REPORT OF THE BOARD OF DIRECTORS

The Board of Directors of TTBGROUP Joint Stock Company (hereinafter referred to as "the Company") presents its report together with the audited interim Interim Financial Statements for the first 6 months of the fiscal year ending December 31, 2023.

Overview of the Company

TTBGROUP Joint Stock Company was established under Business Registration Certificate No. 4600359768, initially issued by the Department of Planning and Investment of Thai Nguyen Province on March 5, 2008. During its operation, the Company has amended its business registration certificate 22 times. The 22nd amended Business Registration Certificate for the Company was issued on July 7, 2025, by the Department of Finance of Thai Nguyen Province.

Charter capital according to the 22nd amended Business Registration Certificate: VND 1,015,095,830,000

Paid-in capital as at December 31, 2023: VND 1,015,095,830,000

Financial Position and Business Operations

The Company's financial position as at June 30, 2023, its business performance, and cash flows for the first 6 months of the fiscal year ending December 31, 2023, are presented in the Interim Financial Statements accompanying this report (pages 08 to 48).

Events Occurring During and After the Financial Year

On February 25, 2023, the company received a document from the Investigation Police Agency of Thai Nguyen Province regarding the prosecution and application of preventive measures against 4 suspects from the company related to the criminal case of "Intentionally disclosing misleading information in securities activities" occurring at the company. On January 24, 2024, according to verdict No. 09/2024/HS-ST, the company had manipulated Interim Financial Statements to inflate profits related to securities higher than the actual figures to report to the Securities Commission. At the same time, this profit was used to pay dividends in the form of shares.

According to Resolution No. 01/2025/NQ-DHĐCĐ of the 2025 Annual General Meeting of Shareholders dated May 12, 2025, the plan to remedy the violation identified in the investigation was approved. Accordingly, the portion of profit used for stock dividends to shareholders amounting to VND 126,699,416,077 will be compensated by unconditional and non-reimbursable contributions from the Board of Directors, the Board of General Directors, and shareholders on a voluntary basis. The remediation is expected to take place over four years, from 2025 to 2028.

Aside from the events mentioned above, the Board of General Directors confirms that no other events have occurred up to the date of this report that would require adjustment or disclosure in the Interim Financial Statements.

REPORT OF THE BOARD OF GENERAL DIRECTORS (CONTINUED)

Auditor

Nhan Tam Viet Auditing Company Limited has audited the Interim Interim Financial Statements for the first 6 months of the fiscal year ending December 31, 2023.

Confirmation of the Board of General Directors

The Board of General Directors of the Company is responsible for preparing the Interim Financial Statements that fairly and reasonably present the Company's financial position, business results, and cash flows for the year. In preparing the Interim Financial Statements, the Board of General Directors confirms that it has complied with the following requirements:

- Establishing and maintaining internal controls that the Board of General Directors deems necessary to ensure that the Interim Financial Statements are free from material misstatement, whether due to fraud or error;
- Selecting appropriate accounting policies and consistently applying those policies;
- Making reasonable and prudent judgments and estimates;
- Clearly disclosing whether the applied accounting standards have been followed and identifying any material deviations that need to be disclosed and explained in the Interim Financial Statements;
- Preparing and presenting the Interim Financial Statements in compliance with the Accounting Standards, the Vietnamese Enterprise Accounting Regime, and relevant legal regulations regarding the preparation and presentation of Interim Financial Statements;
- Preparing the Interim Financial Statements on a going concern basis, except in cases where it is not possible to assume that the Company will continue its business operations.

The Board of General Directors of the Company ensures that the accounting records are maintained to reflect the Company's financial position fairly and accurately at any given time and that the Interim Financial Statements comply with the current State regulations. They are also responsible for safeguarding the Company's assets and implementing appropriate measures to prevent and detect fraud and other violations.

The Board of General Directors of the Company confirms that the Interim Financial Statements fairly and accurately present the Company's financial position as of June 30, 2023, the results of its operations, and cash flows for the fiscal year ended on that date, in accordance with Accounting Standards, the Vietnamese Enterprise Accounting Regime, and relevant legal regulations regarding the preparation and presentation of Interim Financial Statements.

TTBGROUP JOINT STOCK COMPANY REPORT OF THE BOARD OF GENERAL DIRECTORS (CONTINUED)

Other Commitments

Due to certain objective reasons, the Company has not yet fulfilled its obligation to disclose the audited Interim Financial Statements within the prescribed timeframe. As a result, the Company's shares were suspended from trading under Decision No. 14/QD-SGDHN dated January 12, 2024, issued by the Hanoi Stock Exchange. The Company commits to fulfilling this obligation immediately upon the issuance of this report together with the audited Interim Financial Statements.

Apart from the matter mentioned above, the Board of Directors commits that the Company complies with Decree No. 155/2020/NĐ-CP dated December 31, 2020, on corporate governance applicable to public companies, and that the Company has not violated any information disclosure obligations as prescribed in Circular No. 96/2020/TT-BTC dated November 16, 2020, issued by the Ministry of Finance guiding disclosure on the Securities Market.

