STATEMENT OF THE BOARD OF DIRECTORS

The Board of Directors of Khanh Hoa Salanganes Nest Soft Drink Joint Stock Company (hereinafter referred to as the “Company”) presents this statement together with the Combined Interim Financial Statements for the first 6 months of the fiscal year ending 31 December 2026.

Responsibilities of the Executive Board

The Executive Board of the Company is responsible for the preparation of the Combined Interim Financial Statements that give a true and fair view of the financial position, the financial performance and the cash flows of the Company during the period. In order to prepare these Combined Interim Financial Statements, the Executive Board must:

- select the appropriate accounting policies and apply them consistently;
- make judgments and estimates reasonably and prudently;
- state whether applicable accounting standards have been followed or not, and all the differences subject to any material departures are disclosed and explained in the Combined Interim Financial Statements.
- prepare the Combined Interim Financial Statements of the Company on a going-concern basis unless it is inappropriate to presume that the Company will continue in business.
- design and implement effectively the internal control system to minimize the risks of material misstatements due to frauds or errors in the preparation and presentation of the Combined Interim Financial Statements.

The Executive Board hereby ensures that all the proper accounting books of the Company have been fully recorded that disclose with reasonable accuracy at any time the financial position of the Company, and that all the accounting books have been prepared in accordance with the applicable Accounting System. The Executive Board is also responsible for safeguarding the Company’s assets and consequently has taken appropriate measures to prevent and detect frauds and other irregularities.

The Executive Board confirms that the Company has complied with the aforementioned requirements in preparation of the Combined Interim Financial Statements.

Statement of the Board of Directors

In the opinion of the Board of Directors, the Combined Interim Financial Statements give a true and fair view of the financial position of the Company as of 30 June 2026, and of its financial performance and cash flows for the first 6 months of the fiscal year ending 31 December 2026, in accordance with Vietnamese Accounting Standards, the Vietnamese Enterprise Accounting System and the relevant statutory requirements on the preparation and presentation of the Combined Interim Financial Statements.

REPORT ON REVIEW OF INTERIM FINANCIAL INFORMATION

**To: THE SHAREHOLDERS, THE BOARD OF DIRECTORS AND THE EXECUTIVE BOARD
KHANH HOA SALANGANES NEST SOFT DRINK JOINT STOCK COMPANY**

We have reviewed the accompanying Combined Interim Financial Statements of Khanh Hoa Salanganes Nest Soft Drink Joint Stock Company (hereinafter referred to as “the Company”), which were prepared on 27 August 2026 from 06 to page 43 comprising the Combined Interim Statement of Financial Position as of 30 June 2026, the Combined Interim Income Statement, the Combined Interim Cash Flow Statement for the first 6 months of the fiscal year ending 31 December 2026 and the Notes to the Combined Interim Financial Statements.

Responsibility of the Executive Board

The Company’s Executive Board is responsible for the preparation, true and fair presentation of the Combined Interim Financial Statements in accordance with the Vietnamese Accounting Standards, the Vietnamese Enterprise Accounting System and relevant statutory requirements on the preparation and presentation of the Combined Interim Financial Statements; and responsible for such internal control as the Company’s Executive Board determines necessary to enable the preparation and presentation of the Combined Interim Financial Statements to be free from material misstatement due to fraud or error.

Responsibility of Auditors

Our responsibility is to express a conclusion on the Combined Interim Financial Statements based on our review. We conducted our review in accordance with Vietnamese Standards on Review Engagements 2410 - Review of Interim Financial Information performed by the Independent Auditor of the Company, scope of these principles can be applicable to review engagement of historical finance information performed by Independent Auditor of the Company.

A review of interim financial information involves performing inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical procedures and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Vietnamese Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion of auditor

Based on our review, nothing has come to our attention that causes us to believe that the accompanying Combined Interim Financial Statements do not give a true and fair view, in all material respect, of the financial position of Khanh Hoa Salanganes Nest Soft Drink Joint Stock Company as of 30 June 2026, and of its financial performance and cash flows for the first 6 months of the fiscal year ending 31 December 2026, in conformity with the Vietnamese Accounting Standards, the Vietnamese Enterprise Accounting System and relevant statutory requirements on the preparation and presentation of the Combined Interim Financial Statements.

