NOTES TO THE SEPARATE FINANCIAL STATEMENTS**I. GENERAL INFORMATION****1. Establishment and operation, Term of operation**

Ho Chi Minh City Development Joint Stock Commercial Bank (herein referred to as “the Bank” or “HDBank”) is a joint stock commercial bank incorporated and registered in the Socialist Republic of Vietnam.

On 06 June 1992, the Bank was granted Establishment and Operation License No. 00019/NH-GP issued by the State Bank of Vietnam (“SBV”) for a period of 99 years from the date of issuance. On 12 February 2020, the SBV issued Establishment and Operation License No. 26/GP-NHNN replacing Establishment and Operation License No. 00019/NH-GP and the amendments to the Establishment and Operation License of the Bank from 2010 to 2019. The latest decision related to the amendment and supplement to the Establishment and Operation License was issued by the SBV on 25 June 2026.

The Bank’s first Business Registration Certificate No. 0300608092 dated 11 August 1992 was issued by the Department of Planning and Investment of Ho Chi Minh City (currently known as Department of Finance of Ho Chi Minh City) and the Bank commenced operations from the date of license issuance. The latest (33th) amended Enterprise Registration Certificate was issued by the Department of Planning and Investment of Ho Chi Minh City on 05 September 2023.

The principal activities of the Bank are to mobilise and receive short, medium and long-term funds from organisations and individuals; to grant short, medium and long-term loans to organisations and individuals based on the nature and capabilities of the Bank’s capital resources; to trade foreign currencies; to provide international trade finance services; to discount commercial notes, bonds and other valuable papers; to provide settlement services and to provide other banking services as permitted by the SBV.

2. Charter capital

As at 30 June 2026, the Bank's charter capital is VND 50,052,763 million.

3. The Board of Directors

The members of the Board of Directors of the Bank during the period and to the date of this report are as follows:

Name	Position
Mr. Kim Byoungcho	Chairman cum/Independent Member
Ms. Nguyen Thi Phuong Thao	Standing Vice Chairwoman
Mr. Luu Duc Khanh	Vice Chairman
Mr. Nguyen Thanh Do	Vice Chairman
Mr. Pham Quoc Thanh	Vice Chairman
Mr. Le Manh Dung	Independent Member

4. The Board of Management, Chief Financial Officer and Chief Accountant

The members of the Board of Management, Chief Financial Officer and Chief Accountant of the Bank during the period and to the date of this report are as follows:

Name	Position
Mr. Nguyen Huu Dang	General Director
Mr. Nguyen Minh Duc	Deputy General Director
Mr. Nguyen Van Hao	Deputy General Director
Mr. Tran Thai Hoa	Deputy General Director
Mr. Tran Hoai Nam	Deputy General Director
Mr. Dam The Thai	Deputy General Director
Mr. Pham Van Dau	Chief Financial Officer
Ms. Ho Dang Hoang Quyen	Chief Accountant

5. Operating network

The Head Office of the Bank is located at 25Bis Nguyen Thi Minh Khai, Sai Gon Ward, Ho Chi Minh City. As at 30 June 2026, the Bank has one (01) Head Office; one (01) northern representative offices in Hanoi City; one (01) representative office in Myanmar; eighty seven (87) branches and two hundred and eighty-eight (288) transaction offices in provinces and cities across the country.

6. Subsidiaries

As at 30 June 2026, the Bank has three (03) subsidiary companies as follows:

No	Name	Established in accordance with	Nature of business	Proportion of ownership
1	HD SAISON Finance Co., Ltd ("HD SAISON")	Establishment and Operation License No. 05/GP-NHNN issued by the SBV on 08 May 2007 and most recent amendment License No. 67/GP-NHNN issued by the SBV dated 31 October 2017	Banking and Finance	50%
2	Vikki Digital Bank Limited ("Vikki Bank") (i)	Establishment and Operation License No. 0009/NH-GP issued by the SBV on 27 March 1992 and most recent amendment Decision No. 237/QĐ-NHNN dated 14 February 2025	Banking and Finance	100%
3	HD Securities Corporation ("HDS") (ii)	Establishment and Operation License 47/UBCK-GPHĐKD issued by State Securities Commission of Vietnam on 28 December 2006 and most recent amendment License 67/GPĐC-UBCK dated 05 June 2026	Securities	90%

- (i) Under the regulations of Law on Credit Institutions No. 32/2024/QH15 issued by the National Assembly on 18 January 2024, the Bank is not required to consolidate the financial statements of Vikki Digital Bank Limited, which is excluded from the consolidated capital adequacy ratio calculation.
- (ii) HDS became a subsidiary company of the Bank from 22 May 2026.

