Báo cáo tài chính giữa niên độ cho giai đoạn tài chính sáu tháng kết thúc ngày 30 tháng 06
năm 2026/ *Interim financial statements for the six-month period ended 30 June 2026.*

Báo cáo tỷ lệ an toàn tài chính ngày 30 tháng 06 năm 2026/ *Financial safety ratio report 30
June 2026.*

Giải trình biến động lợi nhuận giữa 6 tháng năm 2026 và 6 tháng năm 2025/ *Explanation for
changes in profit between the six-month period of 2026 and the six-month period 2025:*

Lợi nhuận sau thuế 6 tháng năm 2026 lãi 212 tỷ đồng, tăng hơn 29 tỷ VND (tương ứng mức tăng 16%) so với 6 tháng năm 2025./ *Profit after tax for the six-month period of 2026 reached VND 212 billion, an increase of over VND 29 billion (equivalent to a 16% growth) compared to the six-month period of 2025. Sự biến động này do những nguyên nhân sau/. This fluctuation was due to the following factors:*

- Doanh thu hoạt động 6 tháng năm 2026 đạt 1.313,9 tỷ đồng tăng 56% so với cùng kỳ năm 2025 trong đó chủ yếu từ lãi từ các tài sản tài chính ghi nhận qua lãi lỗ (FVTPL) tăng 83% và lãi từ các khoản cho vay và phải thu tăng 61%./ *Operating revenue for the six-month period of 2026 reached VND 1,313.9 billion, representing a 56% increase over the same period in 2025. This growth was primarily attributed to a 83% increase in gain from financial assets at fair value through profit and loss ("FVTPL") and a 61% increase in gain from loans and receivables.*
- Chi phí hoạt động tăng hơn 168,2 tỷ VND so với cùng kỳ (tương ứng mức tăng 44%), trong đó lỗ từ các tài sản tài chính FVTPL tăng khoảng 59%. / *Operating expenses increased by more than VND 168.2 billion year-on-year (a 44% increase), in which losses from FVTPL increased by approximately 59%.*
- Chi phí tài chính tăng mạnh, tăng 260 tỷ VND so với cùng kỳ (tương ứng mức tăng 177%). Nguyên nhân chủ yếu là do chi phí lãi vay tăng cao để phục vụ cho việc mở rộng quy mô vốn huy động nhằm tài trợ cho các hoạt động kinh doanh Công ty./ *Financial expenses rose sharply, increasing VND 260 billion compared to the same period (a 177% increase). The primary cause was significantly higher interest expenses incurred to expand the scale of mobilized capital to fund the Company's business activities.*

BIDV Securities Joint Stock Company

REPORT OF THE MANAGEMENT

Management of BIDV Securities Joint Stock Company ("the Company") presents this report and the interim financial statements of the Company for the six-month period ended 30 June 2026.

MANAGEMENT'S RESPONSIBILITY IN RESPECT OF THE INTERIM FINANCIAL STATEMENTS

Management of the Company is responsible for the interim financial statements of each financial period which give a true and fair view of the interim financial position of the Company and of the interim results of its operations, its interim cash flows and its interim changes in owners' equity during the period. In preparing those interim financial statements, Management is required to:

- ▶ select suitable accounting policies and apply them consistently;
- ▶ make judgments and estimates that are reasonable and prudent;
- ▶ state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the interim financial statements; and
- ▶ prepare the interim financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

Management of the Company is responsible for ensuring that proper accounting records are kept which disclose, with reasonable accuracy at any time, the interim financial position of the Company and to ensure that the accounting records comply with the applied accounting system. Management of the Company is also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of frauds and other irregularities.

Management of the Company confirmed that it has complied with the above requirements in preparing the accompanying interim financial statements.

STATEMENT BY MANAGEMENT

Management does hereby state that, in its opinion, the accompanying interim financial statements give a true and fair view of the interim financial position of the Company as at 30 June 2026 and of the interim results of its operations, its interim cash flows and its interim changes in owners' equity for the six-month period then ended in accordance with Vietnamese Accounting Standards, Vietnamese Enterprise Accounting System, accounting guidance applicable to securities companies and statutory requirements relevant to preparation and presentation of interim financial statements.

REPORT ON REVIEW OF INTERIM FINANCIAL STATEMENTS

**To: The Shareholders of
BIDV Securities Joint Stock Company**

We have reviewed the accompanying interim financial statements of BIDV Securities Joint Stock Company ("the Company") as prepared on 12 August 2026 and set out on pages 6 to 71, which comprise the interim statement of financial position as at 30 June 2026, the interim income statement, the interim cash flow statement and the interim statement of changes in owners' equity for the six-month period then ended and the notes thereto.

Management's responsibility

Management of the Company is responsible for the preparation and presentation of these interim financial statements that give a true and fair view in accordance with Vietnamese Accounting Standards, Vietnamese Enterprise Accounting System, accounting guidance applicable to securities companies and the statutory requirements relevant to the preparation and presentation of the interim financial statements, and for such internal control as Management determines is necessary to enable the preparation and presentation of the interim financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' responsibility

Our responsibility is to express a conclusion on the interim financial statements based on our review. We conducted our review in accordance with Vietnamese Standard on Review Engagements No. 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity.

A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Vietnamese Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Shape the future
with confidence

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial statements do not give a true and fair view, in all material respects, of the interim financial position of the Company as at 30 June 2026, and of the interim results of its operations, its interim cash flow and its interim changes in owner's equity for the six-month period then ended in accordance with Vietnamese Accounting Standards, Vietnamese Enterprise Accounting System, accounting guidance applicable to securities companies and statutory requirements relevant to preparation and presentation of interim financial statements.