6. Headcount

As at the end of the accounting period, the Company's headcount had 794 (the headcount of the beginning year was 818).

7. Statement of information comparability on the Financial Statements

The corresponding figures of the previous period are comparable with the figures of the current period.

During the period, the Company applied the Vietnamese Enterprise Accounting System, issued under Circular No. 99/2025/TT-BTC dated 27 October 2025 of the Ministry of Finance ("Circular 99") in replacement to Circular No. 200/2014/TT-BTC dated 22 December 2014 ("Circular 200"). Accordingly, certain items in the Combined Interim Financial Statements have been reclassified and renamed in accordance with the new regulations. The figures in the "Beginning balance" column and "Previous period" column in the Combined Interim Financial Statements have been restated in accordance with the new classifications and names specified in Circular 99 to ensure comparability. These changes do not affect the Company's total assets, total liabilities, owner's equity or profit after tax.

8. Other information

The Company's shares have been listed for trading on the UPCoM market (Unlisted Public Company Market) of the Hanoi Stock Exchange under the stock code "SKV" in line with Decision No. 896/QĐ-SGDHN dated 27 October 2017 of the Hanoi Stock Exchange. The first trading day was 03 November 2017.

II. ACCOUNTING PERIOD AND ACCOUNTING CURRENCY UNIT

1. Accounting period

The accounting period of the Company is from 1 January to 31 December annually.

2. Accounting currency unit

III. APPLICABLE ACCOUNTING STANDARDS AND SYSTEM

1. Applicable accounting system

The Company applies Vietnamese Accounting Standards, the Vietnamese Enterprise Accounting System issued under Circular No. 99/2025/TT-BTC dated 27 October 2025 ("Circular 99") and the Circulars guiding the implementation of the Vietnamese Accounting Standards of the Ministry of Finance in the preparation and presentation of the Financial Statements.

Adoption of the new enterprise accounting system

The fiscal year ended 31 December 2026 is the first fiscal year when the Company applies the Vietnamese Enterprise Accounting System under the Circular 99 in replacement to the Circular No. 200/2014/TT-BTC dated 22 December 2014.

The transition to the application of Circular 99 is carried out using the following methods:

- For changes in accounting policies where the Circular 99 provides specific transition guidance, the Company follows that guidance.
- For changes in accounting policies where the Circular 99 does not require retroactive adjustments or simplified retroactive adjustments, the Company applies the non-retroactive method.

2. Statement of the compliance with the Accounting Standards and System

The Company's Executive Board complied with the requirements of Vietnamese Accounting Standards, the Vietnamese Enterprise Accounting System issued under Circular 99, as well as the Ministry of Finance's circulars providing guidance on the implementation of accounting standards in the preparation and presentation of the Financial Statements.

IV. APPLICABLE ACCOUNTING POLICIES, ACCOUNTING ESTIMATES AND RELEVANT LEGAL REQUIREMENTS

1. Accounting convention

The Financial Statements are prepared on the accrual basis (except for the information related to cash flows) using the historical cost principle and the going-concern assumption.

The Company's affiliates have their own accounting sections but do the accounts recording dependently. The Combined Financial Statements of the whole Company are prepared on the basis of the combination of the Financial Statements of the Company's affiliates. Internal transactions and balances between the Head Office and affiliates are eliminated when preparing the Combined Financial Statements.

2. Foreign currency transactions

Transactions denominated in foreign currencies are translated at the spot exchange rate at the date of transaction. Balances of monetary items denominated in foreign currencies at the end of the accounting period (excluding foreign currency receivables for which an allowance for doubtful debts has been made) are revalued at the average buying and selling rates for transfer transactions of the Joint Stock Commercial Bank for Foreign Trade of Vietnam (Vietcombank) – Khanh Hoa Branch (the Bank with which the Company regularly conducts transactions).

Exchange differences arising from the transactions denominated in foreign currency during the period, are recognized in financial income (if a gain) or financial expenses (if a loss). Exchange differences arising from the revaluation of foreign currency-denominated monetary items at the reporting date are presented on the basis of net amount of total gains and total losses arising from the revaluation of such items and are recognized in financial income (if a gain) or financial expenses (if a loss).