7. Employees

The total number of employees of the Bank as at 30 June 2026 was 10,496 (as at 31 December 2025: 10,426).

II. ACCOUNTING PERIOD AND ACCOUNTING CURRENCY

1. Accounting period

The Bank's financial year begins on 01 January and ends on 31 December.
The second quarter accounting period of the Bank begins on 1 April and ends on 30 June.

2. Accounting currency

The Bank's accounting currency is Vietnam dong ("VND" or "Dong"). The separate financial statements are prepared and presented in VND, rounded to the nearest million ("VND million"). The Bank determines its accounting currency in accordance with Vietnamese Accounting Standards, Vietnamese Accounting System and applicable regulations.

III. APPLIED ACCOUNTING STANDARDS AND SYSTEM

1. Statement of compliance

The Board of Management is responsible for ensuring that proper accounting records are kept which disclose, with reasonable accuracy at any time, the separate financial position of the Bank, and that the separate financial statements comply with Vietnamese Accounting Standards, accounting regime applicable to credit institutions in Vietnam and legal regulations relating to separate financial reporting.

2. Basis of preparation separate financial statement

The separate financial statements expressed in Vietnam Dong (VND), are prepared under the historical cost convention and in accordance with Vietnamese Accounting Standards, accounting regime applicable to credit institutions in Vietnam and legal regulations relating to separate financial reporting.

The accompanying separate financial statements are not intended to present the separate financial position, separate financial performance and separate cash flows in accordance with accounting principles and practices generally accepted in countries and jurisdictions other than Vietnam.

Separately, the Bank has also prepared consolidated financial statements of the Bank and its subsidiary, in accordance with Vietnamese Accounting Standards, Vietnamese Accounting System and applicable regulations on preparation and presentation of consolidated financial statements. In the consolidated financial statements, subsidiary undertakings, which are those companies over which the Bank has the power to govern the financial and operating policies, have been fully consolidated.

Users of these separate financial statements of the Bank should read them together with the consolidated financial statements of the Bank and its subsidiary for the period ended 30 June 2026 in order to obtain full information of the consolidated financial position, consolidated results of operations and consolidated cash flows of the Bank and its subsidiary.

3. Assumptions and uses of estimates

The preparation of the separate financial statements in conformity with Vietnamese Accounting Standards, accounting regime applicable to credit institutions in Vietnam and legal regulations relating to separate financial reporting requires the Board of Management to make estimates and assumptions that affect the reported amounts of assets, liabilities and disclosures of contingent assets and liabilities at the date of the separate financial statements and the reported amounts of revenues and expenses during the accounting period. Such estimates and assumptions are continually evaluated. They are based on historical experiences and other factors, including expectations of future events that may have a financial impact on the Bank and that are assessed by the Board of Management to be reasonable under the circumstances.

IV. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**1. Foreign currencies transactions**

According to the Bank's accounting system, all transactions are recorded in original currencies. Transactions denominated in foreign currencies are translated using the exchange rate applied on the transaction date.

At the end of each month, monetary assets and liabilities denominated in foreign currencies are translated into VND using the exchange rate applied on the last day of the month (the exchange rate applied according to Circular 22/2017/TT-NHNN issued on 29 December 2017).

Foreign exchange differences at the end of the month are recognised in the foreign exchange differences item in the separate statement of financial position at month end and transferred to the separate income statement at year end.

2. Derivatives and hedging accounting***Foreign currency forward and swap contracts***

For foreign currency forward and swap contracts, the difference between equivalent VND amounts of foreign currency purchase/sale commitments using the forward exchange rate and the spot exchange rate as at effective date of the contract is recognized immediately at the effective date of the contract under "Interest and fee receivables" item or "Interest and fee payables" item in the separate statement of financial position. The difference is subsequently allocated to "Net gain/(loss) from foreign currency trading" item on a straight-line basis over the term of the contract.

Commitments of foreign currency forward contracts are revaluated monthly and exchange differences arising from the revaluation of foreign currency-denominated balances of these contracts are recognized in the separate income statement at the end of the month and transferred to the separate income statement at year end.

Interest rate swap contracts

Commitments of one-currency-interest-rate swap contracts are monitored off the separate statement of financial position.

For two-currency-interest-rate swap contracts with nominal principal swap, at the effective date of the contract, commitments monitored off the separate statement of financial position and exchanged

principals are recognized in the separate statement of financial position. Income and expenses arising from interest rate effects are recorded on the accrual basis.