REPORT ON REVIEW RESULTS

About Interim Financial Report
First 6 months of the fiscal year ending December 31, 2023

To

The Shareholders, the Board of Directors, and the Management Board

TTBGROUP Joint Stock Company

We have reviewed the accompanying interim financial statements of TTBGROUP Joint Stock Company, prepared on 20 September 2025 from page 08 to page 48, which comprise the interim balance sheet as at 30 June 2023, the interim income statement, the interim cash flow statement for the first 6 months of the fiscal year ended 31 December 2023 and the notes to the interim financial statements.

Responsibilities of the Board of Directors

The Board of Directors of TTBGROUP Joint Stock Company is responsible for the preparation and fair presentation of the interim financial statements in accordance with Vietnamese accounting standards, accounting regimes and legal regulations related to the preparation and presentation of interim financial statements and is responsible for internal control that the Board of Directors determines is necessary to ensure the preparation and presentation of interim financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibilities

Our responsibility is to express a conclusion on the interim financial statements based on our review. We conducted our review in accordance with Vietnamese Standard on Review Engagements No. 2410 - Review of interim financial information performed by the independent auditor of the entity.

A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Vietnamese Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Basis for Refusal to Make a Conclusion

- We were unable to witness the counting of cash, inventories, and long-term unfinished business production costs of undelivered projects as of December 31, 2022. The balances of these items as of June 30, 2023 were: cash VND 134,808,618,274 (at December 31, 2022: VND 135,850,595,372), inventories VND 142,250,815,337 (at December 31, 2022: VND 145,564,579,632) and long-term unfinished business production costs of undelivered projects VND 226,663,293,193 (at December 31, 2022: VND 209,725,074,483). VND) because at that time we had not been appointed as auditors. Therefore, we do not express an opinion on the accuracy, existence and completeness of cash and inventories, long-term work in progress of the projects not yet handed over at the above time as well as at 30 June 2023.

Tầng 2, tòa nhà Platinum Residences, số 6 Nguyễn Công Hoan, Phường Ngọc Khánh, Quận Ba Đình, Thành phố Hà Nội, Việt Nam

[T] (84-24) 3761 3399 [F] (84-24) 3761 5599 [W] www//vpaudit.vn [E] vpa@ntva.vn

- Some receivables from customers in the amount of VND 556,701,833,947 and payables to suppliers in the amount of VND 497,548,120,195 related to steel trading activities that arose last year but have not been collected as of the date of this report. By applying audit procedures, we cannot determine the existence of the above receivables as well as the assessment of the provision for doubtful debts (if any).
- We have not yet collected the financial statements of the associated companies, therefore we do not have sufficient basis to determine the appropriateness of the investment in the associated company of VND 257,160,000,000 as of June 30, 2023.
- As of December 31, 2022 and June 30, 2023, some receivables from apartment buyers, amounting to VND 173,714,321,493 and VND 182,815,924,330 respectively, are being reflected in other receivables because the Company determined that this debt actually has no remaining balance. By applying the audit procedures, we do not have sufficient basis to determine the accuracy of the above receivables as of December 31, 2022 and June 30, 2023.
- We have not yet obtained confirmation regarding the amount of prepayments from buyers to purchase apartments at June 30, 2023 in the amount of VND 60,758,119,099 (at December 31, 2022 in the amount of VND 54,558,535,930). By applying the audit procedures, we do not have sufficient basis to determine the existence and accuracy of the above prepayments at December 31, 2022 and June 30, 2023.

Auditor's Disclaimer

Because of the significance of the matters described in the "Basis for Disclaimer of Conclusion" paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for a conclusion. Accordingly, we are unable to express a conclusion on the accompanying interim financial statements.

Other issues

The interim financial statements for the first 6 months of the fiscal year ending on December 31, 2022 of TTBGROUP Joint Stock Company have been audited by another auditing company with an unqualified opinion. However, due to some reasons, the comparative figures in the interim financial statements for the first 6 months of the fiscal year ending on December 31, 2022 have been retroactively adjusted (see note VIII.8 for details).

The associated companies ar	e operating under normal business co	onamons.		

II. FINANCIAL YEAR AND CURRENCY USED IN ACCOUNTING

1. Financial year

The Company's financial year begins on January 1 and ends on December 31 each year

2. Accounting currency

The accounting currency used is the Vietnamese Dong (VND).

III. ACCOUNTING STANDARDS AND REGIME APPLIED

1. Accounting regime applied

The Company applies the Vietnamese Accounting Standards and the Vietnamese Enterprise Accounting Regime issued under Circular No. 200/2014/TT-BTC dated December 22, 2014, and Circular No. 53/2016/TT-BTC dated March 21, 2016, which amends and supplements certain provisions of Circular No. 200/2014/TT-BTC, as well as other guiding circulars issued by the Ministry of Finance on the implementation of accounting standards in the preparation and presentation of the financial statements.