COMBINED INTERIM FINANCIAL STATEMENTS

For the first 6 months of the fiscal year ending 31 December 2026

Notes to the Combined Interim Financial Statements

3. Cash and cash equivalents

Cash comprises cash on hand, demand deposits and cash in transit. Cash equivalents are short-term investments with a maturity of three months or less from the date of investment (calculated from the date of purchase to the maturity date), which can be readily converted into a known amount of cash and are not subject to significant risks in conversion to cash at the reporting date. Restricted cash and cash equivalents are not presented under this item, but under the items "Other current assets" or "Other non-current assets", depending on the duration of the restriction.

4. Financial investments

Held-to-maturity investments

A held-to-maturity investment is classified as such when the Company has the intention and ability to hold it to maturity. Held-to-maturity investments include: term deposits and loans held to maturity for the purpose of earning periodic interest, and other held-to-maturity investments or of a similar nature, and do not include derivative instruments.

Held-to-maturity investments are initially recognized at cost including the acquisition cost and other transaction costs (i.e. transaction costs, fee for brokerage, etc.). Accrued interest from the previous period up to the date of purchase is deducted from the cost of the investment at the time of initial recognition. After initial recognition, these investments are recognized at cost. Interest income arising after the date of purchase is recognised as financial income on an accrual basis.

Where there is clear evidence that part or all of an investment may be irrecoverable and the amount of the loss can be reliably determined, the loss is recognized as a financial expense during the period and deducted directly from the carrying amount of the investment. If the evidence of the loss diminishes or ceases to exist in a subsequent period, the previously recognized loss is reversed and recognized in financial income for that period.

Investments in subsidiaries

A subsidiary is an entity controlled by the Company. Control is achieved when the Company has the ability to control the financial and operating policies of the investee in order to obtain economic benefits from the activities of that enterprise.

Initial recognition

Investments in subsidiaries are subject to initial recognition at costs, including the cost of acquisition or capital contributions plus costs directly attributable to the investments (such as transaction costs and fees for brokerage, consultancy, audit, other charges, taxes and bank charges among others). In the specific case where the Company borrows funds to make investments in subsidiaries, interest expenses are recognised as financial expenses and are not capitalised. Where the investment is made using non-monetary assets, the cost of the investment is measured at the fair value of the non-monetary assets at the acquisition date. Following initial recognition, these investments are carried at cost.

Profits from periods prior to the acquisition of the investment are accounted for as a reduction in the value of that investment. Profits from periods following the acquisition of the investment are recognised as financial income.

Provisions for impairment of investments in subsidiaries

Provisions for impairment of investments in subsidiaries are recognised when a subsidiary incurs a loss or the investment is impaired, resulting in the Company being likely to incur a loss of capital. The amount of the provision is calculated by multiplying the Company's percentage of actual paid-up share capital in the subsidiary at the end of the accounting period by the difference between the owners' actual investment and the subsidiary's owner's equity at the same date.

COMBINED INTERIM FINANCIAL STATEMENTS

For the first 6 months of the fiscal year ending 31 December 2026

Notes to the Combined Interim Financial Statements

Any increase or decrease in the provision for investment losses in subsidiaries that is required to be recognised at the end of the accounting period is recognised as a financial expense.

5. Receivables

Receivables are recognized at their carrying amounts less allowances for doubtful debts.

The classification of receivables as trade receivables and other receivables is made according to the following principles:

- Trade receivables reflect receivables of a commercial nature arising from purchase and sale transactions between the Company and customers who are independent to the Company, (including receivables arising from the sale of exports on consignment to other entities).
- Other receivables reflect receivables of a non-commercial nature that do not arise from purchase and sale transactions.

Receivables are tracked in details by subject, term and original currency. The trade receivables and other receivables are classified as short-term and long-term items in the Statement of Financial Position on the basis of their remaining term as of the balance sheet date.

