Pursuant to the Circular No. 96/2020/TT-BTC dated November 16, 2020 issued by the Ministry of Finance providing guidelines on disclosure of information on the securities market, Viet First Securities Corporation (VFS) would like to explain the fluctuation in Profit after corporate income tax (CIT) that is 10% or more in the Audited Financial Statements in 2025 compared to that of last year.

Profit after CIT of VFS achieved as follows:

- 2025: VND 148.95 billion
- 2024: VND 125.17 billion

The reasons for the 19% increase in profit after CIT in 2025 compared to last year are as follows:

- Operating revenue increased by VND 230.13 billion, mainly due to an increase of VND 132.78 billion in interest from held-to-maturity (HTM) investments, an increase of VND 57.95 billion in interest from loans and receivables, an increase of VND 23.06 billion in revenue from brokerage services, an increase of VND 9.97 billion in revenue from securities custody services, an increase of VND 5.78 billion in gain from financial assets at fair value through profit and loss (FVTPL).
- Interest from deposits decreased by VND 13.81 billion compared to last year.
- Operating expenses increased by VND 26.70 billion, mainly due to an increase of VND 17.81 billion in expenses for brokerage services, an increase of VND 10.70 billion in expenses for securities custody services, however, expenses for proprietary trading activities witnessed a decrease of VND 1.51 billion.
- Borrowing interest increased by VND 142.74 billion.
- The Securities company 's administrative expenses increased by VND 17.04 billion.
- CIT expenses increased by VND 5.91 billion.

The entire explanation of VFS is shown as above, this explanation is attached to VFS's Audited Financial Statements in 2025.

The Company's Board of Management is responsible for preparing the Financial Statements which give a true and fair view of the financial position, operation results, cash flows and changes in owner's equity of the Company for the year of 2025. In preparing these Separate Financial Statements, Board of Management commit to comply with the following requirements:

- Selecting suitable accounting policies and then applying them consistently;
- Making reasonable and prudent judgments and estimates;
- Complying with current Vietnamese accounting standards;
- Preparing and presenting the financial statements on the basis of compliance with accounting standards and system and other related regulations;
- Preparing the Financial Statements on the going concern basis.

The Company's Board of Management is responsible for ensuring that proper accounting records are kept to disclose the financial position of the Company, with reasonable accuracy at any time, and ensuring that the Financial Statements comply with the current regulations of the State. At the same time, Board of Management is also responsible for ensuring the safety the assets of the Company and hence for taking reasonable steps for the prevention and detection of any frauds and other violations.

We, the Board of Management of the Company, confirm that the Financial Statements give a true and fair view of the financial position of the Company as at December 31, 2025, and its results of operations, cash flows and changes in equity for the year then ended, in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System and relevant statutory requirements relating to the preparation and presentation of the Financial Statements.

**For and on behalf of Board of Management
GENERAL DIRECTOR**

Nguyen Thi Thu Hang

No : 176.....BCKT/TC/2026/AASCS**INDEPENDENT AUDITOR'S REPORT**

To: - Shareholders
- Board of Directors and Board of Management
VIET FIRST SECURITIES CORPORATION

We have audited the accompanying financial statements of Viet First Securities Corporation, prepared on March 16th, 2026, as set out on page 06 to 43, which comprise the Separate Balance Sheet as at December 31st, 2025, Separate Income Statement, Separate Cash flows Statement, Separate Statement of Changes in Owner's Equity for the fiscal year then ended and Notes to the Separate Financial Statements.

The Board of Management's responsibilities

The Board of Management is responsible for the preparation and presentation of these financial statements that give a true and fair view in accordance with Vietnamese Accounting Standards, the Vietnamese Enterprise Accounting System and statutory requirements relevant to the preparation and presentation of financial statements, and for such internal control as the Board of Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error

Auditor's responsibilities

Our responsibility is to express an opinion on the Financial Statements based on our audit. We conducted our audit in accordance with Vietnamese Standards on Auditing. Those standards require that we comply with ethical requirement, plan and perform the audit in order to obtain reasonable assurance as to whether the Financial Statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence supporting the amounts and disclosures in the Financial Statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the Financial Statements, whether due to fraud or error. In making those risk assessment, the auditor considers internal control relevant to the Company's preparation and fair presentation of the Financial Statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Board of Management, as well as evaluating the overall presentation of the Financial Statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Auditor's opinion

In our opinion, the Financial Statements give a true and fair view, in all material respects, the financial position of Viet First Securities Corporation as at December 31st, 2025 and the results of its operations and its cash flows, changes in owner's equity for the fiscal year then ended in accordance with Vietnamese Accounting Standards, Vietnamese Enterprise Accounting System and applicable statutory requirements to the preparation and presentation of the Financial Statements for securities company.

