND 4.2 billion to acquire 19.05% of the total shares of the Viet-Lao General Trading JSC. However, according to the Lao Tax Department, this entity has ceased operations at its registered location. Still, the Company lacks sufficient grounds to make financial provisions as per regulations.

### ***Other Investments and Loans in Laos***

These include investments in businesses and projects related to copper ore mining and processing, with a total investment exceeding VND 149 billion. However, due to ongoing legal issues, the Company had made risk provisions for overseas investments in Laos totaling VND 105.5 billion during the years 2012–2016. These investments are now considered losses.

On April 28, 2021, HHVN's Annual General Meeting passed Resolution No. 01/2021/NQ-DHDCD approving the handling plan for these investments and loans. Accordingly, the Executive Board conducted a comprehensive review of legal documentation and evaluated the recoverability of each investment and loan. However, by 2024, due to loss of contact with Lao partners, the planned follow-up has not been executed.

## **3. Accounting, Finance, and Debt Settlement**

- The Company has complied with regulations on accounting, audit, and tax declaration. The 2024 financial statements were prepared in accordance with Vietnamese Accounting Standards and the current enterprise accounting regime.
- The financial statements for 2024 were audited by An Viet Auditing and Consulting Co., Ltd., which issued an unqualified (clean) opinion, meaning the financial statements give a true and fair view in all material respects
- The Company continues to coordinate with creditors to settle debts according to the debt restructuring plan approved at the General Meeting of Shareholders. However, progress has been slow due to financial difficulties.

- The Company has reviewed and thoroughly evaluated all payables by contract, project, and construction work. It has developed installment payment plans by month and by each payment period for each specific payable, in order to both stabilize the Company's financial situation and maintain long-term cooperative relationships with suppliers. However, the Company's financial position remains extremely difficult, with an imbalanced financial structure due to capital losses from investments and a loss of short-term solvency as a result of accumulated losses from previous years. In 2024, the Company disbursed payments totaling VND 3.2 billion to suppliers.

#### 4. Organizational Restructuring and Human Resources Arrangement

In 2024, the Company's leadership implemented several important decisions regarding organizational structure, personnel, and management to better meet the operational needs of the Company in line with its current business conditions:

- As of December 31, 2024, the total number of employees at the parent company was 4, a 63.6% reduction from the peak staffing level during the year. The average monthly income per employee was VND 9.1 million.

- Regarding labor policies and salary regimes, the Company fully complied with the Labor Code and related labor policies; 100% of employees with contracts of at least one month were covered by social insurance, health insurance, and unemployment insurance. The Company ensured employees' livelihoods, maintaining stable income and welfare benefits.

### PhPart II. BUSINESS PLAN FOR 2025

Based on the achievements in 2024 and recognizing current difficulties in business operations and financial management, the 2025 targets and tasks pose significant pressure and challenges. The Company has developed a plan with the following key economic targets:

The Company must prepare sufficient financial resources to complete the remaining workload within the government's deadline and proceed with payment and final settlement of the project.

- Study and propose a plan for HHVN to manage, operate, and commercially exploit infrastructure and assets in its real estate investment projects.

## 2.3 Restructuring of Investment Contributions

### ➤ *Quang Ninh Seafood Import-Export JSC:*

- Conduct a comprehensive assessment of its organization, management, and financial structure to decide whether to retain or divest the investment.

- If divestment is chosen, negotiate with key shareholders or find partners to transfer the capital contribution.

- Target implementation in 2025.

### ➤ *Hong Ha Song Day Petro JSC:*

The organizational and financial restructuring has been completed. In 2025, determine the direction for the plant's business operations or seek partners to divest and recover the investment.

### ➤ *Viet-Lao General Trading JSC and capital contributions/loans in Lao mining projects totaling ~VND 149 billion:*

- Continue requesting Chakkaphanh Mining Group Co., Ltd. to work with Lao authorities to confirm HHVN's shareholder status.

- For outstanding loans, require repayment. If unsuccessful, pursue legal action or request investigation into possible fraud, and clarify responsibilities of involved individuals and organizations.