For two-currency-interest-rate swap contracts without nominal principal swap, at the effective date of the contract, commitments are monitored off the separate statement of financial position. Income and expenses arising from interest rate effects are recorded on the accrual basis.

3. Income and expenses

Interest and similar income/expenses

Interest income and interest expenses are recognized in the separate income statement on the accrual basis. The recognition of accrued interest income arising from the loans that are classified from group 2 upwards in accordance with Circular 31, accrued interest income on loans restructured and maintained as Current loan group (group 1) will not be recognized in the separate income statement. Accrued interest income on such loans is recorded as an off-balance-sheet item and is recognized in the separate income statement upon actual receipt.

Interest income from purchased debts is recognized in the separate statement of income on an accrual basis. Accrued interest income arising from purchased debts subject to Circular 31 and classified from Group 2 and above shall not be recognized in the separate income statement. Accrued interest from these purchased debts is transferred to and monitored as off-balance sheet items and is only recognized in the separate income statement upon actual receipt by the Bank.

Interest income and interest expenses from investment securities are recorded in the separate income statement on the accrual basis. Accrued interest income of securities that are fallen within the scope of Circular 31 and classified from group 2 upwards is not recognized in the separate income statement. These accruals are recorded as off-balance-sheet items and are only recognized in the separate income statement upon actual receipt.

Income from service charges and commissions

Income from service charges and commissions includes fee received from settlement services, treasury services and other services, which are recognised on an accrual basis in the separate income statement when service is rendered.

Income from service charges and commissions is only recognised when all four (4) of the following conditions are satisfied:

- (a) The amount of income can be measured reliably;
- (b) It is probable that the economic benefits associated with the transaction will flow to the Bank;
- (c) The percentage of completion of the transaction at the separate statement of financial position date can be measured reliably; and
- (d) The costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

Income from investment, securities trading

Income from investment, securities trading is recognized as difference between selling price and cost of securities sold.

Other income from credit activities

Other income from credit activities primarily comprises fees such as loan withdrawal commitment fees, standby credit limit fees, early repayment fees, and other fees associated with credit activities, which is recognised when the completion of the work as per the agreed-upon work under the contract/agreement can be reliably determined at the date of preparation of the separate financial statements.

Recognition of dividends and profits received

Cash dividends and profits received from investment and capital contributions activities are recorded in the separate income statement when the Bank's right to receive dividends and profits has been established. Share dividends, which are distributed from profits of invested companies, are recognized neither as an increase in the value of received shares nor financial income in the separate financial statements but are only used for tracking the increase in the number of shares according to Circular No. 200/2014/TT-BTC dated 22 December 2014 issued by the Ministry of Finance.

Recognition of unrecoverable receivables

According to Circular No. 16/2018/TT-BTC dated 07 February 2018 ("Circular 16") issued by the Ministry of Finance, receivables recognized as accrued income but subsequently assessed to be not recoverable or not yet recoverable at the due date are recorded as reduction in revenue if the income has been accrued in the same financial year or recorded as expenses if accrued in different financial year and monitored off-balance-sheet for collection. Upon actual receipt of these receivables, the Bank recognizes them as income according to the nature of the income in the separate income statement.

4. Accounting for loans to customers, purchased debts, debt selling activities

Loans to customers are disclosed and presented at their principal amounts outstanding at the end of the reporting period.

Provision for credit losses

Classification of loans

Before 1 July 2024, loans classification and provisions for credit losses of loans to customers were made in accordance with Circular 11.

From 1 July 2024, for loans to customers, loans classification was made in accordance with Circular 31; and provisioning for credit risks was made in accordance with Decree 86.

Under Circular 31 and Decree 86, the Bank is required to apply loan classification and credit risk provisioning to the Assets (hereinafter referred to as "debts") including:

- Loans;
- Finance leasing;
- Discounts, rediscounts of negotiable instruments and other valuable papers;
- Factoring;
- Credit facilities in the form of credit card issuance;
- Payments on behalf under off-balance-sheet commitments include payments made on behalf of customers under transactions of guarantee and letters of credit (L/C) (except for payments made on behalf of customers under transactions of Usance Payable at Sight (UPAS) L/C that allow the beneficiary to be paid immediately or before the L/C due date, and those under transactions of L/C reimbursement as agreed with customers using the reimbursing bank's funds from the date the