2. Statement on Compliance with Accounting Standards and the Accounting Regime

The Management ensures that the Company has complied with the requirements of the Vietnamese Accounting Standards and the Vietnamese Enterprise Accounting Regime issued under Circular No. 200/2014/TT-BTC dated December 22, 2014, and Circular No. 53/2016/TT-BTC dated March 21, 2016, which amend and supplement certain provisions of Circular No. 200/2014/TT-BTC, as well as other guiding circulars issued by the Ministry of Finance in the preparation of the financial statementsh.

IV. ACCOUNTING POLICIES APPLIED

1. Basis of Preparation of the Financial Statements

The financial statements are prepared on the accrual basis of accounting (except for information relating to cash flows).

2. Cash and Cash Equivalents

Address: Group 3, Quan Trieu Ward, Thai Nguyen Province, Vietnam INTERIM FINANCIAL STATEMENTS
The first 6 months of the fiscal year ending December 31, 2023
Notes to the Interim Financial Statements (continued)

Cash includes cash on hand, demand deposits at banks, and monetary gold used for store-of-value purposes, excluding gold classified as inventory intended for use as raw materials in production or for sale.

Cash equivalents are short-term investments with maturities of no more than three months from the date of acquisition, which are readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value.

3. Financial investments

Loans

Loans are initially recognized at cost, less any allowance for doubtful accounts. The allowance for doubtful loans is determined based on the expected potential loss.

Investments in Joint Ventures and Associates

Associates

An associate is an entity over which the Company has significant influence but does not have control over its financial and operational policies. Significant influence is evidenced by the right to participate in decisions regarding the financial and operational policies of the investee but without controlling those policies.

Investments in associates are initially recorded at cost, including the purchase price or capital contribution plus directly attributable costs of the investment. In the case of non-monetary investments, the cost of the investment is recognized at the fair value of the non-monetary asset at the time of the transaction.

Dividends and profits for periods prior to the acquisition of the investment reduce the carrying amount of the investment. Dividends and profits for periods after the acquisition are recognized as income. Dividends received in the form of shares are recorded by tracking the increase in the number of shares only; the value of shares received is not recognized or is recognized at par value.

Allowance for impairment of investments in subsidiaries and associates is made when the subsidiary or associate incurs a loss, with the allowance amount equal to the difference between the actual contributed capital of the parties in the subsidiary, joint venture, or associate and the actual equity multiplied by the Company's ownership percentage relative to the total contributed capital of the parties in the subsidiary or associate. If the subsidiary or associate prepares consolidated financial statements, the consolidated financial statements serve as the basis for determining the impairment allowance.

Increases or decreases in the allowance for impairment of investments in subsidiaries and associates at the end of the financial year are recorded in financial expenses.

Investments in Equity Instruments of Other Entities

Investments in equity instruments of other entities include investments where the Company does not have control, joint control, or significant influence over the investe.

Investments in equity instruments of other entities are initially recorded at cost, including the purchase price or capital contribution plus directly attributable costs of the investment. Dividends and profits for periods prior to the acquisition reduce the carrying amount of the investment. Dividends and profits for periods after the acquisition are recognized as income. Dividends received in the form of shares are

Address: Group 3, Quan Trieu Ward, Thai Nguyen Province, Vietnam INTERIM FINANCIAL STATEMENTS
The first 6 months of the fiscal year ending December 31, 2023
Notes to the Interim Financial Statements (continued)

recorded by tracking the increase in the number of shares only; the value of shares received is not recognized or is recognized at par value (except for state-owned enterprises in accordance with prevailing legal regulations).

Allowance for impairment of investments in equity instruments of other entities is determined as follows:

- For investments in listed shares or investments with reliably measurable fair value, the allowance is based on the market value of the shares.
- For investments where fair value cannot be determined at the reporting date, the allowance is based on the investee's loss, with the allowance amount equal to the difference between the actual contributed capital of the parties in the investee and the actual equity multiplied by the Company's ownership percentage relative to the total contributed capital of the parties in the investee.

Increases or decreases in the allowance for impairment of investments in equity instruments of other entities at the end of the financial year are recorded in financial expenses.

4. Receivables

Receivables are presented at their carrying amount, less any allowance for doubtful accounts.

The classification of receivables into trade receivables and other receivables is made based on the following principle:

- Trade receivables represent commercial receivables arising from sales transactions between the Company and independent customers, including receivables from consignment exports entrusted to other entitiesc.
- Other receivables represent non-commercial receivables not related to sales and purchase transactions.

Provision for doubtful debts is established for each doubtful receivable based on the aging of overdue debts or the estimated potential loss, specifically as follows:

- For overdue receivables:
 - 30% of the receivable value for debts overdue for more than 6 months but less than 1 year;
 - 50% of the receivable value for debts overdue for 1 year but less than 2 years;
 - 70% of the receivable value for debts overdue for 2 years but less than 3 years;
 - 100% of the receivable value for debts overdue for 3 years or more.
- For receivables that are not yet overdue but are deemed unlikely to be collectible: a provision is made based on the estimated potential loss.

