2. Statement on the compliance with the Accounting Standards and System

The Board of Management ensures the compliance with all the requirements of the Vietnamese Accounting Standards, the Vietnamese Enterprise Accounting System, which were issued together with the Circular No. 200/2014/TT-BTC dated 22 December 2014, the Circular No. 53/2016/TT-BTC dated 21 March 2016 as well as other Circulars guiding the implementation of the Vietnamese Accounting Standards of the Ministry of Finance in the preparation and presentation of Financial Statements.

IV. ACCOUNTING POLICIES

1. Basis of preparation of the Financial Statements

All the Financial Statements are prepared on the accrual basis (except for the information related to cash flows).

The Financial Statements are prepared in Vietnamese and English, in which the Financial Statements in Vietnamese are the official statutory financial statements of the Company. The Financial Statements in English have been translated from the Vietnamese version. Should there be any conflict between the Vietnamese and English versions, the Vietnamese version shall take precedence.

2. Foreign currency transactions

Transactions in foreign currencies are translated at the actual exchange rates ruling as of the transaction dates. The ending balances of monetary items in foreign currencies are translated at the actual exchange rates ruling as of the balance sheet date.

Foreign exchange differences arising from foreign currency transactions during the year shall be included into financial income or financial expenses. Foreign exchange differences due to the revaluation of ending balances of the monetary items in foreign currencies after offsetting their positive differences against negative differences shall be included into financial income or financial expenses.

The exchange rate used to translate foreign currency transactions is the actual exchange rate ruling as of the time of these transactions. The actual exchange rates applied to foreign currency transactions are as follows:

- For receivables: the buying rate ruling as of the time of transaction of the commercial bank where the Company designates the customers to make payments.
- For payables: the selling rate ruling as of the time of transaction of the commercial bank where the Company supposes to make payments.
- For acquisition of assets or immediate payments in foreign currency (not included into payable accounts): the buying rate of the commercial bank where the Company makes payments.

The exchange rate used to revalue ending balances of monetary items in foreign currencies as of the balance sheet date is determined as follows:

- For foreign currency deposits in banks: the buying rate of the bank where the Company opens its foreign currency account.

QUARTER IV CONSOLIDATED FINANCIAL STATEMENTS 2025

For the fiscal year end 31 December 2025

- For monetary items in foreign currencies classified as other assets: the buying rate of Vietnam Export Import Commercial Joint Stock Bank (“Eximbank”) – Hai Phong Branch where the Company frequently conducts transactions.
- For monetary items in foreign currencies classified as payables: the selling rate of Vietnam Export Import Commercial Joint Stock Bank (“Eximbank”) – Hai Phong Branch where the Company frequently conducts transactions.

3. Cash and cash equivalents

Cash includes cash on hand and demand deposits in banks. Cash equivalents are short-term investments of which the due dates do not exceed 3 months from the dates of the investments that are readily convertible into known amounts of cash and that are subject to an insignificant risk of change in value as of the balance sheet date.

4. Financial investments

Trading securities

Investments classified as trading securities are those held by the Company for the trading purpose with the aim of making profit.

Trading securities are recognized at original costs which include fair value of the payments made at the time of the transaction plus other attributable transaction costs.

The time of recognizing trading securities is when the Company acquires the ownership, as follows:

- For listed securities: recognized at the time of order-matching (T+0).
- For unlisted securities: recognized at the time of acquiring official ownership as stipulated by law.

Interest, dividends, and profit of the periods prior to the acquisition of trading securities are deducted from the cost of such securities. Interest, dividends and profit of the periods after the acquisition of such securities are recorded in the Company's financial income. Particularly, stock dividends received are not recorded as an increase in value, but the increasing quantity of shares is followed up.