- reimbursing bank pays the beneficiary; transactions of L/C payment negotiation) and other payments made on behalf of customers under off-balance sheet commitments;
- Amounts for purchase and entrustment of purchase of corporate bonds (including bonds issued by other credit institutions) which have not yet been listed on stock exchanges nor registered for trading on the UPCoM trading system (hereinafter referred to as unlisted bonds), excluding the purchase of unlisted bonds with trusted funds to which the trustee bears the risk;
 - Credit granting entrustment;
 - Deposits (except for current accounts at other domestic credit institutions and foreign bank branches, and deposits at Vietnam Bank for Social Policies following regulations of the SBV on maintaining the balance of deposits at Vietnam Bank for Social Policies of state credit institutions) at other credit institutions and foreign bank branches as prescribed by law, and deposits (except for current deposits) at overseas credit institutions;
 - Debt sale and purchase according to the State Bank's regulations except for bad debt buying and selling transactions conducted between credit institutions or foreign bank branches and Vietnam Asset Management Company (VAMC);
 - Repos of Government bonds in the stock market following the law on issuance, registration, depository, listing and trading of Government debt securities in the stock market;
 - Purchase of certificates of deposit issued by other credit institutions and foreign bank branches;
 - Transactions of Usance Payable at Sight (UPAS) L/C that allow the beneficiary to be paid immediately or before the L/C due date, and those under transactions of L/C reimbursement as agreed with customers using the reimbursing bank's funds from the date the reimbursing bank pays the beneficiary; transactions of L/C payment negotiation; and
 - Outright purchase without recourse of sets of documents presented under L/Cs, except where a commercial bank or foreign bank branch purchases outright without recourse of documents presented under an L/C which it has issued.

Accordingly, customers' debt group is determined to be the highest of risk group as classified under Article 10 and Article 11 of Circular 31 and customers' highest debt group at credit institutions provided by the Credit Information Center ("CIC") of the SBV at the time of loan classification.

The Bank maintains the same debt group for a number of loans in accordance with the provisions of Circular No. 02/2023/TT-NHNN dated 23 April 2023 ("Circular 02") and Circular No. 06/2024/TT-NHNN dated 18 June 2024 ("Circular 06") of the SBV amending and supplementing a number of articles of Circular 02 providing instructions for credit institutions and foreign bank branches on debt rescheduling and debt category maintaining to assist borrowers in difficulty and documents of the SBV on debt classification and risk provisioning. The restructuring of repayment terms for customers in accordance with Circular 02 and Circular 06 will be implemented until 31 December 2024

Loans are classified by risk level into the following groups: Current, Special mention, Sub-standard, Doubtful and Loss. Loans classified as either Substandard, Doubtful or Loss are considered bad debts.

Provision for credit losses

Loans are classified and provisioned for credit losses at the end of each month. The credit loss provision as at 30 June is recognised in the separate income statement.

Specific provision

The specific provision as at 30 June is calculated by subtracting the discounted value of collateral from the outstanding loan balance multiplied by the specific provision rate based on the loan classification result as at 30 June. The specific provision rate for each debt group according to Decree 86 is prescribed as follows:

Group	Category	Specific provision rate
1	Current	0%
2	Special mention	5%
3	Sub-standard	20%
4	Doubtful	50%
5	Loss	100%

General provision

Following Decree 86, a general provision is made for credit losses that are yet to be identified during the loan classification and specific provisioning process as well as in cases where the credit institutions encounter potential financial difficulties due to the deterioration in loan quality. Accordingly, the Bank is required to make and maintain a general provision at 0.75% of the total outstanding loan balances which are classified into groups 1 to 4, excluding deposits at domestic credit institutions and foreign bank branches as prescribed by law and deposits at overseas credit institutions; loans and forward purchase of valuable papers among credit institutions and foreign bank branches in Vietnam; purchases of certificates of deposit or bonds issued locally by other credit institutions and foreign bank branches; and repurchase agreements of Government bonds on the stock market in accordance with the legal regulations on issuance, registration, depository listing and trading of government debt instruments in the stock market and other debts arising between credit institutions and foreign bank branches in Vietnam in accordance with the provisions of law.

Write-off of bad debts

Provision is recorded as an expense on the separate income statement and used to write-off bad debts. In accordance with Decree 86, the Bank must set up Risk Handling Council to review and approve the use of provisions for handling risks related to loans classified as Group 5, or if borrowers are either liquidated or bankrupted legal entities or deceased or missing individual.

After a minimum period of 5 years from the date of using the reserve to handle risks and after all measures of the Risk Handling Council have been taken to recover the debt but have not been recovered, the debt may be removed from the off-balance sheet according to the decision of the Bank's Annual General Meeting of Shareholders.