5. Inventories

Inventories are stated at the lower of cost and net realizable value. Inventory cost is determined as follows:

- Raw materials and goods: include purchase cost and other directly attributable costs incurred to bring the inventories to their present location and condition.
- Finished goods: include the cost of raw materials, direct labor, and allocated production overheads based on normal operating levels, land use rights costs, directly attributable costs, and related general costs incurred during the construction of finished real estate products.
- Work in progress: includes only the cost of main raw materials.

Address: Group 3, Quan Trieu Ward, Thai Nguyen Province, Vietnam INTERIM FINANCIAL STATEMENTS
The first 6 months of the fiscal year ending December 31, 2023
Notes to the Interim Financial Statements (continued)

Net realizable value is the estimated selling price of inventories in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale. Inventory cost is calculated using the weighted average method and accounted for under the perpetual inventory system

Allowance for inventory devaluation is provided for each inventory item whose cost exceeds its net realizable value. For services in progress, the allowance is calculated for each type of service at its respective price level. Increases or decreases in the allowance for inventory devaluation at the end of the financial year are recorded as part of the cost of goods sold.

6. Prepaid Expenses

Prepaid expenses include actual costs incurred that relate to the business operations over multiple accounting periods. The Company's prepaid expenses mainly consist of tools and instrument.

Tools and Instruments

Tools and instruments put into use are allocated to expenses on a straight-line basis over a period not exceeding three years.

7. Tangible Fixed Assets

Tangible fixed assets are presented at historical cost less accumulated depreciation. The historical cost of tangible fixed assets comprises all expenditures directly attributable to bringing the asset to its working condition for its intended use. Subsequent expenditures are capitalized only when it is probable that future economic benefits associated with the asset will flow to the Company. Other expenditures that do not meet these criteria are recognized as production and business expenses in the period incurred.

When tangible fixed assets are sold or disposed of, their cost and accumulated depreciation are derecognized, and any resulting gain or loss is recognized in income or expenses of the year.

Tangible fixed assets are depreciated using the straight-line method over their estimated useful lives. The estimated useful lives of tangible fixed assets are as follows:

Type of Tangible Fixed Assets		<u>Years</u>
Buildings and architectural structures		15-25
Machinery and equipment		05-12
Transportation vehicles		07-10
Management tools and instruments		03-08

8. Construction in Progress

Construction in progress represents expenditures directly attributable (including related borrowing costs in accordance with the Company's accounting policies) to assets under construction, machinery and equipment being installed for production, rental, or administrative purposes, as well as costs relating to major repairs of fixed assets in progress. These assets are recorded at historical cost and are not depreciated.

9. Payables and Accrued Expenses

Address: Group 3, Quan Trieu Ward, Thai Nguyen Province, Vietnam

INTERIM FINANCIAL STATEMENTS

The first 6 months of the fiscal year ending December 31, 2023

Notes to the Interim Financial Statements (continued)

Payables and accrued expenses are recognized for amounts payable in the future related to goods and services already received. Accrued expenses are recognized based on reasonable estimates of the amounts payable.

The classification of payables is made into trade payables, accrued expenses, intercompany payables, and other payables, based on the following principles:

- Trade payables represent commercial obligations arising from the purchase of goods, services, or assets from suppliers independent of the Company, including payables for imports through commissioned agents.
- Accrued expenses represent obligations for goods and services already received from suppliers or
 provided to customers but not yet paid due to the absence of invoices or incomplete accounting
 documentation, as well as obligations to employees for salaries, vacation pay, and other production
 or business expenses that need to be accrued.

G

T

 Other payables represent obligations that are non-commercial in nature and not related to the purchase, sale, or supply of goods or services.

10. Equity

Owner's Capital Contribution

Owner's capital contribution is recognized at the actual capital contributed by the shareholders

Share Premium

Share premium is recognized as the difference between the issuance price and the par value of shares upon initial issuance, additional issuance, or the difference between the reissue price and the carrying amount of treasury shares. Direct costs related to additional share issuance and treasury share reissuance are deducted from share premium.

Other Equity

Other equity is formed from retained earnings, revaluation of assets, and the residual value of donated or sponsored assets, after deducting any taxes payable (if any) related to these assets.

11. Profit Distribution

After corporate income tax, profits are distributed to shareholders following the appropriation to funds as stipulated in the Company's Charter and legal regulations, and as approved by the General Meeting of Shareholder.

The distribution of profits to shareholders takes into account non-cash items within undistributed post-tax profits that may affect cash flows and the ability to pay dividends, such as gains from revaluation of contributed assets, gains from revaluation of monetary items, financial instruments, and other non-cash items.

Other Funds

Funds are established and utilized in accordance with the Company's Charter and the annual resolutions of the General Meeting of Shareholders

Dividends are recognized as liabilities when approved by the General Meeting of Shareholders.