Provisions for diminution in value of trading securities are made for each particular type of securities in the market of which the fair value is lower than original costs. Fair value of trading securities is determined as follows:

- For shares listed on the stock market: the closing price at the latest date of transaction to the balance sheet date.
- For shares traded on the unlisted public company market (UPCOM): the average reference price in the last 30 consecutive transaction days prior to the balance sheet date, as disclosed by the Stock Exchange.
- For shares listed on the stock market or shares of joint stock companies traded on the unlisted public company market (UPCOM) which have no trading transactions within 30 days prior to the balance sheet date, listed shares which have been delisted, suspended or stopped from trading: Provisions are made based on the losses suffered by investees, with the provision amount

determined by the difference between owners' actual contributed capital and total owners' equity as of the balance sheet date multiplied (x) by the Company's rate of charter capital owning in these investees.

Increases/ (decreases) in the provisions for diminution in value of trading securities to be recognized as of the balance sheet date are recorded into "Financial expenses".

Gain or loss on transfer of trading securities is recognized into financial income or financial expenses. Cost of trading securities transferred is determined by using the mobile weighted average method.

Investments in subsidiaries

Subsidiary is an entity that is controlled by the Company. Control is obtained when the Company achieves the ability to govern the financial and operating policies of an entity so as to obtain benefits from its activities.

Initial recognition

Investments in subsidiaries are initially recognized at costs, including the cost of purchase or capital contributions plus other directly attributable transaction costs. If the Company contributes capital by non-monetary assets, costs of the investment are recognized at the fair value of the non-monetary assets at the time of occurrence.

Dividend and profit of the periods prior to the acquisition of investments are deducted from the cost of such investments. Dividend and profit of the periods after the acquisition of such investments are recorded in the Company's financial income. Particularly, stock dividends received are not recorded as an increase in value, but the increasing quantity of shares is followed up.

Provisions for impairment of investments in subsidiaries

Provisions for impairment of investments in subsidiaries are made when the subsidiaries suffer from losses, with the provision amount determined by the difference between owners' actual contributed capital and total owners' equity as of the balance sheet date multiplied (x) by the Company's rate of charter capital owning in the subsidiaries. If the subsidiaries are parent companies and have their own Consolidated Financial Statements, provisions for impairment loss will be made based on their Consolidated Financial Statements.

Increases/ (decreases) in the provisions for impairment of investments in subsidiaries to be recognized as of the balance sheet date are recorded into "Financial expenses".

Investments in equity instruments of other entities

Investments in equity instruments of other entities include such investments in equity instruments that do not enable the Company to have the control, joint control or significant influence on these entities.

Investments in equity instruments of other entities are initially recognized at costs, including cost of purchase or capital contributions plus other directly attributable transaction costs. Dividend and profit of the periods prior to the acquisition of investments are deducted from the cost of such investments. Dividend and profit of the periods after the acquisition of such investments are

recorded in the Company's financial income. Particularly, stock dividends received are not recorded as an increase in value, but the increasing quantity of shares is followed up.

Provisions for impairment of investments in equity instruments of other entities are made as follows:

- For investments in listed shares or fair value of investments which is reliably measured, provisions are made based on the market value of shares.
- For investments of which the fair value cannot be measured at the time of reporting, provisions are made based on the losses suffered by investees, with the provision amount determined by the difference between owners' actual contributed capital and total owners' equity as of the balance sheet date multiplied (x) by the Company's rate of charter capital owning in these investees.

Increases/ (decreases) in the provisions for impairment of investments in equity instruments of other entities to be recognized as of the balance sheet date are recorded into "Financial expenses".

5. Receivables

Receivables are recognized at the carrying amounts less allowances for doubtful debts.

The classification of receivables as trade receivables and other receivables is made according to the following principles:

- Trade receivables reflect receivables concerning the commercial nature arising from purchase and sale transactions between the Company and customers who are independent to the Company.
- Other receivables reflect receivables not concerning the commercial nature and irrelevant to purchase and sale transactions.

Allowance is made for each doubtful debt based on the estimated loss.

Increases/ (decreases) in the allowance for doubtful debts to be recognized as of the balance sheet date are recorded into "General and administration expenses".

6. Inventories

Inventories are recognized at the lower of cost and net realizable value.

Costs of inventories are determined as follows:

- For materials and tools: Costs comprise costs of purchases and other directly attributable costs incurred in bringing the inventories to their present location and conditions.
- For work in progress: Costs comprise main materials, labor and other directly attributable costs.