Debt purchasing activities

Debt purchase are recognized at the purchase price, which is the amount the Bank must pay to the seller under the debt purchase contract.

In cases where the debt purchase price is less than or equal to the outstanding principal balance of the purchased debt

The Bank records the principal collected under the credit contract of the purchased debt as a reduction of the debt purchase price. In the event that the debt purchase price has been fully recovered, any remaining principal collected (representing the difference between the principal of the purchased debt and the debt purchase price) is recognized as income.

Interest amounts collected under the credit contract of the purchased debt are recognized as income.

In cases where the debt purchase price is greater than the outstanding principal balance of the purchased debt

The Bank records the collection of principal and interest under the credit contract of the purchased debt as a reduction of the debt purchase price. When the remaining debt purchase price is less than or equal to the outstanding principal balance of the purchased debt at that time, any collection of principal and interest under the credit contract of the purchased debt is recorded as the cases where the debt purchase price is less than or equal to the outstanding principal balance of the purchased debt.

In the event that the debt purchase price is not fully recovered, the Bank shall handle the unrecovered amount in accordance with the financial regulations for credit institutions and other relevant legal provisions.

Classification and allowance for credit losses on Debt purchasing activities

The Bank classifies the amount paid for the debt purchase into a risk group no less risky than the group in which the debt was classified at the latest point prior to the purchase and continues to perform classification for the purchased debt in a manner similar to loans and advances to customers at the Bank (see details in the accounting policy note for "Provision for credit losses").

Debt selling activities

Debt selling price is the amount of cash the Bank receives from the debt purchaser according to the debt selling contract.

Sold debts that have not been written off

In case the debt selling amount is greater or equal than the principal balance of the sold debt

The Bank records the recovered amount from the principal, interest of sold debts according to the credit contract of the sold debt. In case the entire principal, interest of the sold debt is fully recovered, the remaining amount from the debt sale (the difference between the debt sale amount and the principal, interest of the sold debt) received is recognized as other income in the Bank's separate financial statement.

In case the debt selling amount is less than the principal balance of the sold debt

The Bank records the recovery as part of the sold debt amount for the principal collected according to the credit contract of the sold debt. In case the entire amount of debt selling cannot be recovered, the Bank handles the unrecoverable amount in accordance with the financial regime applicable to the credit institution and prevailing regulations.

Classification and provisioning for risks of debt selling activities

The Bank classifies the receivable amount from selling the debt into with risk not yet settled similarly to loans to customers at the Bank itself (see details in the accounting policy notes for "Provision for credit losses").

Sold debts that have been written off

The debt selling price under the debt selling agreement is recognized as other income in the Bank's separate income statement upon the full transfer of rights and obligations under the agreement.

5. **Trading and investment securities**

Trading securities

Trading securities include debt securities and equity securities that the Bank has bought and had the intention to sell in the near future to gain benefits from price differences. Trading securities are recognized at cost at the date of transaction and subsequently recorded at cost during the holding period. Interest and cash dividends derived from trading securities are recognized on a cash basis in the separate income statement.

These securities are subject to impairment review at the date of the separate financial statements. Provisions for securities that are stipulated in the scope of Circular 31 (as described in the summary of significant accounting policies for "Provision for credit losses") are made in accordance with Decree 86. Provisions for impairment of securities that are not stipulated in the scope of Circular 31 are made when their carrying values are higher than their market values determined in accordance with prevailing accounting regulations.

The difference between the provision made at the end of the current period and the provision made at the end of the previous financial year is recognized in the separate income statement as "Net gain/(loss) from trading securities".

Investment securities

Available-for-sale investment securities

Available-for-sale securities include debt and equity securities that the Bank holds for investment and available-for-sale purposes, not frequently traded but can be sold when there is a benefit. For equity securities, the Bank is neither the founding shareholder nor the strategic partner of the investees.

Available-for-sale equity securities are recognized at cost at the transaction date and subsequently recorded at cost during the holding period.

Available-for-sale debt securities are initially recognized at par value at the transaction date. Accrued interest before the acquisition date (for debt securities with interest payment in arrears) or interest income received upfront awaiting amortization (for debt securities with interest payment in advance) is recorded in a separate account. Any discount or premium, which is the negative/positive difference between the cost and the amount equal to par value plus (+) accrued interest before the acquisition date (if any) or minus (-) interest received upfront awaiting amortization (if any), is also recorded in a separate account.