Allowance is made for each doubtful debt on the basis of the ages of debts after offsetting against liabilities (if any) or estimated loss as follows:

- For overdue debts:
 - 30% of the value for receivables overdue for more than 6 months but less than 1 year.
 - 50% of the value for receivables overdue for 1 year to less than 2 years.
 - 70% of the value for receivables overdue for 2 years but less than 3 years.
 - 100% of the value for receivables overdue for 3 years or more.
- For doubtful debts: Allowance is made on the basis of the estimated loss.

Increases or decreases in the obligatory allowance for doubtful debts as of the balance sheet date are recorded into general and administrative expenses.

6. Inventories

Inventories are stated at the lower of cost and net realizable value.

Cost of inventories is determined as follows:

- Materials and supplies: Costs comprise costs of purchases and other directly attributable costs incurred in bringing the inventories to their present location and conditions.
- Work-in-process costs: comprise only the costs of primary materials, secondary materials and consumables.
- For finished goods: Costs comprise costs of materials, direct labor and directly relevant general manufacturing expenses allocated on the basis of normal operations.

Inventory costs are determined in accordance with the weighted average method and recorded in line with the perpetual method.

Net realizable value is the estimated selling price of inventories in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Address: National Highway 1, Suoi Hiep Commune, Khanh Hoa Province, Vietnam

COMBINED INTERIM FINANCIAL STATEMENTS

For the first 6 months of the fiscal year ending 31 December 2026

Notes to the Combined Interim Financial Statements

Allowance for devaluation of inventories is recognized for each type of inventories when their costs exceed their net realizable values. Increases or decreases in the obligatory allowance for devaluation of inventories as of the end of accounting period are recorded into costs of sales.

Materials, equipment and spare parts with a holding period exceeding 12 months or more than one normal operating cycle, and products in process with a production or turnover period exceeding one normal operating cycle, shall not be presented as inventories but shall be presented as non-current assets in the Statement of Financial Position.

7. Deferred expenses

Deferred expenses reflect actual expenses incurred (including prepaid and unpaid expenses) relevant to financial performance in several accounting periods. These deferred expenses are allocated into operation costs of the relevant accounting periods.

In the Statement of Financial Position, deferred expenses are classified as short-term (with the maximum allocation period of 12 months or within a normal operating cycle) and long-term (with the allocation period of more than 12 months or longer than a normal operating cycle). Long-term deferred expenses shall not be re-classified as short-term when preparing the Financial Statements.

The Company allocates deferred expenses into operation costs for each period, using an appropriate allocation method and criteria on the basis of the nature and extent of each type of expenses. The timing and method of allocating deferred expenses are as follows:

Business advantage

Business advantage arising from the privatisation of a state-owned enterprise is recognised at the value determined in the Enterprise Valuation Report dated 30 June 2016. Business advantage is amortised over a period not exceeding 10 years from the date the Company commenced operations as a joint-stock company.

Lease costs

Prepaid expenses represent rental paid in advance for premises currently in use. Rental is amortised on a straight-line basis over the lease term.

Tools and supplies

The tools and supplies issued for use in connection with business operations over multiple accounting periods are recognized as deferred expenses and are allocated into operation costs on a straight-line basis over their estimated useful lives (36 months for maximum).

8. Tangible fixed assets

Tangible fixed assets are stated at historical cost less accumulated depreciation. The historical cost of tangible fixed assets comprises all costs incurred by the Company to acquire the asset up to the date on which it is ready for use.

Subsequent costs are added to historical costs of fixed assets only if it is probable that future economic benefits associated with the asset will flow to the Group. Subsequent costs that do not meet the above conditions will be recognized as operation costs during the period. Costs of routine repairs and maintenance of tangible fixed assets are recognized into operation costs in the period in which they are incurred. For fixed assets that must undergo periodic repairs and maintenance in accordance with technical requirements, significant expenses incurred for repairing and maintaining these fixed assets are recognized as deferred expenses and amortized gradually into operation costs until the next routine repair or maintenance period.

KHANH HOA SALANGANES NEST SOFT DRINK JOINT STOCK COMPANY

Address: National Highway 1, Suoi Hiep Commune, Khanh Hoa Province, Vietnam

COMBINED INTERIM FINANCIAL STATEMENTS

For the first 6 months of the fiscal year ending 31 December 2026

Notes to the Combined Interim Financial Statements

When a tangible fixed asset is sold or disposed of, its historical cost and accumulated depreciation are written off, and any gain or loss arising from the disposal is recognised as income or an expense in the period.