12. Recognition of Revenue and Income

a) Revenue from Sale of Goods and Finished Products

Address: Group 3, Quan Trieu Ward, Thai Nguyen Province, Vietnam INTERIM FINANCIAL STATEMENTS
The first 6 months of the fiscal year ending December 31, 2023
Notes to the Interim Financial Statements (continued)

Revenue from the sale of goods and finished products is recognized when all of the following conditions are met:

- The Company has transferred to the buyer the significant risks and rewards of ownership of the goods or products.
- The Company no longer retains control over the goods as an owner or has no managerial rights over them.
- Revenue can be measured reliably. If the contract grants the buyer the right to return the purchased goods under specific conditions, revenue is recognized only when such conditions no longer exist and the buyer no longer has the right to return the goods (except where the customer has the right to exchange goods for other goods or services).
- The Company has received or will receive economic benefits from the sales transaction.
- The costs associated with the sales transaction can be reliably measured

b) Revenue from Sale of Real Estate

Revenue from the sale of real estate, where the Company is the developer, is recognized when all of the following conditions are simultaneously met:

- The real estate has been fully completed and handed over to the buyer, and the Company has transferred the risks and rewards associated with ownership of the real estate to the buyer.
- The Company no longer retains control over the real estate as an owner or managerial rights over
 it.
- Revenue can be measured reliably.
- The Company has received or will receive economic benefits from the real estate transaction.
- The costs associated with the real estate transaction can be reliably determined.

c) Revenue from Provision of Services

Revenue from service transactions is recognized when the outcome of the transaction can be measured reliably. In cases where services are performed over multiple periods, revenue is recognized for the period based on the stage of completion of the work as of the end of the accounting period. The outcome of a service transaction is considered reliably measurable when all of the following conditions are met:

- Revenue can be measured reliably. If the contract grants the buyer the right to return the purchased service under specific conditions, revenue is recognized only when such conditions no longer exist and the buyer no longer has the right to return the provided service.
- It is probable that economic benefits will flow to the Company from the service transaction.
- The stage of completion of the work as of the end of the financial year can be determined.
- The costs incurred for the transaction and the costs to complete the service transaction can be reliably measured.

d) Construction Revenue

When the outcome of a construction contract can be reliably estimated:

 For construction contracts where the contractor is paid according to the planned progress, revenue and costs related to the contract are recognized based on the stage of completion determined by the Company as of the end of the financial year.

Address: Group 3, Quan Trieu Ward, Thai Nguyen Province, Vietnam INTERIM FINANCIAL STATEMENTS

The first 6 months of the fiscal year ending December 31, 2023

Notes to the Interim Financial Statements (continued)

For construction contracts where the contractor is paid based on the value of work performed, revenue and costs related to the contract are recognized based on the stage of completion confirmed by the customer and reflected in the issued invoices.

Variations in construction volume, compensation claims, and other receivables are recognized as revenue only when agreed upon with the customer.

When the outcome of a construction contract cannot be reliably estimated:

- Revenue is recognized only to the extent of contract costs incurred that are expected to be recoverable.
- Contract costs are recognized as expenses only when incurred.

The difference between the cumulative revenue recognized for a construction contract and the cumulative amount invoiced according to the planned progress of the contract is recorded as receivables or payables under the planned progress of the construction contracts.

e)Interest Income

Interest income is recognized on an accrual basis, calculated on the balances of deposit accounts and the effective interest rates for each period.

f) Dividends and Distributed Profits

Dividends and distributed profits are recognized when the Company is entitled to receive them from capital contributions. Dividends received in the form of shares are recorded only by tracking the increase in the number of shares, and the value of shares received is not recognized at par value.

13. Cost of Goods Sold.

Cost of goods sold during the year is recognized in line with the revenue generated and in accordance with the prudence principle.

Borrowing Costs 14.

Borrowing costs include interest expenses and other costs directly attributable to borrowings.

Corporate Income Tax 15.

Current Income Tax

Current income tax is the tax payable based on taxable income. Taxable income differs from accounting profit due to adjustments for temporary differences between tax and accounting, nondeductible expenses, non-taxable income, and carried-forward losse.

Financial Instruments 16.

Financial Assets

Classification of Financial Assets

The Company classifies financial assets into the following categories: financial assets at fair value through profit or loss, held-to-maturity investments, loans and receivables, and available-for-sale financial assets. The classification depends on the nature and purpose of the financial asset and is determined at initial recognition.

Financial Assets at Fair Value through Profit or Loss

Financial assets are classified as at fair value through profit or loss if held for trading or designated at initial recognition as fair value through profit or loss.

Address: Group 3, Quan Trieu Ward, Thai Nguyen Province, Vietnam INTERIM FINANCIAL STATEMENTS

The first 6 months of the fiscal year ending December 31, 2023

Notes to the Interim Financial Statements (continued)

Financial assets are considered held for trading if:

- They are acquired or incurred mainly for the purpose of selling in the short term;
- The Company intends to hold them for short-term profit;
- They are derivative financial instruments (except those designated as hedging instruments or financial guarantee contracts).