The cost of inventories is determined using the weighted average method and recorded in accordance with the perpetual inventory system.

Address: No. 8A Van My Road, Ngo Quyen Ward, Hai Phong City, Vietnam

• QUARTER IV CONSOLIDATED FINANCIAL STATEMENTS 2025

For the fiscal year end 31 December 2025

Net realizable value is the estimated selling price of inventories in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Allowance for inventories is recognized for each type of inventories when their costs are higher than their net realizable value. Increases/ (decreases) in the allowance for inventories to be recognized as of the balance sheet date are recorded into "Costs of sales".

7. Prepaid expenses

Prepaid expenses comprise actual expenses arising and relevant to financial performance in several accounting periods. These prepaid expenses are allocated over the prepayment period or the period in which corresponding economic benefits are generated from these expenses.

Prepaid expenses of the Company primarily include:

Tools

Expenses for tools in use are allocated to expenses in accordance with the straight-line method for the maximum period of 36 months.

Expenses for fixed asset repairs

Expenses for fixed asset repairs arising once with high value are allocated to expenses in accordance with the straight-line method in 12 months.

Insurance premiums

Prepaid insurance premiums reflect the amount paid for the Company's insurance coverage. Insurance premiums are allocated to expenses in accordance with the straight-line method over the insurance term (12 months).

8. Tangible fixed assets

Tangible fixed assets are determined by their historical costs less accumulated depreciation. Historical costs of tangible fixed assets include all the expenses paid by the Company to bring the asset to its working condition for its intended use. Other expenses arising subsequent to initial recognition are included into historical costs of fixed assets only if it can be clearly demonstrated that the expenditure has resulted in future economic benefits expected to be obtained from the use of these assets. Those which do not meet the above conditions will be recorded into operating costs during the year.

When a tangible fixed asset is sold or disposed, its historical cost and accumulated depreciation are written off, then any gain or loss arising from such disposal is included in the income or the expenses during the year.

Tangible fixed assets are depreciated in accordance with the straight-line method over their estimated useful lives. The depreciation years applied are as follows:

<u>Class of fixed assets</u>	<u>Years</u>
Buildings and structures	05 – 20
Machinery and equipment	05 – 11
Vehicles	06 – 12

<u>Class of fixed assets</u>	<u>Years</u>
Office equipment	05 – 10
Other fixed assets	10

9. Intangible fixed assets

Intangible fixed assets are determined by their historical costs less accumulated amortization.

Historical costs of intangible fixed assets include all the costs paid by the Company to bring the asset to its working condition for its intended use. Other costs relevant to intangible fixed assets arising subsequent to initial recognition are included into operating costs during the period, otherwise, these costs are included into historical costs of fixed assets only if they are associated with a specific intangible fixed asset and result in future economic benefits expected to be obtained from the use of the asset.

When an intangible fixed asset is sold or disposed, its historical costs and accumulated amortization are written off, then any gain or loss arising from such disposal is included in the income or the expenses during the year.

Intangible fixed assets of the Company include:

Land use right

Land use right includes all the actual expenses paid by the Company directly attributable to the land being used such as expenses to obtain the land use right, expenses for site clearance compensation and ground leveling, registration fees, etc. If the land use right is indefinite, it is not amortized.

Computer software

Costs to obtain computer software, which is not a part associated with the relevant hardware, will be capitalized. Costs of computer software include all the expenses paid by the Company until the date the software is put into use. Computer software is amortized in accordance with the straight-line method in 5 years.

10. Payables and accrued expenses

Payables and accrued expenses are recorded based on the amounts payable for merchandise and services already used. Accrued expenses are recorded based on reasonable estimates for the amounts payable.

The classification of payables as trade payables, accrued expenses, and other payables is made on the basis of following principles:

- Trade payables reflect payables of commercial nature arising from the purchase of merchandise, services, or assets and the seller is an independent entity with the Company.
- Accrued expenses reflect expenses for merchandise, services received from suppliers or supplied to customers but have not been paid, invoiced or lack of accounting records and supporting documents; pay on leave payable to employees; and accrual of operating expenses.
- Other payables reflect payables of non-commercial nature and irrelevant to purchase, sales of merchandise or rendering of services.