Tangible fixed assets are depreciated on a straight-line basis over their estimated useful lives. The useful life and amortization method are reviewed at least at the end of every fiscal year and adjusted if necessary. The depreciation years of tangible fixed assets are as follows:

<u>Type of fixed assets</u>	<u>Number of years</u>
Buildings and structures	06 – 20
Machinery and equipment	06 – 10
Vehicles	06 – 10
Management equipment and tools	06 – 08
Other fixed assets	06

9. Intangible fixed assets

Intangible fixed assets are stated at historical cost less accumulated amortisation.

The initial cost of intangible fixed assets comprises all costs incurred by the Company to acquire the asset up to the date on which it is ready for use. Subsequent costs attributable to intangible fixed assets are recognized as operation costs during the period in which they are incurred, unless such costs are directly attributable to a specific intangible fixed asset and increase the future economic benefits expected to be derived from that asset.

When an intangible fixed asset is sold or disposed of, its historical cost and accumulated amortization are written off, and any gain or loss arising from the disposal is recognised as income or an expense for the period.

The useful life and amortization method are reviewed at least at the end of every fiscal year and adjusted if necessary.

The Company's intangible fixed assets comprise:

Land use rights

Land use right includes all the actual expenses paid by the Company directly related to the land being used, including payments made to obtain the land use right, compensation and site clearance costs, land levelling costs, registration fees, etc. The Company's land use rights comprise long-term residential land and land for perennial crops with a fixed term. The Company does not depreciate any of its land use rights.

Computer software

Costs relating to computer software that are not an integral part of the associated hardware are capitalised. The historical cost of computer software comprises all costs incurred by the Group up to the date the software is put into use. Computer software is depreciated on a straight-line basis over five years.

COMBINED INTERIM FINANCIAL STATEMENTS

For the first 6 months of the fiscal year ending 31 December 2026

Notes to the Combined Interim Financial Statements

10. Construction in progress

Construction in progress costs reflect costs directly attributable to assets under construction and machinery and equipment being installed, including capitalised borrowing costs in accordance with Vietnamese Accounting Standards No. 16 – Borrowing Costs (“VAS 16”). These assets are recorded at historical cost and are not depreciated until they are available for use. Upon completion, all costs are transferred to the appropriate asset categories based on their intended use, including tangible fixed assets, intangible fixed assets, investment property or inventories, and depreciation/amortization commences when the assets are available for use.

Costs of upgrades and renovations of fixed assets in progress are accounted for separately and, upon completion, are added to the historical cost of the corresponding fixed assets.

Expenses on repairing and maintaining fixed assets periodically during each period are recognised as production and operating costs for the period. For fixed assets that must undergo periodic repairs and maintenance in accordance with technical requirements, the related costs are accumulated separately. Upon completion, the expenses are recognized as deferred expenses and amortized to operating expenses over the period until the next scheduled repair or maintenance.

11. Payables and accrued expenses

Payables and accrued expenses are recognized for amounts to be paid in the future in respect of goods and services received. Accrued expenses are recognized based on reasonable estimates of the amounts payable.

Payables are classified as trade payables, accrued expenses and other payables based on the following principles:

- Trade payables represent liabilities of a commercial nature arising from the purchase of goods, services or assets, where the suppliers are independent third parties of the Company, including payables for import through entrustment.
- Accrued expenses reflect: amounts payable for merchandise or services received from suppliers or provided to customers during the period but not yet actually paid due to insufficient supporting documents, records or accounting records; payables to employees in respect of holiday pay; and other production and operating costs that must be accrued in advance (such as costs during seasonal production stoppages and interest expenses).
- Other payables represent liabilities of a non-commercial nature that do not arise from the purchase, sales of merchandise or provisions of services.

Payables and accrued expenses are classified as current or non-current on the Statement of Financial Position based on their remaining maturity as at the end of the accounting period.

12. Payables for dividends and profit distributions

Dividends are recognized as liabilities when the Company has no right to refuse its obligation to pay dividends to shareholders under the provisions of the law on securities.