2. BASIS OF PRESENTATION

2.1 *Applied accounting standards and system*

The interim financial statements of the Company are presented in Vietnam Dong ("VND") and in accordance with Vietnamese Enterprise Accounting System, the accounting regulation and guidance applicable to securities companies as set out in Circular No. 210/2014/TT-BTC dated 30 December 2014 ("Circular 210"), Circular No. 334/2016/TT-BTC dated 27 December 2016 ("Circular 334") amending, supplementing and replacing Appendices No. 02 and No. 04 of Circular No. 210/2014/TT-BTC, Circular No. 114/2021/TT-BTC dated 17 December 2021 providing guidance on financial regime applicable to securities companies and fund management companies, Vietnamese Standards on Accounting No. 27 –Interim financial statements and other Vietnamese Accounting Standards promulgated by the Ministry of Finance as per:

- ▶ Decision No. 149/2001/QĐ-BTC dated 31 December 2001 on the Issuance and Promulgation of four Vietnamese Standards on Accounting (Series 1);
- ▶ Decision No. 165/2002/QĐ-BTC dated 31 December 2002 on the Issuance and Promulgation of six Vietnamese Standards on Accounting (Series 2);
- ▶ Decision No. 234/2003/QĐ-BTC dated 30 December 2003 on the Issuance and Promulgation of six Vietnamese Standards on Accounting (Series 3);
- ▶ Decision No. 12/2005/QĐ-BTC dated 15 February 2005 on the Issuance and Promulgation of six Vietnamese Standards on Accounting (Series 4); and
- ▶ Decision No. 100/2005/QĐ-BTC dated 28 December 2005 on the Issuance and Promulgation of four Vietnamese Standards on Accounting (Series 5).

2.2 *Applied accounting documentation system*

The Company's registered accounting documentation system is the General Journal.

2.3 *Fiscal year*

The Company's fiscal year starts on 01 January and ends on 31 December.

The Company also prepares its interim financial statements for the six-month period from 01 January to 30 June.

2.4 *Accounting currency*

The interim financial statements are prepared in Vietnam Dong ("VND"), which is also the accounting currency of the company.

NOTES TO THE INTERIM FINANCIAL STATEMENTS (continued)
as at 30 June 2026 and for the six-month period then ended

3. STATEMENT ON COMPLIANCE WITH VIETNAMESE ACCOUNTING STANDARDS AND SYSTEMS

Management of the Company confirms that the Company has complied with Vietnamese Accounting Standards, Vietnamese Enterprise Accounting System, accounting guidance applicable to securities companies and statutory requirements relevant to preparation and presentation of interim financial statements.

Accordingly, the accompanying interim financial statements and its utilization are not designed for those who are not informed about Vietnam's accounting principles, procedures and practices and furthermore are not intended to present the interim financial position, the interim results of operations, interim cash flows and interim changes in owners' equity in accordance with accounting principles and practices generally accepted in countries other than Vietnam.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

4.1 *Changes in accounting policies*

The accounting policies used by the Company to prepare the interim financial statements have been applied consistently with those used to prepare the interim financial statements for the six-month period ended 30 June 2025 and the financial statements for the year ended 31 December 2025, except for the following change:

Circular No. 99/2025/TT-BTC providing guidance on the corporate accounting regime applicable to enterprises in all sectors and economic forms

On 27 October 2025, the Ministry of Finance issued Circular No. 99/2025/TT-BTC providing guidance on the corporate accounting regime, replacing Circular No. 200/2014/TT-BTC and its relevant amendments and supplements. During the period, the Company adopted the relevant provisions of Circular No. 99/2025/TT-BTC in the preparation and presentation of its interim financial statements. The management has assessed the impact of the adoption of Circular No. 99/2025/TT-BTC and concluded that it has no material impact on the Company's interim financial statements.

4.2 *Cash and cash equivalents*

Cash and cash equivalents comprise cash on hand, cash at banks, bank deposits for sale of underwritten securities and deposits for clearance and settlement of securities transactions of the Company and short-term, highly liquid investments with an original maturity of three months or less that are readily convertible into known amounts of cash and that are subject to an insignificant risk of change in value.

Cash deposited by customers for securities trading and cash deposited by securities issuers are presented off-balance sheet.

NOTES TO THE INTERIM FINANCIAL STATEMENTS (continued)
as at 30 June 2026 and for the six-month period then ended

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.3 Financial assets at fair value through profit and loss ("FVTPL")

Financial assets recognized at fair value through profit and loss are financial assets that satisfy either of the following conditions:

- a) It is classified as held for trading. A financial asset is classified as held for trading if:
 - ▶ It is acquired or incurred principally for the purpose of selling or repurchasing it in the near term;
 - ▶ There is evidence of a recent actual pattern of short-term profit-taking; or
 - ▶ It is a derivative (except derivative that is a financial guarantee contract or effective hedging instrument).
- b) Upon initial recognition, a financial asset is designated by the entity as at fair value through profit and loss as it meets one of the following criteria:
 - ▶ The classification eliminates or significantly reduces the inconsistent treatment that would otherwise arise from measuring the asset or recognizing gains or losses on a different basis; or
 - ▶ The financial assets are part of a group of financial assets which are managed and their performance is evaluated on a fair value basis, in accordance with the Company's risk management policy or investment strategy.

Financial assets at FVTPL are initially recognized at cost (acquisition cost of the assets excluding transaction cost arising from the purchase) and subsequently recognized at fair value.

Increase in the difference arising from revaluation of financial assets at FVTPL in comparison with the previous period is recognized into the interim income statement under "Gain from revaluation of financial assets at FVTPL". Decrease in the difference arising from revaluation of financial assets at FVTPL in comparison with the previous period is recognized into the interim income statement under "Loss from revaluation of financial assets at FVTPL".

Transaction costs relating to the purchase of the financial assets at FVTPL are recognized when incurred as expenses in the interim income statement.

4.4 Held-to-maturity investments ("HTM")

Held-to-maturity investments are non-derivative financial assets with determinable payments and fixed maturity that an entity has the positive intention and ability to hold to maturity, except for:

- a) Those that the entity upon initial recognition designates as at fair value through profit or loss;
- b) Those that the entity designates as available for sale; and
- c) Those meet the definition of loans and receivables.

HTM financial investments are recognized initially at cost (acquisition cost of the assets plus (+) transaction costs which are directly attributable to the investments such as brokerage fee, trading fee, agent fee, issuance agency fee and banking transaction fee). After initial recognition, HTM financial investments are subsequently measured at amortized cost using the effective interest rate.

Amortized cost of HTM financial investments is the amount at which the financial asset is measured at initial recognition minus (-) principal repayments, plus (+) or minus (-) the cumulative amortization using the effective interest method of any difference between that initial amount and the maturity amount, and minus (-) any reduction for impairment or irrecoverability (if any).

NOTES TO THE INTERIM FINANCIAL STATEMENTS (continued)
as at 30 June 2026 and for the six-month period then ended

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.4 Held-to-maturity investments (HTM) (continued)

The effective interest rate method is a method of calculating the cost allocation on interest income or interest expense in the period of a financial asset or a group of HTM investments.