During the term of those securities in subsequent period, these securities are recorded at par value, and the discount/premium (if any) is amortized into the separate income statement using the straight-line method over the estimate remaining term of securities. The interest received during the securities term is recorded as follows: accumulative interest income before the purchasing date is recorded as a decrease from the cost of such securities and the same amount is credited into the accrued interest income; accumulative interest income after the purchasing date is recognised as the Bank's income on an accrual basis. Interest received in advance is recorded as income from securities investment using the straight-line method over the period of securities investment.

Periodically, available-for-sale securities are subject to impairment review. Provisions for securities that are stipulated in the scope of Circular 31 (as described in the summary of significant accounting policies for "Provision for credit losses") are made in accordance with Decree 86. Provisions for impairment of securities that are not stipulated in the scope of Circular 31 are made when their carrying values are higher than their

market values determined in accordance with prevailing accounting regulations. Provision for impairment is recorded in the separate income statement as "Net gain/(loss) from investment securities".

Held-to-maturity investment securities

Held-to-maturity investment securities are debt securities that the Bank purchases for investment purposes to gain interest and the Bank has the intention and the capacity to hold the securities until maturity, including special bonds issued by Vietnam Debt and Asset Trading Corporation ("DATC"). Held-to-maturity securities have determinable value and fixed maturity dates. In case of being sold before maturity, they will be reclassified as trading or available-for-sale securities. Held-to-maturity investment securities are recognized similarly to available-for-sale debt securities.

Periodically, held-to-maturity securities are subject to impairment review. Provisions for securities that are fallen within the scope of Circular 31 (as described in the summary of significant accounting policies for "Provision for credit losses") are made in accordance with Decree 86. Provisions for impairment of securities that are not fallen within the scope of Circular 31 are made when their carrying values are higher than their market values determined in accordance with prevailing accounting regulations. Provision for impairment is recorded in the separate income statement as "Net gain/(loss) from investment securities".

Reclassification

According to Official Letter No. 2601/NHNN-TCKT dated 14 April 2009 by the SBV, reclassification after the transaction date is made only once for each item of investment securities. In special cases or in case a large number of securities have to be reclassified (greater than or equal to 50% of the total value of the portfolio), the Bank will disclose the effect of reclassification on total assets, liabilities, equity, income and expenses of the Bank in the separate financial statements.

6. Cash and cash equivalents

Cash and cash equivalents comprise cash, gold, current accounts at the SBV, current accounts, time deposits with term of three months or less from the deposit date at other credit institutions and securities investment with the original maturity of three months or less from the transaction date.

7. Classification of off-balance-sheet commitments

The Bank classifies guarantee, acceptances of payment and irrevocable loan commitments and other credit risk-bearing commitments (collectively referred to as "off-balance-sheet commitments") into groups as stipulated in Article 09, Article 10, or Article 11 of Circular 31. Accordingly, off-balance-sheet commitments are classified by risk level into the following groups: Current, Special mention, Sub-standard, Doubtful and Loss.

The Bank does not make general and specific provisions for off-balance-sheet commitments in accordance with the regulations of Decree 86.

8. Taxation

Corporate income tax expense represents the sum of the current corporate income tax expense and deferred tax.

The current corporate income tax expense is calculated based on taxable profit for the period. Taxable profit differs from profit before tax as reported in the separate income statement because it excludes items of income or expense that are taxable or deductible in other periods (including loss carried forward, if any) and it further excludes items that are never taxable or deductible.

Deferred tax is recognized on temporary differences between carrying amounts of assets and liabilities in the separate financial statements and the corresponding tax bases. Deferred tax liabilities are generally recognized for all taxable temporary differences, unless they occurred from the initial recognition of an asset or liability of a transaction which has no impact on accounting profit or taxable profit/(loss) at the transaction date. Deferred tax assets are recognized to the extent that it is probable that taxable profit will be available against which deductible temporary differences can be utilized.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realized. Deferred tax is charged or credited to the separate income statement, except when it relates to items charged or credited directly to equity, in which case the deferred tax is also dealt with in equity.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to corporate income taxes levied by the same tax authority and the Bank intends to settle its current tax assets and liabilities on a net basis.

The determination of the current corporate income tax expense is based on the current interpretation of tax regulations. However, these regulations are subject to periodic variation and their ultimate determination depends on the results of the tax authorities' examinations.

Other taxes are paid in accordance with the prevailing tax laws in Vietnam.

9. Deposits and borrowings from other credit institutions, deposits from customers and valuable papers

Deposits and borrowings from other credit institutions, deposits from customers and valuable papers in issue are recorded at their principal balances at the reporting date.