Upon recognising the payment obligation, cash dividends payable are recorded under ‘payables for dividends and profit distributions’ and presented as liabilities on the Statement of Financial Position.

13. Owner's equity

Owner's capital

The contributed capital is recorded according to the actual amounts invested by the shareholders.

Share premiums

Share premiums are recognised and comprise:

- the difference between the issuance price and par value upon the IPO, additional issue.
- The difference between the repurchase price and the re-issue price for share repurchases conducted by the company itself.

Direct costs related to a successful share issue are recorded as a decrease in share premiums. Costs arising from an unsuccessful share issue are recorded as financial expenses during the period.

14. Distribution of profits

Profit after tax is distributed to shareholders after appropriations have been made for funds in accordance with the Company's Chartè and legal regulations, and following approval by the General Meeting of Shareholders.

The distribution of profits to the shareholders is made with consideration toward non-cash items in the retained profit that may affect cash flows and payment of dividends such as profit due to revaluation of assets contributed as investment capital, profit due to revaluation of monetary items, financial instruments and other non-cash items.

15. Recognition of revenue and income

Revenue from sales of merchandise and finished goods

Revenue from sales of merchandise, finished goods shall be recognized when when the Company fulfils its contractual obligations by transferring control rights of merchandise, finished goods to customers and all of the following conditions are satisfied:

- The Company transfers most of the risks and benefits incident to the ownership of merchandise or products to customers.
- The Company no longer retains the rights to manage the merchandise and products as an owner, nor does it retain control over them.
- The amount of revenue can be measured reliably. When the contracts stipulate that buyers have the right to return merchandise, products purchased under specific conditions, the revenue is recorded only when those specific conditions no longer exist and the buyers retain no right to return merchandise, products (except for the case that such returns are in exchange for other goods or services).
- The Company received or shall probably receive the economic benefits associated with sale transactions.
- The costs incurred in respect of the sale transaction can be measured reliably.

Revenue from provisions of services

Revenue from provisions of services shall be recognized when the Company fulfils its contractual obligations and all of the following conditions are satisfied:

- The amount of revenue can be measured reliably. When the contract stipulates that the buyer is entitled to return the services provided under specific conditions, the revenue is recognized only when these specific conditions no longer exist and the buyers retain no right to return the services provided.
- The Company received or shall probably receive the economic benefits associated with the provision of services.
- The stage of completion of the transaction at the end of reporting period can be measured reliably.
- The costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

COMBINED INTERIM FINANCIAL STATEMENTS

For the first 6 months of the fiscal year ending 31 December 2026

Notes to the Combined Interim Financial Statements

When services are provided over several accounting periods, revenue is recognized by reference to the stage of completion based on the volume of work performed at the reporting date.

Interest

Interest income is recognized based on the term and the effective interest rate applicable in each particular period.

Distributable profits

Distributed profits are recognised when the Company is entitled to receive profits from investment activities. For investments in other entities, the recognition date is decided in accordance with the Law on Enterprises and the Charter of the investee. Only the portion of profits relating to the period after the investment date is recognised as financial income; the portion relating to the period prior to the investment date is recorded as a reduction in the carrying amount of the investment.

16. Revenue deductions

Revenue deductions include trade discounts, sales allowances and sales returns. These items are tracked separately and included into revenue from sales of goods and provisions of services to determine net revenue for the reporting period.

In case of products, merchandise and services provided in the previous periods but trade discounts, sales allowances, sales returns incurred in the following period, revenue deduction is recognized as follows:

- If the revenue deductions arise prior to the issuance date of the Financial Statements: this constitutes a post-balance-sheet event and is recognized as a revenue deduction in the Financial Statements for the reporting period.
- If the revenue deductions arise after the issuance date of the Financial Statements: they are recognized as revenue deductions for the period in which they arise.

17. Borrowing costs

Borrowing costs are interest and other costs that the Company incurs in connection with the borrowing.

Borrowing costs are recognized as an expense during the period when they are incurred, unless they are qualified for capitalized borrowing costs.

Borrowing costs that are directly attributable to the construction or the production of an asset in progress, which takes a substantial period of time (over 12 months) to get ready for intended use or sales, are capitalized as part of that asset when it is probable that they will result in future economic benefits to the Company and the borrowing costs can be reliably measured.

