Based on Circular No. 96/2020/TT-BTC dated November 16, 2020 of the Ministry of Finance guiding the disclosure of information on the securities market;

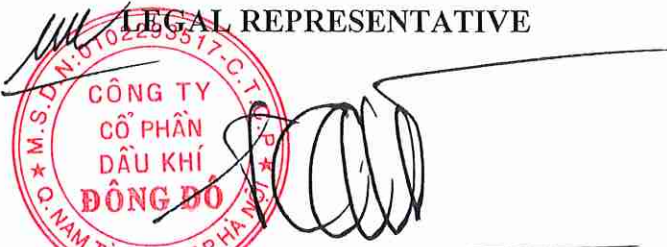

On March 27, 2025, **Dong Do Petroleum Joint Stock Company** – Stock Code: **PFL** – prepared its 2025 financial report for information disclosure as required by regulations. According to the audited financial statements, the after-tax profit in 2025 was a profit (VND 7.354 billion) compared to a profit of VND 0.376 billion in 2024. The main reasons are: increased revenue from sales and services in 2025 compared to 2024, and increased profits from financial activities and capital contributions to projects, leading to a profit in the company's 2025 financial report .

The above explains why the after-tax profit target for business operations in 2025 differs by more than 10% compared to the same period in 2024.