The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument or, when appropriate, a shorter term to the net carrying amount of the financial assets or financial liabilities.

HTM investments are subjected to an assessment of impairment at the interim financial statement date. Provision is made for an HTM investment when there is any objective evidence that the investment is irrecoverable or there is uncertainty of recoverability, resulting from one or more events that has occurred after the initial recognition of the investment and that event have an impact on the estimated future cash flows of the investment that can be reliably estimated. Evidence of impairment may include a drop in the fair value/market value of the debt, indications that the debtors or a group of debtors are experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganisation and where observable data indicates that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults. When there is any evidence of impairment, provision for an HTM investment is determined as the negative difference between its fair value and amortized cost at the assessment date. Any increase/decrease in the balance of provision is recognized in the interim income statement under "*Provision expense for diminution in value and impairment of financial assets and doubtful receivables and borrowing costs of loans*".

4.5 Loans

Loans are non-derivative financial assets with fixed or identifiable payments and not listed on the market, excepted for:

- a) The amounts the Company has the intent to immediately sell or will sell in a near future which are classified as assets held for trading, and like those which, upon initial recognition, the Company categorized as such recognized at fair value through profit or loss;
- b) The amounts categorized by the Company as available for sale upon initial recognition; or
- c) The amounts whose holders cannot recover most of the initial investment value not due to credit quality impairment and which are categorized as available for sale.

Loans are initially recognized at cost. After initial recognition, loans are subsequently measured at amortized cost using the effective interest rate method.

Amortized cost of loans is the amount at which the loan is measured at initial recognition minus (-) principal repayments, plus (+) or minus (-) the cumulative amortization using the effective interest method of any difference between that initial amount and the maturity amount, and minus (-) any reduction for impairment or un-collectability (if any).

Loans are subject to an assessment of impairment at the interim financial statement date. Provision for loans is made based on estimated loss, which is calculated as the difference between the market value of the securities used as collateral for the loan and the loan balance. Any increase/decrease in the balance of provision is recognized in the interim income statement under "*Provision expense for diminution in value and impairment of financial assets and doubtful receivables and borrowing costs of loans*".

NOTES TO THE INTERIM FINANCIAL STATEMENTS (continued)
as at 30 June 2026 and for the six-month period then ended

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.6 Available-for-sale ("AFS")

Available-for-sale financial assets are those non-derivative financial assets that are designated as available for sale or are not classified as:

- a) Loans and receivables;
- b) Held-to-maturity investments; or
- c) Financial assets at fair value through profit or loss.

Available-for-sale financial assets are recognized initially at cost (acquisition cost of the assets plus (+) transaction costs which are directly attributable to the purchase of the financial assets). After initial recognition, available-for-sale financial assets are subsequently measured at fair value.

Difference arising from the revaluation of AFS financial assets in comparison with previous year is recognized under "Gain/(loss) from revaluation of AFS financial assets" in "Other comprehensive income after tax" which is a part of the interim income statement.

At the interim financial statements date, the Company assessed whether there is any objective evidence that an AFS financial asset is impaired. Any increase/decrease in the balance of provision is recognized in the interim income statement under "Provision expenses for diminution in value and impairment of financial assets and doubtful debts and borrowing costs of loans".

Where an equity instrument is classified as available-for-sale, evidence of impairment includes a significant or prolonged decline in the fair value of the investment below its original cost. "Significant" is to be evaluated against the original cost of the asset and "prolonged" indicates the period in which the fair value has been below its original cost. When any evidence of impairment exists, provision is determined as the difference between the AFS asset's cost and fair value at the assessment date. Where a debt instrument is classified as available-for-sale, the assessment of impairment is conducted using the same criteria as those applied for HTM investments. When there is any evidence of impairment, provision for an AFS asset is determined as the negative difference between its fair value and amortized cost at the assessment date.

NOTES TO THE INTERIM FINANCIAL STATEMENTS (continued)
as at 30 June 2026 and for the six-month period then ended

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.7 Fair value/market value of financial assets

Fair value/market value of the securities is determined as follows:

- ▶ For securities listed on Hanoi Stock Exchange and Ho Chi Minh City Stock Exchange, their market prices are their closing prices on the trading day preceding the date of setting up the revaluation;
- ▶ For unlisted securities registered for trading on the Unlisted Public Company Market ("UPCoM"), their market prices are the closing price on the most recent trading days up to the date of securities valuation;
- ▶ For delisted securities and suspended trading securities from the sixth day afterward, their prices are the book value at the latest financial report date;
- ▶ The actual market price for unlisted securities and securities unregistered for trading on the Unlisted Public Company Market ("UPCoM") is the actual trading prices of the latest transaction on over-the-counter ("OTC") market, based on the most recent financial statements of issuers as at the date of interim financial statements;

For securities which do not have reference price from the above sources, the fair value is determined based on financial conditions and book value of securities issuers at the revaluation date.

For the purpose of determining CIT taxable profit, the tax bases of financial assets are determined by cost minus (-) provision for diminution in value. Accordingly, market value of securities for provision purpose is determined in accordance with Circular No. 48/2019/TT-BTC and Circular No. 24/2022/TT-BTC amending and supplementing several articles of Circular No. 48/2019/TT-BTC ("Circular 48").

Subjects of provisioning do not include government bonds, government-guaranteed bonds, and municipal bonds.

NOTES TO THE INTERIM FINANCIAL STATEMENTS (continued)
as at 30 June 2026 and for the six-month period then ended

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.8 *Reclassification of financial assets*

Reclassification when selling financial assets other than FVTPL

When selling financial assets other than FVTPL, securities companies are required to reclassify those financial assets to financial assets at FVTPL. The difference arising from the revaluation of financial assets AFS which is recognized in "*Difference from revaluation of assets at fair value*" will be recognized as corresponding revenue or expenses at the date of reclassification of financial assets AFS for selling purpose.

Reclassification due to change in purpose or ability to hold

Securities companies are required to reclassify financial assets to their applicable categories if their purpose or ability to hold has changed, consequently:

- ▶ Non-derivative financial assets at FVTPL or financial assets that are not required to classify as financial asset at FVTPL at the initial recognition can be classified as loans and other receivables or as cash and cash equivalents if the requirements are met. The gains or losses arising from revaluation of financial assets at FVTPL prior to the reclassification are not allowed to be reversed.
- ▶ Due to changes in purposes or ability to hold, some HTM investments are required to be reclassified into AFS financial assets and to be reassessed at fair value. The difference arising from revaluation between carrying value and fair value are recognized under "*Difference from revaluation of assets at fair value*" in Owners' equity.