The capitalization of borrowing costs commences when all three of the following conditions are concurrently met:

- Expenditure for the construction or production of the asset have been incurred;
- Borrowing costs have been incurred; and
- Activities necessary to prepare the asset for its intended use or sale are being undertaken.

Capitalization is suspended during periods when the construction or production process is abnormally interrupted. Capitalization stops when substantially all activities necessary to prepare the asset for its intended use or sale have been completed.

Address: National Highway 1, Suoi Hiep Commune, Khanh Hoa Province, Vietnam

COMBINED INTERIM FINANCIAL STATEMENTS

For the first 6 months of the fiscal year ending 31 December 2026

Notes to the Combined Interim Financial Statements

For a specific borrowing for purpose of construction or production of an asset in progress, the capitalized borrowing costs are the actual borrowing costs incurred, less any investment income on the temporary investment of those borrowings.

For general loans, part of which is used for the construction or production of assets under construction, the borrowing costs to be capitalised are determined in proportion to the capitalisation rate applicable to the weighted average cumulative costs incurred in the construction or production of that asset. The capitalisation rate is calculated as the weighted average interest rate on outstanding borrowings during the period, excluding separate borrowings specifically intended for the creation of a particular asset.

18. Expenses

Expenses are those that result in outflows of the economic benefits and are recorded at the time of transactions or when incurrence of the transaction is reliable regardless of whether payment for expenses is made or not. Expenses are recognized even if they are not yet due for payment, provided that their incurrence is reasonably certain in order to ensure the principle of prudence and capital preservation.

When the Company recognizes revenue, it shall recognize the costs corresponding to generating that revenue. Such cost included those incurred in the period in which the revenue was generated together with cost incurred in the previous periods or accrued expenses related to the revenue generated in that period. In the event that matching principle conflicts with prudence principle, expenses are recognized based on the nature and regulations of accounting standards in order to guarantee that transactions can be fairly and truly reflected.

19. Corporate income tax

The Company's corporate income tax accounting policy is implemented in accordance with the provisions of the Law on Corporate Income Tax No. 67/2025/QH15 dated 14 June 2025, Decree No. 320/2025/NĐ-CP dated 15 November 2025 of the Government detailing certain provisions of the Law on Corporate Income Tax, guidance documents issued by the Ministry of Finance, and other relevant legal provisions. Corporate income tax includes current income tax and deferred income tax.

Current corporate income tax

Current income tax includes the tax amount computed based on the assessable income during the year and the current corporate income tax rate. The assessable income is different from accounting profit due to the adjustments of temporary differences between tax and accounting figures, non-deductible expenses as well as those of non-taxable income and losses brought forward.

On a quarterly basis, the Company determines and recognizes the provisional corporate income tax payable based on the tax return. At the end of the fiscal year, the Company determines the actual corporate income tax payable based on the final tax return and adjusts any differences with the provisional amounts recognized during the year.

Deferred income tax

Deferred income tax is the amount of corporate income tax payable or refundable due to temporary differences between book values of assets and liabilities serving the preparation of the Financial Statements and the values for tax purposes.

Deferred income tax liabilities are recognized for all the temporary taxable differences, except to the extent that they arise from the initial recognition of an asset or liability in a transaction that, at the time of transaction, affects neither accounting profit nor taxable income.

Address: National Highway 1, Suoi Hiep Commune, Khanh Hoa Province, Vietnam

COMBINED INTERIM FINANCIAL STATEMENTS

For the first 6 months of the fiscal year ending 31 December 2026

Notes to the Combined Interim Financial Statements

Deferred income tax assets are recognized for all deductible temporary differences to the extent that future taxable income will be available against which the deductible temporary difference can be utilized. Deferred income tax assets are also recognized for unused taxable losses and tax credits to the extent that it is probable that future taxable profit will be available against which they can be utilized. Deferred income tax assets and deferred income tax liabilities arising from transactions recognized directly in owner's equity are not recognized into deferred income tax expense.

The carrying amount of deferred corporate income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be recovered.

