Auditors

A&C Auditing and Consulting Co., Ltd. has been appointed to perform the review on the Company's Interim Financial Statements for the first 6 months of the fiscal year ending 31 December 2025.

Responsibilities of the Board of Directors

The Company's Board of Directors is responsible for the preparation of the Interim Financial Statements to give a true and fair view of the financial position, the financial performance and the cash flows of the Company during the period. In order to prepare these Interim Financial Statements, the Board of Directors must:

- select appropriate accounting policies and apply them consistently;
- make judgments and estimates reasonably and prudently;
- state clearly whether the accounting standards applied to the Company are followed or not, and all the material differences from these standards are disclosed and explained in the Interim Financial Statements;
- prepare the Interim Financial Statements of the Company on the going-concern basis, except for the cases that the going-concern assumption is considered inappropriate;
- design and implement effectively the internal control system to minimize the risks of material misstatements due to frauds or errors in the preparation and presentation of the Interim Financial Statements.

The Board of Directors hereby ensures that all the proper accounting books of the Company have been fully recorded and can fairly reflect the financial position of the Company at any time, and that all the accounting books have been prepared in compliance with the applicable Accounting System. The Board of Directors is also responsible for managing the Company's assets and consequently has taken appropriate measures to prevent and detect frauds and other irregularities.

The Board of Directors hereby commits to the compliance with the aforementioned requirements in preparation of the Interim Financial Statements.

BIEN HOA BUILDING MATERIALS PRODUCTION AND CONSTRUCTION JOINT STOCK COMPANY
STATEMENT OF THE BOARD OF DIRECTORS (cont.)

Approval of the Financial Statements

The Board of Directors hereby approves the accompanying Interim Financial Statements which give a true and fair view of the financial position as of 30 June 2025 of the Company, its financial performance and its cash flows for the first 6 months of the fiscal year ending 31 December 2025, in conformity with the Vietnamese Accounting Standards, the Vietnamese Enterprise Accounting System and relevant statutory requirements on the preparation and presentation of the Interim Financial Statements.

For and on behalf of the Board of Directors, 

Huynh Kim Vu
Director

Date: 12 August 2025

No. 1.1311/25/TC-AC

REPORT ON THE REVIEW OF INTERIM FINANCIAL INFORMATION

**To: THE SHAREHOLDERS, THE BOARD OF MANAGEMENT AND THE BOARD OF DIRECTORS
BIEN HOA BUILDING MATERIALS PRODUCTION AND CONSTRUCTION JOINT STOCK
COMPANY**

We have reviewed the accompanying Interim Financial Statements of Bien Hoa Building Materials Production and Construction Joint Stock Company (hereinafter referred to as "the Company"), which were prepared on 12 August 2025 (from page 7 to page 32), including the Interim Balance Sheet as of 30 June 2025, the Interim Income Statement, the Interim Cash Flow Statement for the first 6 months of the fiscal year ending 31 December 2025 and the Notes to the Interim Financial Statements.

Responsibility of the Board of Directors

The Company's Board of Directors is responsible for the preparation, true and fair presentation of these Interim Financial Statements in accordance with the Vietnamese Accounting Standards, the Vietnamese Enterprise Accounting System and relevant statutory requirements on the preparation and presentation of the Interim Financial Statements; and responsible for such internal control as the Board of Directors determines necessary to enable the preparation and presentation of the Interim Financial Statements to be free from material misstatement, whether due to fraud or error.

Responsibility of Auditors

Our responsibility is to express conclusion on these Interim Financial Statements based on our review. We have conducted the review in accordance with the Vietnamese Standard on Review Engagements No. 2410 – Review on interim financial information performed by independent auditor of the entity.

A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Vietnamese Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion of Auditors

Based on our review, nothing has come to our attention that causes us to believe that the accompanying Interim Financial Statements have not given a true and fair view, in all material respects, of the financial position as of 30 June 2025 of Bien Hoa Building Materials Production and Construction Joint Stock Company, its financial performance and its cash flows for the first 6 months of the fiscal year ending 31 December 2025, in conformity with the Vietnamese Accounting Standards, the Vietnamese Enterprise Accounting System and relevant statutory requirements on the preparation and presentation of the Interim Financial Statements.

Notes to the Interim Financial Statements (cont.)

IV. ACCOUNTING POLICIES

1. Accounting convention

All the Financial Statements are prepared on the accrual basis (except for the information related to cash flows).

2. Cash and cash equivalents

Cash includes cash on hand and cash in bank. Cash equivalents are short-term investments of which the due dates do not exceed 3 months from the dates of the investments that are readily convertible into known amounts of cash and that are subject to an insignificant risk of change in value as of the balance sheet date.

3. Held-to-maturity investments

Investments are classified as held-to-maturity investments that the Company intends and is able to hold to maturity. Held-to-maturity investments of the Company include held-to-maturity term deposits for the purpose of receiving periodical interest.

Held-to-maturity investments are initially recognized at costs. After initial recognition, these investments are recorded at recoverable value. Interest from these held-to-maturity investments after acquisition date is recognized in the profit or loss on the basis of the interest income to be received. Interest incurred prior to the Company's acquisition of held-to-maturity investments is deducted into the costs at the acquisition time.

When there is reliable evidence proving that a part or the whole investment cannot be recovered and the loss is reliably measured, the loss is recognized as financial expenses during the period and directly deducted into the investment costs.

4. Receivables

Receivables are recognized at the carrying amounts less allowances for doubtful debts.

The classification of receivables as trade receivables and other receivables is made according to the following principles:

- Trade receivables reflect receivables concerning the commercial nature arising from purchase and sale transactions between the Company and customers who are independent to the Company.
- Other receivables reflect receivables not concerning the commercial nature and irrelevant to purchase and sale transactions.

Allowance is made for each doubtful debt on the basis of the ages of debts after offsetting against liabilities (if any) or estimated loss as follows:

- As for overdue debts:
 - 30% of the value of debts overdue between 6 months and less than 1 year.
 - 50% of the value of debts overdue between 1 year and less than 2 years.
 - 70% of the value of debts overdue between 2 years and less than 3 years.
 - 100% of the value of debts overdue more than 3 years.
- As for doubtful debts: Allowance is made on the basis of the estimated loss.

Increases/decreases in the obligatory allowance for doubtful debts as of the balance sheet date are recorded into general and administration expenses.

INTERIM FINANCIAL STATEMENTS

For the first 6 months of the fiscal year ending 31 December 2025

Notes to the Interim Financial Statements (cont.)

5. Inventories

Inventories are recognized at the lower of costs or net realizable value.

Costs of inventories are determined as follows:

- For materials, merchandise: Costs comprise costs of purchases and other directly relevant costs incurred in bringing the inventories to their present location and conditions.
- For finished goods, work-in-process: Costs comprise costs of materials, direct labor and directly relevant general manufacturing expenses allocated on the basis of normal operations.

Stock-out costs are determined in accordance with the moving average method and recorded in line with the perpetual method.

Net realizable value is the estimated selling price of inventories in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Allowance for devaluation of inventories is recognized for each type of inventories when their costs are higher than their net realizable values. Increases/decreases in the obligatory allowance for devaluation of inventories as of the balance sheet date are recorded into costs of sales.

6. Prepaid expenses

Prepaid expenses comprise actual expenses incurred and relevant to financial performance in several accounting periods. Prepaid expenses of the Company mainly include expenses on quarry exploration incurred in connection with the expansion of the quarry. These expenses are allocated to costs during the period on the basis of actual output volume and the remaining exploitation term.

7. Operating leased assets

A lease is classified as an operating lease if it transfers substantially all the risks and rewards incident to ownership belonging to the lessor. The lease expenses are allocated in the Company's operation costs in accordance with the straight-line method over the lease term and do not depend on the method of lease payment.

8. Tangible fixed assets

Tangible fixed assets are determined by their historical costs less accumulated depreciation. Historical costs of tangible fixed assets include all the expenses paid by the Company to bring the asset to its working condition for its intended use. Other expenses arising subsequent to initial recognition are included into historical costs of fixed assets only if it can be clearly demonstrated that the expenditure has resulted in future economic benefits expected to be obtained from the use of these assets. Those which do not meet the above conditions will be recorded into operation costs during the period.

When a tangible fixed asset is sold or disposed, its historical cost and accumulated depreciation are written off, then any gain or loss arising from such disposal is included in the income or the expenses during the period.

Tangible fixed assets are depreciated in accordance with the straight-line method over their estimated useful lives. The depreciation years applied are as follows:

<u>Fixed assets</u>	<u>Years</u>
Buildings and structures	05 - 50
Machinery and equipment	03 - 20
Vehicles	06 - 30
Office equipment	03 - 07
Other tangible fixed assets	04

INTERIM FINANCIAL STATEMENTS

For the first 6 months of the fiscal year ending 31 December 2025

Notes to the Interim Financial Statements (cont.)

9. Intangible fixed assets

Intangible fixed assets are determined by their initial costs less accumulated amortization.

The Company's intangible fixed asset includes accounting software. Expenses attributable to the accounting software, which is not a part associated with the relevant hardware, will be capitalized. Costs of accounting software include all the expenses paid by the Company until the date the software is put into use and upgrade costs to enhance software usability. The accounting software is amortized in accordance with the straight-line method in 3 years.

When an intangible fixed asset is sold or disposed, its initial costs and accumulated amortization are written off, then any gain or loss arising from such disposal is included in the income or the expenses during the period.

10. Construction-in-progress

Construction-in-progress reflects the expenses (including relevant interest expenses following the accounting policies of the Company) directly attributable to assets under construction, machinery and equipment under installation for purposes of production, leasing and management as well as the repair of fixed assets in progress. These assets are recorded at historical costs and not depreciated.

11. Payables and accrued expenses

Payables and accrued expenses are recorded for the amounts payable in the future associated with the goods and services received. Accrued expenses are recorded based on reasonable estimates for the amounts payable.

The classification of payables as trade payables, accrued expenses and other payables is made on the basis of following principles:

- Trade payables reflect payables of commercial nature arising from the purchase of goods, services, or assets, of which the seller is an independent entity with the Company.
- Accrued expenses reflect expenses for goods, services received from suppliers or supplied to customers but have not been paid, invoiced or lack of accounting records and supporting documents; pay on leave payable to employees; and accrual of operation expenses.
- Other payables reflect payables of non-commercial nature and irrelevant to purchase, sales of goods or provisions of services.

The payables and accrued expenses are classified as short-term and long-term items in the Interim Balance Sheet on the basis of their remaining term as of the balance sheet date.

12. Provisions for payables

Provisions are recorded when the Company has present obligations (legal or constructive) as a result of a past event; it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation; and a reliable estimate can be made of the amount of the obligation.

If time causes material effects, the provisions will be determined by deducting the amount to be spent in future to settle the liability at the pre-tax discount rate that reflects the assessments of the time value of money and the specific risks from this liability in the current market.

The Company's provisions for payables include those for environment restoring, which are made for the quarries being exploited at the annually deposited amount as required.

INTERIM FINANCIAL STATEMENTS

For the first 6 months of the fiscal year ending 31 December 2025

Notes to the Interim Financial Statements (cont.)

13. Owner's equity***Owner's capital***

The owner's capital is recorded according to the actual amounts invested by shareholders.

Share premiums

Share premiums are recorded in accordance with the difference between the issuance price and face value upon the IPO, additional issue or the difference between the re-issuance price and carrying value of treasury shares and the equity component of convertible bonds upon maturity date. Expenses directly related to the additional issue of shares and the re-issuance of treasury shares are recorded as a decrease in share premiums.

Treasury shares

When a share capital in the owner's equity is re-purchased, the amount payable including the expenses related to the transaction is recorded as treasury shares and a corresponding decrease in owner's equity then is recognized. When this share capital is re-issued, the difference between the re-issuance price and carrying value of treasury shares is recorded in share premiums.

14. Profit distribution

Profit after tax is distributed to the shareholders after appropriation for funds under the Charter of the Company as well as legal regulations and approved by the General Meeting of Shareholders.

The distribution of profit to the shareholders is made with consideration toward non-cash items in the retained earnings that may affect cash flows and payment of dividends such as profit due to revaluation of assets contributed as investment capital, profit due to revaluation of monetary items, financial instruments and other non-cash items.

The dividends are recorded as payables upon approval of the General Meeting of Shareholders.

15. Recognition of revenue and income***Revenue from sales of merchandise, finished goods***

Revenue from sales of merchandise, finished goods shall be recognized when all of the following conditions are satisfied:

- The Company transfers most of risks and benefits incident to the ownership of products or merchandise to customers.
- The Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the merchandise sold.
- The amount of revenue can be measured reliably. When the contracts stipulate that buyers have the right to return products, merchandise purchased under specific conditions, the revenue is recorded only when those specific conditions are no longer exist and buyers retains no right to return products, merchandise (except for the case that such returns are in exchange for other goods or services).
- The Company received or shall probably receive the economic benefits associated with sale transactions.
- The cost incurred or to be incurred in respect of the sale transaction can be measured reliably.

Interest

Interest is recorded, based on the term and the actual interest rate applied in each particular period.

INTERIM FINANCIAL STATEMENTS

For the first 6 months of the fiscal year ending 31 December 2025

Notes to the Interim Financial Statements (cont.)

16. Construction contract

When the results of the contract implementation can be estimated reliably:

- For construction contracts in which the contractor is entitled to pay according to construction progress: revenue and expenses relevant to the contracts are recognized to corresponding completed assignment determined by the Company as of the balance sheet date.
- For construction contract in which the contractor is entitled to pay according to volume of work done: revenue and expenses relevant to the contracts are recognized to corresponding completed assignment confirmed by customer and are reflected in the invoices.