4.9 *Derecognition of financial assets*

A financial asset (or part of a group of similar financial assets) is derecognized when:

- ▶ The rights to receive cash flows from the asset have expired; or
- ▶ The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a pass-through arrangement; and either:
 - The Company has transferred substantially all the risks and rewards accompanying the asset; or
 - The Company has neither transferred nor retained substantially all the risks and rewards of the asset but has transferred the right to use the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered a transfer arrangement; and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is recognized to the extent of the Company's continuing involvement in the asset. In that case, the Company also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

The continued participation in transferred assets in the form of guarantee will be recognized at smaller value between the initial carrying value of the assets and the maximum amount that the Company is required to pay.

NOTES TO THE INTERIM FINANCIAL STATEMENTS (continued)
as at 30 June 2026 and for the six-month period then ended

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.10 Long-term investment in financial assets

Other long-term investments

Other long-term investments are recognised at cost in the Company's interim financial statements. Dividends distributed from profit after tax of other long-term investments are recognised as income in the interim income statement.

Provision for loss of other long-term investments is made when there is evidence showing that there is loss in the value of those investments at the end of the accounting year. An increase or decrease in the balance of the provisioning account is charged to financial expenses in the period.

4.11 Recognition of mortgaged financial assets

During the period, the Company had mortgaged/pledged financial assets which are used as collaterals for financial obligations of the Company.

According to the terms and conditions of the mortgage/pledge contracts, during the valid period of the contracts, the Company is not allowed to sell, transfer or use the mortgaged/pledged assets under repurchase or swap contracts with any other third party.

In case the Company is unable to fulfil its obligations, the mortgagee/pledgee is allowed to use the mortgaged/pledged assets to settle the obligations of the Company after a period specified in the mortgage/pledge contracts, since the obligations due date.

The mortgaged/pledged assets are monitored in the Company's interim statement of financial position in accordance with accounting principles relevant to the assets' classification.

4.12 Receivables

Receivables are initially recorded at cost and subsequently always presented at cost.

Receivables are subject to review for impairment based on their overdue status or estimated loss arising from undue debts of corporate debtors who have bankruptcy or are under liquidation; or of individual debtors who are missing, have fled, are prosecuted, detained or tried by law enforcement bodies, are serving sentences, having serious illness (with hospital confirmation), have deceased, or debts that have been requested for law enforcement but cannot be performed due to the debtor having fled; debt that have been sued for debt collection but the settlement of the case has been suspended.

Increases or decreases to the provision balance are recorded in the interim income statement as "Operating expenses" for the period.

The Company has made provision for doubtful receivables and handling irrecoverable receivables are as follows:

<u>Overdue period</u>	<u>Provision rate</u>
From six (06) months to less than one (01) year	30%
From one (01) year to less than two (02) years	50%
From two (02) years to less than three (03) years	70%
From three (03) years and above	100%

For receivables that are not overdue, the Management also evaluates the expected recoverability of these debts to determine the corresponding provision.

NOTES TO THE INTERIM FINANCIAL STATEMENTS (continued)
as at 30 June 2026 and for the six-month period then ended

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.13 Tangible fixed assets

Tangible fixed assets are stated at cost less accumulated depreciation.

The cost of a tangible fixed asset comprises of its purchase price and any directly attributable costs of bringing the tangible fixed asset to working condition for its intended use, and the costs of dismantling and removing the asset and restoring the site on which it is located, if any.

Expenditures for additions, improvements and renewals are added to the carrying amount of the assets and expenditures for maintenance and repairs are charged to the interim income statement as incurred.

When tangible fixed assets are sold or retired, any gain or loss resulting from their disposal (the difference between the net disposal proceeds and the carrying amount) is included in the interim income statement.

4.14 Intangible Fixed assets

Intangible fixed assets are stated at cost less accumulated depreciation/amortization.

The cost of an intangible fixed asset comprises its purchase price and any directly attributable costs of preparing the intangible fixed asset for its intended use.

Expenditures for additions, improvements are added to the carrying amount of the intangible fixed assets and other expenditures are charged to the interim income statement as incurred.

When intangible fixed assets are sold or retired, any gain or loss resulting from their disposal (the difference between the net disposal proceeds and the carrying amount) is included in the interim income statement.

4.15 Depreciation and amortization

Depreciation of tangible fixed assets and amortization of intangible fixed assets are calculated using the straight-line method over the estimated useful lives of the respective assets, as follows:

Machinery and equipment	3 - 10 years
Means of transportation	6 - 10 years
Other fixed assets	4 - 7 years
Software	3 - 8 years

4.16 Operating lease

Whether an agreement is determined as a property lease agreement depends on the nature of the agreement at the beginning: whether the implementation of the agreement depends on the use of a certain asset and whether the agreement includes clauses on the use rights of the asset.

Rental fee respective to operating leases are charged to the interim income statement on a straight-line basis over the term of the lease.

NOTES TO THE INTERIM FINANCIAL STATEMENTS (continued)
as at 30 June 2026 and for the six-month period then ended

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.17 Prepaid expenses

Prepaid expenses, including short-term prepaid expenses and long-term prepaid expenses in the interim statement of financial position, are amortized over the period for which the amounts are paid or the period in which economic benefits are generated in relation to these expenses.

The following types of expenses are recorded as long-term prepaid expenses and are amortized over the period which has been covered in the prepaid amount or up to three (03) years to the interim income statement:

- ▶ Office rental expenses;
- ▶ Insurance fees;
- ▶ Software services extension, maintenance and warranty expenses.

4.18 Borrowings and bonds issued

Borrowings and bonds issued by the Company are recorded and stated at cost at the end of the accounting period.

4.19 Payables and accrued expenses

Payables and accrued expenses are recognized for amounts to be paid in the future for bonds interest payables, goods and services received, whether or not billed to the Company.

4.20 Covered warrants payables

Covered warrants are secured securities with collateral assets issued by the Company which gives its holder the right to buy an amount of underlying securities at an exercise price or to receive a sum of money equal to the difference between the price (index) of the underlying securities and the exercise price (exercise index), when the former is higher than the latter, upon execution.