Deferred income tax assets and deferred income tax liabilities are measured using the tax rates that are expected to apply in the period when the assets are recovered or the liabilities are settled, based on the effective tax rates and tax laws that have been enacted or substantively enacted by the reporting date.

When preparing the Statement of Financial Position, the Company offsets deferred tax assets and deferred tax liabilities if:

- The Company has the legal right to offset current income tax assets against current income tax liabilities; and
- Deferred income tax assets and deferred income tax liabilities are relevant to corporate income tax levied by the same taxation authority on either:
 - The same taxable subjects; or
 - The Company has intention to pay current income tax liabilities and current income tax assets on a net basis or recover tax assets and settle tax liability simultaneously in each future period in which significant amounts of deferred tax liabilities or deferred tax assets are expected to be settled or recovered.

20. Related parties

A party is considered a related party of the Company if that party has the ability to control the Company or exercise significant influence over the Company, or has power to participate in financial and operating policy decisions of the Company. A party is also considered a related party of the Company if both parties are subject to common control.

Related parties of the Company include:

- The Parent Company and other subsidiaries within the Group.
- Individuals with direct or indirect voting rights and thereby have significant influence over the Company, including members of the Board of Directors and their close family members.
- Key management personnel with the authority and responsibility to plan, manage and control the Company's operations, including the Executive Board, the Supervisory Board, other management members and close family members of these individuals.
- Entities over which individuals referred to above are able to exercise sufficient influence through direct or indirect ownership of voting rights, including entities owned by key management personnel or major shareholders of the Company and entities that share key management personnel with the Company.

Close family members of an individual are those who may cause influence or be influenced by that individual in their dealings with the Company, including the individual's parents, spouse, children and siblings.

A related party transaction is a transfer of resources, services or obligations between related parties, regardless of whether a price is charged.

COMBINED INTERIM FINANCIAL STATEMENTS

For the first 6 months of the fiscal year ending 31 December 2026

Notes to the Combined Interim Financial Statements

In considering if parties are related, attention is directed to the substance of the relationship and not merely its legal form.

21. Segment reporting

A business segment is a distinguishable component of the Company that is engaged in manufacturing or providing products or services and that is subject to risks and returns that are different from those of other business segments.

A geographical segment is a distinguishable component of the Company that is engaged in manufacturing or providing products or services within a particular economic environment and that is subject to risks and returns that are different from those of components operating in other economic environments.

The nature of economic risks and benefits is the primary basis for determining whether the primary segment report is prepared by the business field or geographical area. Conversely, if risks and rates of return are primarily influenced by differences in geographical area, the primary segment report is prepared by geographical area and the secondary segment report is prepared by the business field. The Company's organizational structure, management and internal financial reporting system form the primary basis for determining whether a segment report is primary or secondary.

A segment must be reported if the majority of its revenue derives from external sales of goods and provisions of services and meets at least one of the following thresholds:

- The segment's revenue accounts for 10% or more of the total revenue of all segments.
- The segment's financial performance accounts for 10% or more of the total financial performance of all profitable segments or the total financial performance of all loss-making segments (whichever is greater in absolute terms).
- The segment's total assets account for 10% or more of the total assets of all segments.

Information on the segment is prepared and presented in accordance with the accounting policies applied to the preparation and presentation of the Company's Combined Interim Financial Statements.

Notes to the Combined Interim Financial Statements

2. Segment information

The Company operates in only business field, which is the processing of products and functional foods made from salanganes nests, and within geographical area in Vietnam.

3. Comparative figures

Adoption of new accounting systems/regulations

The fiscal year ended 31 December 2026 is the first fiscal year when the Company applies the Vietnamese Enterprise Accounting System under the Circular 99 in replacement to the Circular No. 200/2014/TT-BTC dated 22 December 2014.

The transition to the application of Circular 99 is carried out using the following methods:

- For changes in accounting policies where the Circular 99 provides specific transition guidance, the Company follows that guidance.
- For changes in accounting policies where the Circular 99 does not require retroactive adjustments or simplified retroactive adjustments, the Company applies the non-retroactive method.

The impact of applying the new accounting systems/regulations on the comparative figures in the Combined Interim Financial Statements is as follows:
