2. Contents:

a) Explanation of profit after tax in the production and business results report changing by 10% compared to the same period report last year:

No	Item	Q3/2026 (VND)	Q3/2025 (VND)	Diff.
1	Profit after Tax	-626,861,046	4,340,150	

Reason: Revenue in the third quarter of 2026 decreased significantly compared to the same period last year. Meanwhile, input costs increased, and high debt levels led to high interest expenses, resulting in a decrease in net profit after tax and a difference of over 10% compared to the same period last year..

b) Explanation: The after-tax profit for the period was a loss, shifting from a profit in the same period of the previous year to a loss in this period.

The specific figures are as follows:

Net profit after tax for Q3 2025: VND 4,340,150

Net profit after tax for Q3 2026: VND (626,861,046)

Reasons: In the third quarter of 2026, revenue was low, while interest expenses, administrative expenses, and related costs continued to accrue, resulting in a loss. This was due to a decrease in the volume of completed construction

projects that had not yet been accepted and paid for, compared to the same period last year.