Held-to-Maturity Investments

Held-to-maturity investments are non-derivative financial assets with fixed or determinable payments and fixed maturity that the Company has the intention and ability to hold to maturity.

Loans and Receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments and are not quoted in an active marke,

Available-for-Sale Financial Assets

Available-for-sale financial assets are non-derivative financial assets that are designated as available-for-sale or are not classified as financial assets at fair value through profit or loss, held-to-maturity investments, or loans and receivables.

Initial Recognition of Financial Assets

Financial assets are recognized on the trade date and derecognized on the settlement date. At initial recognition, financial assets are measured at purchase price/issuance cost plus directly attributable transaction costs.

ii. Financial Liabilities

The Company classifies financial liabilities into financial liabilities at fair value through profit or loss and financial liabilities measured at amortized cost. Classification depends on the nature and purpose of the financial liability and is determined at initial recognition.

Financial Liabilities at Fair Value through Profit or Loss

Financial liabilities are classified as at fair value through profit or loss if held for trading or designated at initial recognition as fair value through profit or loss.

Financial liabilities are considered held for trading if:

- They are issued or incurred mainly for the purpose of repurchase in the short term;
- The Company intends to hold them for short-term profi;
- They are derivative financial instruments (except those designated as hedging instruments or financial guarantee contracts).

Financial Liabilities Measured at Amortized Cost

Financial liabilities measured at amortized cost are determined based on initial recognition, less principal repayments, adjusted for cumulative amortization using the effective interest method of the difference between initial recognition and maturity value, and reduced directly or through a provision for impairment or uncollectibility.

The effective interest method is the method of calculating the amortized cost of a financial liability and allocating interest income or expense over the relevant period. The effective interest rate is the rate that discounts estimated future cash flows over the expected life of the financial instrument (or a shorter period if appropriate) to the net carrying amount of the financial liability.

Address: Group 3, Quan Trieu Ward, Thai Nguyen Province, Vietnam

INTERIM FINANCIAL STATEMENTS

The first 6 months of the fiscal year ending December 31, 2023

Notes to the Interim Financial Statements (continued)

Initial Recognition of Financial Liabilities

At initial recognition, financial liabilities are measured at issuance price plus directly attributable costs related to issuing the financial liability.

iii. Equity Instruments

Equity instruments are contracts that evidence a residual interest in the assets of the Company after deducting all liabilities.

17. Related Parties

Parties are considered related if one party has the ability to control or exercise significant influence over the other in making financial and operational policy decisions. Parties are also considered related if they are under common control or significant common influence.

In assessing the relationship of related parties, the substance of the relationship is given more importance than the legal form.

In assessing the relationship of related parties, the substance of the relationship is given more importance than the legal form.

Transactions with related parties during the year are disclosed in Note VIII.1.

Borrowings and debts	180,830,918,743	226,722,389,787	180,830,918,743	226,722,389,787
Trade payables	687,857,132,926	629,712,818,748	687,857,132,926	629,712,818,748
Other payables	5,181,846,707	54,348,695,878	5,181,846,707	54,348,695,878
Total	873,869,898,376	910,783,904,413	873,869,898,376	910,783,904,413

The fair value of financial assets and financial liabilities is reflected at the amount at which the financial instrument could be exchanged in a current transaction between knowledgeable and willing parties. The Company uses the following methods and assumptions to estimate fair value:

- The fair value of cash and cash equivalents, trade receivables, loans, other receivables, borrowings, trade payables, and other short-term payables is approximately equal to their carrying amount (net of provisions for estimated uncollectible amounts) due to their short-term nature.
- The fair value of long-term loans, trade receivables, other receivables, borrowings, trade payables, other long-term payables, and held-to-maturity investments not listed on the stock exchange and without published transaction prices from three securities companies is estimated by discounting future cash flows using interest rates applied to debts with similar characteristics and remaining maturities.

Address: Group 3, Quan Trieu Ward, Thai Nguyen Province, Vietnam INTERIM FINANCIAL STATEMENTS
The first 6 months of the fiscal year ending December 31, 2023
Notes to the Interim Financial Statements (continued)

4. Credit Risk

Credit risk is the risk that a party to a contract will be unable to fulfill its obligations, resulting in financial loss to the Company.

The Company is exposed to credit risk from both its operating activities (mainly trade receivables) and its financial activities (bank deposits, loans, and other financial instruments).

Trade Receivables

The Company mitigates credit risk by transacting only with entities with sound financial capacity, requiring letters of credit for first-time transactions or for entities with unknown financial status, and by having accounts receivable staff regularly monitor outstanding debts to ensure timely collection. Based on this approach and the fact that the Company's receivables are related to a large number of different customers, credit risk is not concentrated with any single customer.

Bank Deposits

Most of the Company's bank deposits are held at large, reputable banks in Vietnam. The Company considers the concentration of credit risk on bank deposits to be low.

5. Liquidity Risk

Liquidity risk is the risk that the Company will encounter difficulties in meeting its financial obligations due to a shortage of cash.