At the time of initial recognition, the issuance costs of valuable papers in issue are recorded as a reduction in the principal balance of valuable papers in issue. Subsequently, the Bank allocates these costs to the item "Interest and similar expenses" based on a straight-line basis over the term of valuable papers in issue.

10. Capital and reserves

Owners' capital

Owners' capital is recorded based on the actual contributions made by shareholders and is reflected at the par value of the shares.

Share premium

When capital is received from shareholders, the difference between selling price and par value is recorded as share premium in owners' equity. Incurred expenses that directly relate to the issuance of common shares are recognized as a decrease in share premium.

Treasury shares

When issued shares by the Bank are repurchased, the aggregate amount paid, including expenses that directly relate to the repurchase of shares, after deducting taxes, is recorded as treasury shares and stated as a decrease in owners' equity.

When treasury shares are reissued or sold, the cost of reissued or sold shares is determined using the weighted average method. Any difference between the consideration received and the cost of the reissued or sold shares is recognized in share premium.

Profit distribution

Reserves are used for specific purposes and are appropriated from the Bank's profit after tax based on the regulated ratios in the following sequence:

- Supplementary charter capital reserve: 10% of profit after tax but not exceeding the Bank's charter capital;
- Financial reserve fund: 10% of profit after tax; and
- Development Investment fund and other reserves: appropriated in accordance with current regulations and the Decisions of the General Shareholders' Meeting.

These statutory reserves are not allowed to be distributed and are recognised as part of equity.

Bonus and welfare funds are appropriated in accordance with the decision of the Annual General Shareholders' Meeting and are recognized as a payable in the separate statement of financial position.

11. Items with no balance

The items not presented in these separate financial statements in accordance with Decision No. 16/2007/QĐ-NHNN dated 18 April 2007 ("Decision 16"), Circular No. 49/2014/TT-NHNN on the financial reporting regime for credit institutions issued by the SBV on 31 December 2014, and Circular No. 27/2021/TT-NHNN dated 31 December 2021, amending and supplementing certain regulations of Decision 16, are items with no balances.

VII. SUPPLEMENT FOR OTHER ITEMS

20. Related party balances and transactions

The parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making decisions on financial and operating policies. A party is considered as a related party with the Bank if:

- (a) Directly or indirectly through one or more intermediaries, the party:
 - Controls, or is controlled by, or is under common control by the Bank (including the holding company and its subsidiaries);
 - Contributes capital to the Bank and therefore has significant influence over the Bank;
 - Has joint control over the Bank;
- (b) The party is a joint venture or an associate of which the Bank is a venturer or an investor;
- (c) The party has a key management personnel who is also a member of the Board of Directors, Board of Supervisors, and Board of Management of the Bank;
- (d) The party is a close member of the family of any individual referred to in (a) or (c);

- (e) The party is a bank/an entity that is, directly or indirectly controlled, jointly controlled or significantly influenced by, or of which, significant voting power in such entity resides with, any individual referred to in (c) or (d).

Details of significant transactions with related parties during the period ended 30 June 2026 are as follows:

	<u>30/06/2026</u>

(*) Including loans to other credit institutions and loans to customers.

(**) Including deposits from other credit institutions and deposits from customers.

VIII. FINANCIAL RISK MANAGEMENT

22. Financial risk management policies for financial instruments

Risk policies, limits and management tools are embedded in daily operations of the Bank.

The Bank's objective is to manage its risk adequately within the approved limits. Therefore, the use of financial instruments, including receiving deposits from customers and investing in high-quality assets to achieve sufficient interest margins, are core activities of the Bank. From risk management perspective, this primarily involves maintaining loans to individuals and organisational borrowers of varied creditworthiness, in both local and foreign currencies, as well as off-statement of financial position commitments (such as guarantees and letters of credit). In addition, the Bank also places its mobilised funds in loans to other banks.

Risks relating to foreign exchange and interest rate exposures are managed through the use of position limits to avoid undue concentrations and entering into counter-balancing positions in order to offset exposures. By holding high quality financial instruments, the Bank is able to manage significant risks in its operating activities and to maintain an adequate liquidity position.

23. Credit risk

Credit risk is the risk of financial loss due to customer or counterparty of the Bank being unable or unwilling to fulfil on its payment obligations, in part or as a whole under a contract or agreement with the Bank. The Bank's customer or counterparty (including credit institutions and foreign bank branches) has relationship with the Bank in term of being granted credit (including entrusted loans), receiving deposits and issuing corporate bonds.

Credit risk management and mitigation policies

The Bank has established a credit quality review process to provide early identification of possible changes in the financial position and creditworthiness of counterparties. Counterparty's limit is established by the use of a credit rating system, which assigns each counterparty a risk rating. Risk ratings are subject to regular revision and updates.