- After applying the above measures but still unable to legalize investments, unable to collect loans and advances, financial handling shall be carried out according to the Company's regulations and current laws.

## 2.4 Project Investment Activities

### ➤ *407 Nguyen An Ninh, Vung Tau Project:*

**PROPOSAL**

Subject: Financial Resource Mobilization Plan for the Implementation of the Viet Duc Friendship Hospital – Phase 2 Project,  
as well as Other Investment and Business Activities

**To: The Annual General Meeting of Shareholders of Hong Ha Vietnam Joint Stock Company**

*Pursuant to the Law on Enterprises of the Socialist Republic of Vietnam;*

*Pursuant to the Charter of Hong Ha Vietnam Joint Stock Company (HHVN);*

On February 24, 2015, the Major Health Project Management Board - Ministry of Health (Investor) and the Joint Venture of Hanoi Construction Corporation - Joint Stock Company and Hong Ha Vietnam Joint Stock Company signed Contract No. 200/2015/HĐ-XDVB-01 regarding the construction of Lot No. 01 for the Viet Duc Friendship Hospital – Phase 2 Project (hereinafter referred to as Contract No. 200), with the total contract value of VND 2,200,000,000.

Hong Ha Vietnam Joint Stock Company entered into a Joint Venture Agreement on January 20, 2025, and an Addendum Agreement No. 01 on April 7, 2025, with Hanoi Construction Corporation – Joint Stock Company to carry out Contract No. 200. The scope of work for Hong Ha Vietnam Joint Stock Company is as follows:

Construction of approximately 45% of the building value, including: foundation reinforcement, structural work, architectural work for the underground and superstructure, electrical, and plumbing.

Estimated work value:  $\text{VND } 1,531,000,000,000 \times 1.1 \times 45\% = \text{VND } 757,845,000,000$  (including 10% contingency and 10% VAT).

Hong Ha Vietnam Joint Stock Company has completed work until December 31, 2020, with an output value of approximately VND 700 billion. However, due to legal contract issues (pricing agreements, contract form, etc.) and design and estimate issues for additional work, the following payments were made:

Accepted value: VND 451,307,463,000

Payments made: VND 419,504,740,000

Remaining advance: VND 242,446,376,000

Outstanding work not yet paid: VND 288,463,926,000

On February 13, 2025, the Government issued Resolution No. 34/NQ-CP on mechanisms and solutions to address difficulties and obstacles at the Viet Duc Friendship Hospital Phase 2 construction project to ensure the completion of the project in 2025.

The total estimated value of the work for Contract No. 200 (carried out by Hong Ha Vietnam Joint Stock Company) is approximately VND 799,293,150,000 (including additional costs; excluding a 4.74% reduction as required by the Government, repair costs for the project due to work stoppage, and values for guarantees and interest). Thus, the financial resources the company needs to allocate to complete the project are as follows:

Remaining construction value: approximately VND 99 billion

Repair costs to continue construction: approximately VND 20 billion

Management costs (for 10 months): approximately VND 2 billion

Guarantee costs (for 10 months): VND 1.075 billion

Contingency: VND 10 billion

Due to the impact of the COVID-19 pandemic, the real estate market freezing, and nearly no revenue from the company's main activities from 2020 to the present, the company's financial resources to maintain and promote its business operations are limited. Therefore, the Board of Directors respectfully submits to the Annual General Meeting of Shareholders the proposed plan to mobilize financial resources for the implementation of the Viet Duc Friendship Hospital – Phase 2 project, as well as other investment and business activities as follows:

Authorize the Board of Directors to decide on the sale of valuable assets within the authority of the General Meeting of Shareholders, specifically: sale of all or part of shares in subsidiaries and affiliates; the transfer value must ensure a pre-tax profit margin of no less than 10%.

The Board of Directors will report on the implementation and results at the nearest General Meeting of Shareholders.

We respectfully submit this to the General Meeting of Shareholders for consideration and approval.