Increases/Decreases in construction volume, compensations and other receivables are only recognized into revenue when these are mutually agreed with the customer.

When the results of the contract implementation cannot be estimated reliably:

- The revenue is only recognized equivalent to the contract's expenses and the payment is relatively reliable.
- The Contract's expenses are only recognized as the expenses when they occur.

Difference between total accumulated revenue from construction contract recognized and the accumulated amount in the invoice of payment under the contract plan is recognized as receivable or payable under the contract plan.

17. Revenue deductions

Revenue deductions only include sales returns incurred in the same period of providing products, in which revenues are derecognized.

In case of products provided in the previous years but sales returns incurred in the current period, revenue is derecognized as follows:

- If sales returns incur prior to the release of the Interim Financial Statements, revenue is derecognized on the Interim Financial Statements of the current period.
- If sales returns incur after the release of the Interim Financial Statements, revenue is derecognized on the Interim Financial Statements of the following period.

18. Expenses

Expenses are those that result in outflows of the economic benefits and are recorded at the time of transactions or when incurrence of the transaction is reliable regardless of whether payment for expenses is made or not.

Expenses and their corresponding revenues are simultaneously recognized in accordance with matching principle. In the event that matching principle conflicts with prudence principle, expenses are recognized based on the nature and regulations of accounting standards in order to guarantee that transactions can be fairly and truly reflected.

19. Corporate income tax

Corporate income tax includes current income tax and deferred income tax.

Current income tax

Current income tax is the tax amount computed based on the assessable income. Assessable income is different from accounting profit due to the adjustments of temporary differences between tax and accounting figures, non-deductible expenses as well as those of non-taxable income and losses brought forward.

BIEN HOA BUILDING MATERIALS PRODUCTION AND CONSTRUCTION JOINT STOCK COMPANY

Address: K4/79C Nguyen Tri Phuong Street, Quarter 3, Bien Hoa Ward, Dong Nai Province

INTERIM FINANCIAL STATEMENTS

For the first 6 months of the fiscal year ending 31 December 2025

Notes to the Interim Financial Statements (cont.)

Deferred income tax

Deferred income tax is the amount of corporate income tax payable or refundable due to temporary differences between book values of assets and liabilities serving the preparation of the Interim Financial Statements and the values for tax purposes. Deferred income tax liabilities are recognized for all the temporary taxable differences. Deferred income tax assets are recorded only when there is an assurance on the availability of assessable income in the future against which the temporarily deductible differences can be used.

Carrying values of deferred corporate income tax assets are considered as of the balance sheet date and will be reduced to the rate that ensures enough assessable income against which the benefits from part of or all of the deferred income tax can be used. Deferred corporate income tax assets, which have not been recorded before, are considered as of the balance sheet date and are recorded when there is certainly enough assessable income to use these unrecognized deferred corporate income tax assets.

Deferred income tax assets and deferred income tax liabilities are determined at the estimated rate to be applied in the year when the assets are recovered or the liabilities are settled based on the effective tax rates as of the balance sheet date. Deferred income tax is recognized in the Interim Income Statement. In the case that deferred income tax is related to the items of the owner's equity, corporate income tax will be included in the owner's equity.

The Company shall offset deferred tax assets and deferred tax liabilities if:

- The Company has the legal right to offset current income tax assets against current income tax liabilities; and
- Deferred income tax assets and deferred income tax liabilities are relevant to corporate income tax which is under the management of one tax authority either:
 - Of the same subject to corporate income tax; or
 - The Company has intention to pay current income tax liabilities and current income tax assets on a net basis or recover tax assets and settle tax liability simultaneously in each future period to the extent that the majority of deferred income tax liabilities or deferred income tax assets are paid or recovered.

20. Related parties

A party is considered a related party of the Company in case that party is able to control the Company or to cause material effects on the financial decisions as well as the operations of the Company. A party is also considered a related party of the Company in case that party is under the same control or is subject to the same material effects.

Considering the relationship of related parties, the nature of relationship is focused more than its legal form.

21. Segment reporting

A business segment is a distinguishable component of the Company that is engaged in manufacturing or providing products or services and that is subject to risks and returns that are different from those of other business segments.

A geographical segment is a distinguishable component of the Company that is engaged in manufacturing or providing products or services within a particular economic environment and that is subject to risks and returns that are different from those of components operating in other economic environments.

The segment information is prepared and presented in conformity with the accounting policies applicable to the preparation and presentation of the Interim Financial Statements of the Company.