The Board of Directors has the ultimate responsibility for managing liquidity risk. The Company's liquidity risk mainly arises from mismatches in the maturities of financial assets and financial liabilities.

The Company manages liquidity risk by maintaining an appropriate level of cash and cash equivalents and borrowings at a level deemed sufficient by the General Director to meet the Company's operational needs, thereby minimizing the impact of cash flow fluctuation.

The maturity of financial liabilities based on expected contractual payments, undiscounted, is as follows:

	Within 1 year	Over 1 year to 5 years	Over 5 years	Total

Công ty cho rằng mức độ tập trung rủi ro đối với việc trả nợ là thấp. Công ty có khả năng thanh toán các khoản nợ đến hạn từ dòng tiền từ hoạt động kinh doanh và tiền thu từ các tài sản tài chính đáo hạn.

The Company considers the concentration of risk in debt repayment to be low. It has the ability to settle maturing obligations from cash flows generated by operating activities and proceeds from maturing financial assets.

Address: Group 3, Quan Trieu Ward, Thai Nguyen Province, Vietnam INTERIM FINANCIAL STATEMENTS
The first 6 months of the fiscal year ending December 31, 2023
Notes to the Interim Financial Statements (continued)

Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market prices. Market risk comprises three types: foreign exchange risk, interest rate risk, and other price risk.

The sensitivity analyses presented below are prepared based on the net debt amounts, assuming that the proportion of fixed-rate and floating-rate debts remains unchanged.

Foreign Exchange Risk

Foreign exchange risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in foreign exchange rates.

Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market interest rates.

The Company's interest rate risk mainly relates to cash and borrowings.

The Company manages interest rate risk by analyzing market conditions to obtain the most favorable interest rates while remaining within its risk management limits.

Other Price Risk

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market prices, excluding changes in interest rates and foreign exchange rates.

7. Events Occurring After the Financial Year-End

On February 25, 2023, the company received a document from the Investigation Police Agency of Thai Nguyen Province regarding the prosecution and application of preventive measures against 4 suspects from the company related to the criminal case of "Intentionally disclosing misleading information in securities activities" occurring at the company. On January 24, 2024, according to verdict No. 09/2024/HS-ST, the company had manipulated financial statements to inflate profits related to securities higher than the actual figures to report to the Securities Commission. At the same time, this profit was used to pay dividends in the form of shares.

According to the resolution of the 2025 Annual General Meeting of Shareholders No. 01/2025/NQ-DHDCD dated May 12, 2025, a plan was approved to rectify the violations related to the investigation conclusion. Accordingly, the profit used to pay dividends in shares to shareholders amounting to VND 126,699,416,077 will be compensated by unconditional and non-refundable contributions from the Board of Directors, the General Director, and shareholders on a voluntary basis. The remediation period is expected to span four years from 2025 to 2028.

8. Comparative Information

The comparative figures are the financial statements for the fiscal year ending December 31, 2022, audited by Nhan Tam Viet Auditing Co., Ltd and the interim financial statements for the first 6 months of the fiscal year ending December 31, 2022, reviewed by TTP Auditing Co., Ltd..

However, certain items in the Balance Sheet, the Statement of Profit or Loss, and the Statement of Cash Flows for the year 2021 have been restated due to several reasons:

- According to Judgment No. 09/2024/HS-ST dated January 24, 2024, the Company had misstated its operating results for the period 2016–2021. Specifically:
- + A downward adjustment of staff costs was made by preparing fictitious payroll schedules, forging employees' signatures, and omitting certain allowances that had actually been paid. As a result, total staff expenses were understated by VND 16,462,587,225, leading to an overstatement of after-tax profit in the financial statements submitted to the State Securities Commission compared to those submitted for tax purposes by the same amount. The Company has adjusted staff expenses to reflect the actual amounts incurred.

Address: Group 3, Quan Trieu Ward, Thai Nguyen Province, Vietnam INTERIM FINANCIAL STATEMENTS
The first 6 months of the fiscal year ending December 31, 2023
Notes to the Interim Financial Statements (continued)

- + The Company fabricated 85 loan contracts with individuals, with a total notional loan principal of VND 162,200,000,000, and recorded fictitious interest income of VND 6,919,441,610. This resulted in an overstatement of after-tax profit by VND 6,919,441,610. The Company has since adjusted to eliminate the false loan balances and related interest income.
- + The Company fabricated 07 investment cooperation contracts with 06 other companies, with a total contractual investment amount of VND 204,000,000,000, and recorded fictitious investment income of VND 16,112,260,273. This led to an overstatement of after-tax profit by VND 16,112,260,273. The Company has adjusted to eliminate the related investments and fictitious income.
- + The Company prepared fictitious contract appendices and handover minutes for unfinished apartment units and prematurely recognized revenue from apartment sales without meeting the legal recognition conditions, thereby overstating revenue and profit in the financial statements for the years 2016 to 2018. The Company has reviewed and restated revenue and cost of sales in accordance with the actual handover dates.