Maximum exposure to credit risk

The maximum exposure to credit risk is the carrying amounts on the separate statement of financial position as well as off-statement of financial position financial instruments, without taking into account any collateral assets held or other credit enhancements. For contingent liabilities, the maximum exposure to credit risk is the maximum amount that the Bank would have to pay if the obligations of the instruments issued are called upon.

24. Market risks

Currency risks

Currency risk is the risk that the Bank's asset or value of an investment fluctuates due to changes in foreign exchange rates.

The Bank was incorporated and operates in Vietnam and its reporting currency is VND. The Bank's main transaction currency is VND, while a part of the Bank's asset-capital is in foreign currencies (USD, EUR, etc.). Thus, currency risk may arise.

The book value of cash assets and cash liabilities denominated in foreign currencies as at 30 June 2026 are as follows:

ITEMS	EUR equivalent VND Million	USD equivalent VND Million	Gold equivalent VND Million	Other currency equivalent VND Million	Total VND Million

(*) Excluding provision.

Interest rate risks

Interest rate risk is the possibility of the Bank's income or asset value being affected when market interest rate fluctuates. The Bank regularly controls structure of the proportions and terms of the assets and the liabilities of the Bank and also manages interest rate risks by controlling the interest rate difference according to the maturity scale.

The re-pricing period for effective interest rate is the remaining period from the date of the separate financial statements to the nearest interest rate re-pricing term of assets and liabilities. The following assumptions and conditions have been adopted in the analysis of the re-pricing period of the Bank's assets and liabilities:

- Cash, gold; balances with the SBV; derivative financial instruments; capital contribution, long-term investments; fixed assets; other assets that do not bear risk and other liabilities are classified as "Non-interest-bearing";
- The actual interest rate repricing period of trading securities and investment securities is calculated based on the most recent interest rate repricing period or remaining maturity of each type of securities from the date of preparation of the separate financial statements;
- The actual interest rate repricing period of placements with and loans to credit institutions; loans to customer; other assets that bear risk; borrowings from the Government and the SBV; deposits and borrowings from other credit institutions; customer deposits is determined as follows:
 - Items with fixed interest rate during the contractual period: the effective interest rate re-pricing term is determined from the reporting date to maturity date;
 - Items with floating interest rate: the effective interest rate re-pricing term is determined from the reporting date to the nearest interest rate re-pricing date;
- The actual interest rate repricing period of valuable papers issued is based on the most recent interest rate repricing period or the remaining maturity of each type of valuable papers issued

Item	Current

Liquidity risk

Liquidity risk is the risk that the bank is unable to meet its debt obligations when they come due; or the bank is able to meet its debt obligations when due but at a cost higher than the average market cost.

The maturity of assets and liabilities represents the remaining time from the reporting date of the separate financial statements until the payment date regulated in the contract or terms of issuance.

The following assumptions and conditions have been adopted in the analysis of the Bank's maturity relating to its assets and liabilities:

- Cash, gold and balances with the SBV are classified into maturity up to one (1) month;
- The maturity terms of placement with and loans to other credit institutions; derivative financial instruments and other financial assets; loans to customers; investment securities; other assets; borrowings from the Government and the SBV; valuable papers issued; other liabilities is determined based on the nature of these amounts or the contractual maturity date;
- The maturity of trading securities is calculated on the basis of the probable time to convert bonds into cash;
- The maturity date of capital contribution, long-term investments is classified as over five (05) years;
- The maturity of deposits and borrowings from other credit institutions and customer deposits is determined based on the nature of these amounts or the maturity date stipulated in the contract. Current deposits from other credit institutions and current deposits are classified into maturity up to one (1) month. The maturity date for loans and term deposits is determined based on the maturity date stipulated in the contract;
- The maturity of fixed assets is determined based on the remaining useful life of the asset.

Liquidity Risk Management

The purpose of liquidity risk management is to ensure the availability of funds to meet financial obligations.

The Bank mobilizes funds from a variety of sources to mitigate liquidity risk, and at the same time, also has a flexible liquid asset management policy, monitoring future cash flows and liquidity on a daily basis. The Bank also assesses expected cash flows in case of need to mobilize additional funds.

Liquidity risk is limited by holding a large amount of cash and cash equivalents in the form of current accounts, deposits at the State Bank of Vietnam, bonds issued by the Government or guaranteed by the Government, placements with and overnight loans to other credit institutions. Risk-weighted safety ratios are also used to manage the Bank's liquidity risk.