When covered warrants are issued, the Company records an increase in covered warrant payables, at the same time monitoring the number of covered warrants still allowed to be issued. At the end of the period, the Company revalues the covered warrants at fair value. The decrease in difference arising from revaluation of outstanding covered warrants at fair value in comparison with previous year is recognized in "Gain from financial assets at FVTPL" (detail as "Gain from revaluation of outstanding covered warrant payable"). The increase in difference arising from revaluation of outstanding covered warrants at fair value in comparison with previous year is recognized in "Loss from financial assets at FVTPL" (detail as "Loss from revaluation of outstanding covered warrant payable").

The costs relating to the purchase and issuance of covered warrants are recognized as purchase costs of financial assets at FVTPL in the interim income statement. Profit or loss resulted from covered warrants when repurchase, upon the maturity of covered warrants or when covered warrants is recalled, are recognized in "Gain from disposal of financial assets at FVTPL" or "Loss from disposal of financial assets at FVTPL" in the interim income statement.

The securities used as hedging for the covered warrants are monitored by the Company. At the end of the period, securities used as hedging for the covered warrants are revaluated at fair value and the differences arising from revaluation is recorded in the same way as recognising revaluation of financial assets at FVTPL.

NOTES TO THE INTERIM FINANCIAL STATEMENTS (continued)
as at 30 June 2026 and for the six-month period then ended

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.21 Employee benefits

4.21.1 Post-employment benefits

Retired employees of the Company will receive retirement benefits from the Social Insurance under the Ministry of Labor and Social Affairs. The company is required to contribute to these post-employment benefits by paying social insurance for each employee at the rate of 17.5% of the basic monthly salary, salary allowance and other supplements. Other than that, the Company has no further obligations.

4.21.2 Severance pay

According to Article 46 of the Labor Code No. 45/2019/QH14 which is effective from 01 January 2021 and Decree No. 145/2020/ND-CP of the Government providing guidance on executing some articles of the Labor Code on working conditions and labor relations, the Company has the obligation to pay a severance allowance equal to half a month's salary for each working year to employees who voluntarily resign and fully meet factors in accordance with provisions of law. Working time to calculate severance allowance is the total actual working time of the employee at the Company minus the time the employee has participated in unemployment insurance in accordance with the law regarding unemployment insurance, and the working time that has been paid severance allowance by employers. The average monthly salary used in this calculation is the average monthly salary of the latest six-month period up to the resignation date.

4.21.3 Unemployment insurance

Pursuant to Article 33 of the Law on Employment No. 74/2025/QH15, effective from 1 January 2026, and Decree No. 374/2025/ND-CP dated 31 December 2025 of the Government detailing the implementation of a number of articles of the Law on Employment regarding unemployment insurance, the Company is required to contribute to the unemployment insurance at the rate of 1% of monthly salary and wage fund of unemployment insurance joiners and deduct 1% of monthly salary and wage of each employee to contribute to the unemployment insurance fund.

4.22 Currency derivative contract

The Company participates in foreign currency transactions which provide services (such as: foreign currency forward transactions, foreign currency swap,...) for the purpose of hedging and mitigating risks of exchange rate and cash flow in the future. Gain/loss arising from transactions during the period is recognized in the interim income statement.

4.23 Treasury shares

Owner's equity instruments issued by the Company which are reacquired (treasury shares) are recognized at cost and deducted from owners' equity. No gain or loss is recognized upon purchase, sale, issue or cancellation of the Company's owners' equity instruments.

NOTES TO THE INTERIM FINANCIAL STATEMENTS (continued)
as at 30 June 2026 and for the six-month period then ended

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.24 Revenue recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. Revenue is measured at the fair value of receipts or receivables less trade discount, concessions and sales return. The following specific recognition criteria must also be met before revenue is recognized:

Revenue from brokerage services

When the contract outcome can be reliably measured, revenue is recognized by reference to the stage of completion. Where the contract outcome cannot be reliably measured, revenue is recognized only to the extent of the expenses recognized which are recoverable.

Revenue from trading of securities

Revenue from trading of securities is determined by the difference between the selling price and the weighted average cost of securities sold.

Other income

Revenues from irregular activities other than turnover-generating activities are recorded to other incomes, including: revenues from asset liquidation and sale; fines paid by customers for their contract breaches; collected insurance compensation; collected debt which had been written off and included in the preceding year expenses; payable debts which are now recorded as revenue increase as their owners no longer exist; collected tax amounts which now are reduced and reimbursed; and other revenues recorded as other incomes as stipulated by VAS 14 – "Revenue and other income".

Interest income

Interest is recognized on an accrual basis based on the time and actual interest rate for each period.

Dividends and profit distribution income

Dividend and profit distribution income are recognized when Company is entitled to receive dividends or when the Company are entitled to receive profits from its capital contributions.

Other revenues from rendering services

Where the contract outcome can be reliably measured, revenue is recognized by reference to the stage of completion.

Where the contract outcome cannot be reliably measured, revenue is recognized only to the extent of the expenses recognized which are recoverable.

4.25 Borrowing costs

Borrowing costs include accrued interest and other expenses which are directly attributable to the Company's borrowings. Borrowing costs are recorded in interim income statement on an accrual basis.

Handwritten signature

NOTES TO THE INTERIM FINANCIAL STATEMENTS (continued)
as at 30 June 2026 and for the six-month period then ended

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.26 Cost of propriety securities sold

The Company applies moving weighted average method to calculate cost of proprietary securities sold.

4.27 Corporate income tax

Current income tax

Current income tax assets and liabilities for the current and prior period are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted as at the reporting date.

Current income tax is charged or credited to the interim income statement, except when it relates to items recognized directly to owners' equity, in which case the current income tax is also dealt with in owners' equity.

Current income tax assets and liabilities are offset only when there is a legally enforceable right for the Company to set off current tax assets against current tax liabilities and when the Company intends to settle its current tax assets and liabilities on a net basis.

Deferred income tax

Deferred tax is provided, providing for temporary differences between the carrying amounts of assets and liabilities for interim financial reporting purposes and the amounts used for taxation purposes. The amount of deferred tax provided is based on the expected manner of recognized or settlement of the carrying amounts of assets and liabilities using the tax rates enacted or substantively enacted at the end of the accounting period.

A deferred tax asset is recognized only to the extent that it is probable that future taxable profits will be available for these taxable assets to be usable. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be usable.

Deferred tax assets and deferred tax liabilities are measured at the tax rates that are expected to apply to the accounting period in which the asset is recovered or the liability is settled, based on the tax rates and tax laws in effect at the reporting date. Deferred tax is recorded in the income statement, except when it relates to items recognized directly to owners' equity, in which case deferred tax is also recorded in owners' equity.

Deferred tax assets and deferred tax liabilities are offset if the Company has a legally enforceable right to offset current tax assets against current tax liabilities, and deferred tax assets and deferred tax liabilities relating to income tax are levied by the same tax authority on the same taxable entity or the Company intends to either settle the current tax liabilities and current tax assets on a net basis, or to recover the assets simultaneously with the settlement of the liabilities in each future year when the material amounts of the deferred tax liabilities or deferred tax assets are paid or recovered.

NOTES TO THE INTERIM FINANCIAL STATEMENTS (continued)
as at 30 June 2026 and for the six-month period then ended

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.28 Owners' equity

Contributed capital from shareholders

Contributed capital from stock issuance is recorded in Charter Capital at par value.

Undistributed profit

Undistributed profit comprises of realized and unrealized undistributed profit.

Unrealized profit during the period is the difference between gain and loss arisen from revaluation of financial assets at FVTPL or others through profit and loss in the interim income statement, and the deferred income tax related to the increase in revaluation of FVTPL financial assets and others during the period.

Realized profit during the period is the net difference between total revenue and income, and total expenses in the interim income statement of the Company, except for gain or loss recognized in unrealized profit.

Reserves

The Company uses annual profits after-tax to set up funds in accordance with the Resolution of the General Meeting of Shareholders.

4.29 Appropriation of net profits

Net profit after corporate income tax may be distributed to investors after being approved at the Annual General Meeting of Shareholders and after appropriation to reserve funds in accordance with the Company's Charter and provisions of Vietnamese law.

4.30 Earnings per share

Basic earnings per share amounts are calculated by dividing net profit/(loss) after tax for the year attributable to ordinary shareholders of the Group (after adjusting for the bonus and welfare fund) by the weighted average number of ordinary shares outstanding during the period.

Diluted earnings per share amounts are calculated by dividing the net profit after tax attributable to ordinary equity holders of the Company (after adjusting for interest on the convertible preference shares) by the weighted average number of ordinary shares outstanding during the period plus the weighted average number of ordinary shares that would be issued on conversion of all the dilutive potential ordinary shares into ordinary shares.

4.31 Segment information

A segment is a distinct identifiable component of the Company that is engaged in providing related products or services (business segment) or in providing products or services within a particular economic environment (geographical division). Each of these segments is subject to risks and rewards that are different from those of the other segments.

The Company's business segment is primarily defined based on the services provided to investors. Management determines the geographical segment of the Company based on the location of the assets.

NOTES TO THE INTERIM FINANCIAL STATEMENTS (continued)
as at 30 June 2026 and for the six-month period then ended

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.32 Related parties

Parties are considered related to the Company if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions, or when the Company and the other party are under common control or under common significant influence. Related parties can be enterprises or individuals, including close members of their families.

4.33 Nil balances

Items or balances required by Circular No. 210/2014/TT-BTC dated 30 December 2014 and Circular No. 334/2016/TT-BTC dated 27 December 2016 issued by the Ministry of Finance that are not shown in these interim financial statements indicate nil balances.

7. FINANCIAL ASSETS

Concepts of financial assets

Cost

Cost of a financial asset is the amount of cash or cash equivalents paid, disbursed or payable for such financial asset at its initial recognition. The transaction costs incurred directly from the purchase of financial asset might or might not be included in the cost of the financial asset, depending on the category that the financial asset is classified in.

Fair value/market value

The fair value or market value of a financial asset is the price at which the financial asset would be traded voluntarily between knowledgeable parties on an arm's length basis.

The fair value/market value of securities is determined using the method described in Note 4.7.

Amortized cost

Amortized cost of a financial investment (which is debt instrument) is the amount at which the financial asset is measured at initial recognition minus (-) principal repayments, plus (+) or minus (-) the cumulative recognized using the effective interest method of any difference between that initial amount and the maturity amount, and minus any reduction for impairment or irrecoverability (if any).

For presentation purpose, provision for diminution in value or irrecoverability of financial assets is recognized as "Provision for impairment of financial assets and mortgage assets" in the interim statement of financial position.

Carrying amount

Carrying amount of a financial asset is the amount at which the financial asset is recognized in the interim statement of financial position. Carrying amount of a financial asset might be recognized at fair value (for FVTPL and AFS financial assets) or at amortized cost (for HTM investments and loans), depending on the category that the financial asset is classified.

15. PAYMENT FOR SETTLEMENT ASSISTANCE FUND

Payment for settlement assistance fund represents the amounts deposited at Vietnam Securities Depository and Clearing Corporation.

According to Decision No. 40/QĐ-HĐTV dated 29 April 2025 issued by Vietnam Securities Depository and Clearing Corporation, the Company is required to deposit an initial amount of VND 120 million at Vietnam Securities Depository and Clearing Corporation and an annual contribution of 0.01% of the total value of brokered securities, which are listed and registered for transactions in the Stock Exchanges in the preceding year with the maximum annual contribution of VND 2.5 billion to the Settlement Assistance Fund.

The maximum contribution by each custodian member to the Settlement Assistance Fund is VND 20 billion, applicable to custodian members being securities companies having properties trading and brokerage activities.

Movements of deposits at the Settlement Assistance Fund are as follows:

Currency: VND

	30 June 2026	31 December 2025
Initial payment	120,000,000	120,000,000
Additions	13,223,227,395	13,223,227,395
Distributed interest	7,156,772,605	8,056,772,605
Total	20,500,000,000	21,400,000,000

as at 30 June 2026 and for the six-month period then ended

16. DEPOSITS FOR CLEARING FUND

According to Circular No. 58/2021/TT-BTC of the Ministry of Finance issued on 12 July 2021 guiding a number of articles of Decree No. 158/2020/ND-CP dated 31 December 2020 of the Government on derivative securities and derivative securities market, the Clearing fund is formed from the contributions of clearing members in cash or securities approved by the VSDC for the purpose of compensating for losses and settle derivative securities transactions in the name of a clearing member in case the clearing member or investor of the clearing member becomes insolvent.

