

**CENTRAL PHARMECEUTICAL
JOINT STOCK COMPANY N.3**

THE SOCIALIST REPUBLIC OF VIET NAM
Independence – Freedom – Happiness

No: 05-2026/CV-TGD-DP3
About Explanation of the difference in
after-tax profit in Q2/2026 compared
to the same period last year

Hai Phong, date 20 month 10 year 2026

Dear: State Securities Commission of Vietnam
Hanoi Stock Exchange

First and foremost, Central Pharmaceutical Joint Stock Company N.3 would like to express its sincere gratitude for the attention and support from all relevant agencies over the past period.

Based on Clause 4, Article 14 of Circular 96/2020/TT-BTC dated November 16, 2020, issued by the Ministry of Finance, it is stipulated that "Listed organizations must disclose information on quarterly financial statements within 20 days from the end of the quarter. In case of a fluctuation of 10% or more in after-tax profit compared to the same period, the company must provide a clear explanation of the reasons in that financial statement". Following the regulations of the Ministry of Finance, on 20 October, 2026, Central Pharmaceutical Joint Stock Company N.3 announced information with the content of the financial report for the third quarter of 2026 with the following results:

Net profit after corporate income tax for Q3/2026	Net profit after corporate income tax for Q3/2025	Compare Q3/2026 with Q3/2025	
		Difference	% Difference
31,405,109,793	23,023,568,464	+ 8,381,541,329	+ 36.40%

The company's after-tax profit in Q3/2026 increased by VND 8,381,541,329 compared to Q3/2025 due to the following reasons:

Compared to the third quarter of 2025, the Company's total revenue and expenses in the third quarter of 2026 both increased; however, the increase in revenue was greater than the increase in expenses. Specifically, total revenue increased by VND 11,267,944,069, of which net revenue from sales of goods and rendering of services increased by VND 9,174,306,958 as the Company intensified its sales efforts and expanded its markets, resulting in growth in revenue across all sales channels. Financial income and other income increased by VND 2,093,637,111. Total expenses increased by VND 2,886,402,740.

As the growth rate of revenue exceeded that of expenses, the Company's profit after tax for the third quarter of 2026 increased by VND 8,381,541,329, equivalent to 36.40%, compared to the third quarter of 2025.

The above are the Company's explanations regarding the fluctuation in profit as presented in the Financial Statements for the third quarter of 2026 compared to the third quarter of 2025, submitted to the State Securities Commission and the Hanoi Stock Exchange (HNX).

Sincerely./.