Based on the findings of the Investigation Police Agency and the Tax Authority, certain invoices were issued without corresponding goods or services. In addition, the Company reviewed certain sales invoices where it subsequently repurchased the same goods. The Company has adjusted revenue and cost of sales downward in accordance with regulations for these invoices.

Furthermore, the Company has conducted a comprehensive review of all items in the financial statements, identified discrepancies (if any), and made appropriate adjustments to ensure that the information presented in the financial statements is transparent, truthful, and fairly stated.

Due to the cumulative impact of the reasons mentioned above, some indicators in the Semi-Annual Business Performance Report and the Semi-Annual Cash Flow Report for the first six months of the fiscal year ending December 31, 2022, have been adjusted as follows:

	Code	Audited Financial Statements (Prior Year)	Adjusted Figures	Figures After Adjustment

discloser

Type of disclosure: ☐ 24 hours ☐ Ad hoc ☐ Upon request ☒ Periodic Content of information disclosure (*):

In compliance with Circular No. 96/2020/TT-BTC dated November 16, 2020 of the Ministry of Finance, TTBGROUP Joint Stock Company ("the Company") would like to report to the State Securities Commission and the Hanoi Stock Exchange regarding the explanation of the disclaimer of opinion in the reviewed Interim financial statements for 2023, prepared on September 20, 2025 and audited by Nhan Tam Viet Auditing Co., Ltd. The basis for the auditor's disclaimer of opinion and the

Company's explanations are as follows:

1. "We were unable to witness the counting of cash, inventories, and long-term unfinished business production costs of undelivered projects as of December 31, 2022. The balances of these items as of June 30, 2023 were: cash VND 134,808,618,274 (at December 31, 2022: VND 135,850,595,372), inventories VND 142,250,815,337 (at December 31, 2022: VND 145,564,579,632) and long-term unfinished business production costs of undelivered projects VND 226,663,293,193 (at December 31, 2022: VND 209,725,074,483). VND) because at that time we had not been appointed as auditors. Therefore, we do not express an opinion on the accuracy, existence and

completeness of cash and inventories, long-term work in progress of the projects not yet handed over at the above time as well as at 30 June 2023".

Explanation: On March 20, 2025, the Company signed the audit engagement contract with Nhan Tam Viet Auditing Co., Ltd. Hence, as of December 31, 2022 and June 30, 2023 the auditor could not attend the cash and inventory count nor review the Company's construction-in-progress balances.

2. "Some receivables from customers in the amount of VND 556,701,833,947 and payables to suppliers in the amount of VND 497,548,120,195 related to steel trading activities that arose last year but have not been collected as of the date of this report. By applying audit procedures, we cannot determine the existence of the above receivables as well as the assessment of the provision for doubtful debts (if any)".

Explanation: Following the prosecution of TTBGROUP's management on March 22, 2023, the Company faced significant difficulties in confirming and reconciling balances with counterparties, as documents were under investigation. Currently, the Company is actively completing documentation to settle and collect these balances, expected to be finalized by 2026.

3. "We have not yet collected the financial statements of the associated companies, therefore we do not have sufficient basis to determine the appropriateness of the investment in the associated company of VND 257,160,000,000 as of June 30, 2023".

Explanation: At the time of the audit, the three associated companies had not yet completed the audit of their 2023 financial statements. Accordingly, Nhan Tam Viet Auditing Co., Ltd. had no sufficient basis to assess the Company's investments in these associates.

4. "As of December 31, 2022 and June 30, 2023, some receivables from apartment buyers, amounting to VND 173,714,321,493 and VND 182,815,924,330 respectively, are being reflected in other receivables because the Company determined that this debt actually has no remaining balance. By applying the audit procedures, we do not have sufficient basis to determine the accuracy of the above receivables as of December 31, 2022 and June 30, 2023".

Explanation: For receivables from certain apartment buyers, due to objective reasons, the reconciliation process with customers for issuing ownership certificates was not completed as at December 31, 2022 and June 30, 2023. The Company commits to finalizing the reconciliation by December 31, 2025 to proceed with issuing ownership certificates to residents.

5. "We have not yet obtained confirmation regarding the amount of prepayments from buyers to purchase apartments at June 30, 2023 in the amount of VND 60,758,119,099

(at December 31, 2022 in the amount of VND 54,558,535,930). By applying the audit procedures, we do not have sufficient basis to determine the existence and accuracy of the above prepayments at December 31, 2022 and June 30, 2023".

Explanation: For the advances from customers for apartment purchases as of December 31, 2022, the customers made payments according to the schedules stipulated in the contracts for the purchase of apartments to be formed in the future.

The above are the reasons why Nhan Tam Viet Auditing Co., Ltd. issued a disclaimer of opinion on the Company's audited financial statements. The main reason is that the audit engagement was signed on March 20, 2025, while the Company's financial year ended on June 30, 2023, which caused significant difficulties for the auditor in carrying out sufficient audit procedures.

The Company undertakes that the information provided herein is true and accurate

Sincerely,

Recipients:

- As above.