According to Decision No. 28/QĐ-VSD dated 16 April 2025 of the General Director of the VSDC promulgating the Regulation on the management and use of the Clearing fund, the Company must deposit an initial amount of money of VND 10 billion at the VSDC into the Clearing fund for derivatives trading. Periodic additional contributions include additional contributions due to periodic revaluation and unusual additional contributions issued by VSDC over time.

Currency: VND

31. CORPORATE INCOME TAX EXPENSES ("CIT")

The Company's tax reports are subject to examination by the tax authorities. As the application of tax laws and regulations is susceptible to varying interpretations, the amounts reported in the interim financial statements could change later upon final determination by the tax authorities.

The current CIT payable is determined based on the taxable income for the current accounting period. The taxable income differs from income reported in the income statement because it excludes incomes which are taxable or expenses which are deducted in other periods due to the differences between the Company's accounting policies and current tax regulations, and it also excludes non-taxable income and non-deductible expenses. The Company's liability for current tax is calculated using tax rates that have been enacted as of the end of the accounting period. The Company is required to fulfil its corporate income obligation at the tax rate of 20% on the total taxable profit according to Decree No. 320/2025/ND-CP providing guidance on the Law on Corporate Income Tax dated 15 December 2025.

The current CIT estimation table of the Company is presented below:

	Currency: VND	
	For the six-month period ended 30 June 2026	For the six-month period ended 30 June 2025
Profit before tax	262,902,104,544	227,211,750,222
Tax amount at 20% rate	52,580,420,909	45,442,350,044
Adjustments to accounting profit:		
- Non-taxable income	(1,578,215,160)	(1,313,150,296)
- Non-deductible tax expenses	68,250,778	67,706,608
- Temporary differences arising from the revaluation of financial assets	(3,207,606,899)	468,994,554
- Prior deferred tax recognized this year	3,004,334,892	(468,930,021)
Total CIT expense incurred during the period	50,867,184,520	44,196,970,889
Total tax expenses recorded during the period	50,867,184,520	44,196,970,889
CIT expenses recorded in the interim income statement		
Current CIT	47,862,849,628	44,665,900,910
Deferred CIT	3,004,334,892	(468,930,021)
Total	50,867,184,520	44,196,970,889

NOTES TO THE INTERIM FINANCIAL STATEMENTS (continued)
as at 30 June 2026 and for the six-month period then ended

32. ADDITIONAL INFORMATION FOR STATEMENT OF CHANGES IN OWNERS' EQUITY

Expense, losses which are recorded directly to owners' equity:

	Currency: VND	
	For the six-month period ended 30 June 2026	For the six-month period ended 30 June 2025
Expense recorded directly to owners' equity		
- Loss from revaluation of AFS financial assets	-	(3,188,530,000)
Total	-	(3,188,530,000)

33. BASIC EARNINGS PER SHARE

Earnings per share ("EPS") is calculated by dividing the net profit after tax attributable to ordinary shareholders of the Company by the weighted average number of outstanding ordinary shares in issue during the period. After tax profit attributable to ordinary shareholders of the Company for the six-month period ended 30 June 2026 is calculated as after-tax profit after deduction for setting up non-shareholders' reserves (if any). For the purpose of preparing interim consolidated financial statements, other comprehensive incomes have not yet been included in the net profit after tax to calculate the earnings per share indicator since there is no detailed guidance:

	For the six-month period ended 30 June 2026	For the six-month period ended 30 June 2025 (restated)
Profit after tax attributable to ordinary shareholders - VND	212,034,920,024	183,014,779,333
Decreased adjustment due to appropriation to bonus and welfare fund - VND (*)	-	-
Profit used to calculate earnings per share - VND	212,034,920,024	183,014,779,333
Weighted average number of ordinary shares to calculate basic interest on shares - Shares	269,901,549	269,901,549
Earnings per share - VND	786	678

(*) According to the guidance in Vietnamese Accounting Standard No. 30 - Earnings per share, if the number of outstanding ordinary shares increases due to capitalization, issuance of bonus shares, share split or decreases due to share consolidation, the Company retroactively adjusts "Basic Earnings per share" for all reporting periods. Accordingly, the weighted average number of outstanding ordinary shares in 2025 is adjusted for the number of ordinary shares issued to pay dividends to existing shareholders in 2026.

34. OTHER INFORMATION (continued)

34.3. Operating lease commitments

The Company has lease assets under operating lease arrangements. As at the end of the period, the committed future rental payments under the operating lease agreements are as follows:

	Currency: VND	
	30 June 2026	31 December 2025
Within 1 year	48,508,067,993	44,201,349,900
More than 1 - 5 years	158,373,922,270	157,247,293,560
More than 5 years	-	5,596,994,547
Total	206,881,990,263	207,045,638,007

34.4. Purposes and policies of financial risk management

The Company's activities may be subject to a number of financial risks including market risk, credit risk and liquidity risk. In general, the Company's risk management policies are aimed at minimizing the potential adverse effects of these risks on the results of the Company's business.

The Board of Directors of the Company is responsible for setting objectives and basic rules of financial risk management for the Company, approving the Risk Management Policy (including risk limits), investment limits and investment strategies. Financial risk management policies are reviewed and adjusted regularly to cope with market fluctuations and trends.

Financial risk management is carried out by the Risk Management Department. The Risk Management Department measures the actual investment against the investment limit that has been set and prepares periodic reports for the Management to consider.

Credit risk

Credit risk is the risk that the Company incurs financial losses due to a party to a financial instrument failing to fulfill obligations or commitments signed with the Company. This risk arises mainly from bank deposits, financial assets, accounts receivable and other assets.

Bank balances

Bank balances include demand deposits, term deposits, interest receivables and deposits.

All bank deposits of the Company are deposited at credit institutions with high credit ratings. The balance with the bank is regularly monitored by the treasury department in accordance with the Company's policy and periodically reported to the Management. The Company considers the credit risk associated with balances at banks to be low.

As at 30 June 2026 and at 31 December 2025, the balances with BIDV Bank - the parent bank accounted for over 10% of the Company's equity.

34.4. Purposes and policies of financial risk management (continued)

Credit risk (continued)

FVTPL financial assets

The Company's listed and unlisted securities are only traded at or subjected to the regulations of the Ho Chi Minh City Stock Exchange and Hanoi Stock Exchange or with counterparties with a clear credit rating. All trading activities for listed and unlisted securities are paid or paid at the time of delivery of the securities through approved brokers. The risk of non-payment is considered very small because the transfer of securities is carried out only when the broker receives payment. The settlement is made only when the broker has received the securities. If one of the parties is unable to fulfill its obligations, the transaction is considered unsuccessful.