5. FINANCIAL RISK MANAGEMENT FOR THE COMPANY

The Company's financial liabilities mainly include loans and debts, trade payables, and other payables. The main purpose of these financial liabilities is to mobilize financial resources to serve the company's activities. The company has loans, customer receivables, and other receivables, cash, and short-term deposits arising directly from the company's operations.

For financial activities, the Company has market risk, credit risk, and liquidity risk.

VIET FIRST SECURITIES CORPORATION

Add: 1st Floor , 117-119-121 Nguyen Du Street, Ben Thanh Ward, HCMC

Risk management is an indispensable profession for the entire business activities of the company. The company has built a control system to ensure a reasonable balance between risk costs and risk management costs. The Board of Management continuously monitors the company's risk management process to ensure an appropriate balance between risk and risk control.

The Board of Management reviews and agrees to apply management policies for the above risks as follows:

Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate with changes in market value. Market prices have different types of risks: interest rate risk, foreign currency risk, commodity risk, and other price risks, such as equity price risk. Financial instruments affected by market risk include loans and debt, deposits, financial assets recognized through profit and loss, covered warrants, and available-for-sale investments.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate with changes in market interest rates. Market risk due to changes in a company's interest rates is mainly related to the company's cash and short-term deposits. Financial liabilities have stable interest rates.

The company manages interest rate risk by analyzing the competitive situation in the market to obtain interest rates that are beneficial for the company's purposes and remain within its risk management limits. The company assesses that the risk due to the impact of interest rate changes on the company at the reporting date is insignificant. Bank deposits, certificates of deposit, corporate bonds, and company loans mostly have fixed interest rates and are recovered according to the prescribed maturity period of each item. Fixed interest rate loans are determined according to each specific loan agreement.

Foreign currency risk: None

Stock price risk

Listed and unlisted shares held by the company are affected by market risks arising from uncertainty about the future value of the investment stocks. The company manages stock price risk by setting investment limits. The company's investment board also reviews and approves stock investment decisions.

An increase or decrease in the stock index may increase or decrease a corresponding proportion of the company's revenue from investment activities, depending on the severity and duration of the decline, and on the portfolio's holding status for stocks that have a significant influence on the market index.

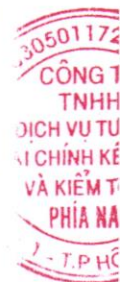

Credit risk

Credit risk is the risk that one party involved in a financial instrument or customer contract fails to fulfill its obligations, resulting in financial loss. The company faces credit risk from its business operations and financial activities, including bank deposits and other financial instruments.

Accounts receivable from customers

The company manages customer credit risk through policies, procedures, and control processes related to customer credit risk management. The credit quality of customers is assessed based on the evaluation of the Board of Management.

The company regularly monitors loans and accounts receivable that have not been collected. For large customers, the company regularly reviews any deterioration in the credit quality of each customer. The company seeks to maintain strict control over outstanding receivables and operates a credit control department to minimize credit risk. Based on this, and considering that the company's accounts receivable involve a diverse range of customers, credit risk is not significantly concentrated in any specific customer.

VIET FIRST SECURITIES CORPORATION

Add: 1st Floor , 117-119-121 Nguyen Du Street, Ben Thanh Ward, HCMC

Cash at bank

The company primarily maintains bank deposit balances with highly reputable banks in Vietnam. Credit risk related to deposit balances at banks is managed according to the company's annual risk management policy. The company's maximum credit risk for items in the financial statements at each reporting period is the carrying amount as presented in the notes to the financial statements. The company perceives the level of credit risk concentration for bank deposits to be low.

Loans and advances to customers

The company manages customer credit risk through policies, procedures, and control processes related to the margin lending and advance payment for securities sales to customers. The company only conducts margin lending with securities eligible for margin trading according to the Margin Lending Regulations and selectively evaluates them based on the company's stock quality assessment principles. Credit limits are controlled based on the value of collateral, the customer's transaction creditworthiness, and control limit criteria.

Except for the financial accounts for which the company has made provisions, the Board of Management of the company assesses that the remaining financial assets are not impaired, as these financial assets all have good liquidity.

Liquidity risk

Liquidity risk is the risk that the company will have difficulty fulfilling its financial obligations. Liquidity risk arises when the company may not be able to fulfill its debt obligations when these debts fall due, mainly because assets and liabilities have different maturity dates. The maturity of assets and liabilities represents the remaining time of assets and liabilities from the date of financial statement preparation until payment according to the provisions of the contract or issuance terms. For financial assets recognized at a fair value through profit/loss and financial assets available for sale, maturity is determined based on the liquidity (ability to be bought and sold in the short term) of the asset on the market.

The Company monitors liquidity risk by maintaining a level of cash and cash equivalents and bank loans that the Board of Management considers sufficient to meet the company's operations to minimize the impact of cash flow fluctuations.

The company believes that the risk concentration for debt repayment is low. The Company has sufficient access to capital resources and loans due within twelve (12) months may be rolled over with existing lenders.