• QUARTER IV CONSOLIDATED FINANCIAL STATEMENTS 2025

For the fiscal year end 31 December 2025

Payables and accrued expenses are classified into short-term and long-term ones in the Balance Sheet based on the remaining terms as of the balance sheet date.

11. Owner's equity

Owner's contribution capital

Owner's contribution capital is recorded according to the actual amounts invested by the shareholders.

Share premiums

The differences between the issuance price and face value upon the IPO, additional issue or the difference between the re-issuance price and carrying value of treasury shares and the equity component of convertible bonds upon maturity date are recognized into share premiums. Expenses directly attributable to the additional issue of shares and the re-issuance of treasury shares are recorded as a decrease in share premiums.

12. Profit distribution

Profit after tax is distributed to the shareholders after appropriation for funds under the Charter of the Company as well as legal regulations and approved by the General Meeting of Shareholders.

The distribution of profits to the shareholders is made in consideration of non-cash items in retained earnings that may affect cash flows and the ability to pay dividends such as gains from revaluation of assets invested in other entities, gains from revaluation of monetary items, financial instruments and other non-cash items.

Dividend is recorded as payables upon approval of the General Meeting of Shareholders.

13. Recognition of revenue and income

Revenue from sales of merchandise

Revenue from sales of merchandise shall be recognized when all of the following conditions are satisfied:

- The Company has transferred most of risks and benefits incident to the ownership of merchandise to customers.
- The Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the merchandise sold.
- The amount of revenue can be measured reliably. When the contract stipulates that the buyer has right to return merchandise purchased under specific conditions, revenue is recognized only when those specific conditions no longer exist and the buyer retains no right to return merchandise (except for the case that the customer has the right to return the merchandise in exchange for other merchandise or services).
- It is probable that the economic benefits associated with sale transactions will flow to the Company.
- The cost incurred or to be incurred in respect of the sale transaction can be measured reliably.

Revenue from rendering of services

• QUARTER IV CONSOLIDATED FINANCIAL STATEMENTS 2025

For the fiscal year end 31 December 2025

Revenue from rendering of services shall be recognized when all of the following conditions are satisfied:

- The amount of revenue can be measured reliably. When the contract stipulates that the buyer is entitled to return the services rendered under specific conditions, revenue is recognized only when those specific conditions no longer exist and the buyer is not entitled to return the services rendered.
- The Company received or shall probably receive the economic benefits associated with the rendering of services.
- The stage of completion of the transaction at the end of reporting period can be measured reliably.
- The costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

In the case that the services are rendered in several accounting periods, revenue is recognized on the basis of the stage of completion as of the balance sheet date.

Interest

Interest is recorded, based on the term and the actual interest rate applied in each particular period.

Dividend income

Income from dividends is recognized when the Company has the right to receive dividends from the investees. Particularly, stock dividends received are not recorded as an increase in value, but the increasing quantity of shares is followed up.

14. Borrowing costs

Borrowing costs are interest expenses and other costs that the Company directly incurs in connection with the borrowings. Borrowing costs are recorded as expenses when incurred.

15. Expenses

Expenses are those that result in outflows of the Company's economic benefits and are recorded at the time of transactions or when incurrence of the transaction is reliable regardless of whether payment for expenses is made or not.

Expenses and their corresponding revenues are simultaneously recognized in accordance with matching principle. In the event that matching principle conflicts with prudence principle, expenses are recognized based on the nature and regulations of accounting standards in order to guarantee that transactions can be fairly and truly reflected.

16. Corporate income tax

Corporate income tax only includes current income tax, which is the tax amount computed based on the taxable income. Taxable income is different from accounting profit due to the adjustments of temporary differences between tax and accounting figures, non-deductible expenses as well as those of non-taxable income and losses brought forward.

17. Related parties

Parties are considered to be related parties in case that one party is able to control the other party or has significant influence on the financial and operating decisions of the other party. Parties are also considered to be related parties in case that they are under the common control or under the common significant influence.