The debt securities held by the Company are corporate bonds, government bonds and bonds issued by credit institutions, issued by institutions with low credit risk. Proposals to invest in these securities are approved in accordance with the Company's investment policy. The portfolio of investments in debt securities is regularly monitored by the Investment Department, Risk management Department and Treasury Department, reporting periodically to the Management. The Company considers the credit risk associated with the Company's debt securities to be low.

Advance proceeds from sales of securities and margin deposits for derivatives trading

Advance proceeds from the sale of securities are recovered directly from the Vietnam Securities Depository and Clearing Corporation. Derivatives trading margin deposits are required to be deposited into this entity.

Vietnam Securities Depository and Clearing Corporation is a state-owned entity and has never fallen into insolvency. The Vietnam Securities Depository and Clearing Corporation requires its members to deposit money into the Settlement Support Fund and the Derivative Securities Clearing Fund to ensure solvency.

Securities companies may only receive orders to buy or sell securities of customers when they have sufficient one hundred percent (100%) of funds or securities and must take necessary measures to ensure the solvency of customers when trading orders are executed. The Company considers the credit risk associated with advances on the sale of securities to be low.

At 30 June 2026 and at 31 December 2025, none of the balances with the Vietnam Securities Depository and Clearing Corporation that were overdue but not yet recovered was subjected for impairment.

Credit risk (continued)

Margin trading contracts

Margin trading contracts are secured by securities listed on stock exchanges that are allowed for margin trading. According to current securities laws, the maximum margin lending amount is 50% of the value of securities allowed for margin trading. The list of securities that are not allowed for margin trading is regularly updated by stock exchanges. The Company's list of securities permitted for margin trading is developed, reviewed and updated regularly by the Product Development Department; The Margin Lending and Investment Advisory Council is based on a number of criteria including valuation and liquidity.

The Securities Services Department is responsible for continuously reviewing margin transaction reports including outstanding balance, collateral value and maintenance margin ratio. When the maintenance margin ratio falls below the rate stipulated by the Company (which is built in accordance with internal regulations and not lower than the statutory rate of 30%), the Company's information system will alert and the Company issues an order requesting the client to make additional deposit. When the maintenance margin ratio falls below 30%, the Company is forced to liquidate the collateral to recover the debt.

The market value of total collateral as at 30 June 2026 is VND 31,611,858,138,530 (at 31 December 2025: VND 35,060,638,236,640).

Under current securities laws, the maximum margin loan amount for an individual or an organization is 3% of the equity of a securities company. As at 30 June 2026 and at 31 December 2025, no margin loans exceed 3% of the Company's equity.

Credit risk (continued)

The credit quality analysis of margin loans at the reporting date is as follows:

Currency: VND

	<i>Total</i>	<i>Provisioned</i>	<i>Not overdue and not impaired</i>	<i>Overdue and impaired</i>			
				<i>< 90 days</i>	<i>91 - 180 days</i>	<i>> 180 days</i>	<i>> 210 days</i>
31 December 2025	9,337,839,669,408	6,649,446,800	9,324,385,597,905	6,804,624,703	-	-	-
30 June 2026	9,470,576,700,982	2,504,048,755	9,468,072,652,227	-	-	-	-

Receivables and other assets

The Company limits credit risk by dealing only with counterparties it trusts and requesting security measures when necessary.

As at 30 June 2026 and at 31 December 2025, none of the receivables represented more than 10% of the Company's equity.

NOTES TO THE INTERIM FINANCIAL STATEMENTS (continued)
as at 30 June 2026 and for the six-month period then ended

34. OTHER INFORMATION (continued)

34.4. Purposes and policies of financial risk management (continued)

Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate with changes in market prices. Market prices have different types of risks: interest rate risk, currency risk, and stock price risk.

The Company manages market price risk by analyzing the sensitivity of factors affecting the Company's financial condition and results of operations, diversifying its investment portfolio and being prudent in selecting securities to invest in within specified limits and taking hedging measures where necessary.

Interest risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The company has interest rate risk mainly related to bank deposits, loans and borrowing.

The Company manages interest rate risk by analyzing the competitive situation in the market in order to obtain interest rates that are most beneficial for the Company's purposes while remaining within the limits of risk management.

The Company's bank deposits, loans and borrowings all have fixed interest rates and short terms, so the risk due to fluctuating interest rates is negligible.

Stock price risk

The shares held by the Company are subject to market risks arising from uncertainty about the future value of investment shares. The company manages stock price risk by setting investment limits and taking hedging measures when necessary. The Company's Investment Committee also reviews and approves investment decisions in stocks.

As at 30 June 2026, if stock prices rise/fall by 10% (as at 31 December 2025: 10%) while all other variables (including tax rates) remain unchanged, the Company's pre-tax profit will be higher/lower by approximately VND 96,094,029,360 (2025: higher/lower by roughly VND 60,547,297,340). The Company presents these shares in FVTPL and AFS financial asset.

34. OTHER INFORMATION (continued)

34.4. Purposes and policies of financial risk management (continued)

Market risk (continued)

Currency risk

Currency risk is the risk that the value of financial instruments is altered resulting from changes in exchange rates. The Company manages currency risk by regularly monitoring the exchange rate situation and updating its cash flow plan in foreign currencies.

The Company's business is subject to risk from a number of foreign currencies, mainly from US Dollars and Euros.

As at 30 June 2026 and 31 December 2025, the Company held only a small number of foreign currencies denominated in US Dollars and Euros so currency risk was non-material.

Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulties in meeting financial obligations. The Company's exposure to liquidity risk arises when the Company is unable to meet its financial obligations as they fall due, primarily due to mismatches in the maturity terms of financial assets and liabilities. The maturity terms of financial assets and liabilities reflect the remaining period of financial assets and liabilities from the interim reporting date to the date of settlement set out in the contracts or terms of issuance. For FVTPL and AFS financial assets, the maturity terms are determined based on the liquidity of the assets (the ability to sell and purchase the assets in short term) on the market.

The Company monitors its liquidity risk by maintaining a level of cash and cash equivalents, borrowings deemed adequate by the Management to facilitate the Company's operations and to mitigate the effects of fluctuations in cash flows.
